

Rothco Forced Entry Tactical Boot With Side Zipper - 8 Inch

One of our number one tactical boots, Rothco's Forced Entry Tactical Boots are designed with a variety of features to get you through each challenge that comes your way. Featuring a slip-resistant outsole, the forced entry boots give improved traction while you are on the move so you don't slip and fall. The rustproof eyelets and speed lace system will keep your tactical boots tightly secured. Constantly tying and untying your boots can be quite time-consuming. However, Rothco's combat boots include a side zipper closure so you can save time by easily slipping the boots on and off while keeping the laces tied. Constructed with an action leather upper and a full grain leather vamp, the tactical work boots are built for long-lasting strength. In addition, the SWAT boots are comprised with a gusseted tongue to prevent dirt, sand and other debris from entering the boot. Ankle comfort and support is provided with the pigskin leather collar. The interior includes a steel shank for added support and moisture wicking lining to keep your feet cool and dry.

Specifications

Property	Value
