

Rothco ECWCS C

Underwear Bott

Get ready to dominate the winter with the Rothco ECWCS Gen III Level 1 Underwear Bottom. Made from breathable, mid-weight fabric, this thermal is that's great for layering and designed to keep you warm and dry, even in the harshest conditions. These thermals also feature a moisture-wicking lining for defense, ensuring that you stay dry through various outdoor activities.

Staying Warm & Dry:

- The base layer pulls moisture away from your skin, transferring it to the outer layers of your clothing. This allows you to stay dry, preventing your clothing from sticking to you.

Comfortable Fit:

- Constructed of a soft, stretchy spandex blend, this thermal flexes and contours to your body for optimum comfort. It also features an accessible waistband and leg openings to help retain body heat.

Active-Duty Approved:

- The thermal bottom is part of the Rothco Extended Cold Weather Clothing System (ECWCS), and is approved for use by active-duty personnel in all climates. Whether you're on a mission or camping, you'll want to keep your feet warm and dry.

Better Together:

- Stay warm and dry with our matching ECWCS Gen III Level 1 Underwear Top. Both pieces are made from the same breathable, moisture-wicking material as the bottom, so you're ready for the mission.
