

Photocells

Monitored adjustable battery-powered antivandalic IR photocells Requested by new UL 325 ed. 6

Flips Bat

- Synchronized photocell with cover in nylon with fiber glass
- Adjustable lens about 30° along the vertical axis and 180° along the horizontal axis.
- Ideal for installations on gates or sliding gates combined with security edge. **Monitored signal 8k2resistance**
- 15 m range - 50 feet
- Protection Class IP45
- Anti-vandalism metal protection cover (optional) equipped with plastic cover for easy replacement
- Anti-vandalism front fixing screw
- **Battery-powered transmitter** (1x3,6V-8,5 Ah)
- Connector for mobile edge on leaf connection
- Moving sensor for power saving
- Reduced size: 129 x 48 x 42 mm - 5 x 1,8 x 1,6 inches
- 12V-24 Vac-Dc power supply for receiver Rx

23102142- CSA

Flips
• Metal cover Flips
23101195

Sunset Plus

- Synchronized and screened
- EMI screen suitable to work in areas with high electromagnetic disturbances
- Methacrylate plastic cover
- 15 m range - 50 feet
- Operation temperature -15° C+60°C
- 12V-24 Vac-Dc power supply
- Size: 85 x 57 x 32 mm - 3,3 x 2,2 x 1,2 inches

23102078

Eyes 2

- Synchronized photocell for outside mounting
- Adjustable lens about 30° along the vertical axis and 210° along the horizontal axis
- Ideal for installations on gates or leaves with limited space for photocells
- 98 feet range
- Protection Class IP55
- **Monitored 8K2 resistance (on request)**
- With aluminium base and strong methacrylate plastic cover
- Anti-vandalism metal protection cover
- Anti-vandalism front fixing screw
- Reduced size: 129 x 48 x 42 mm - 5 x 1,8 x 1,6 inches
- 12V-24 Vac-Dc power supply

23102165

Monitored adjustable photocells with metal cover Requested by new UL 325 ed. 6

Reflex

- Reflecting photocell with mirror
- Relay contact output : 250 VAC 2.5A of resistive
- Detecting distance up to 8 m / 26 feet
- Power supply only on one side and reflecting on the other side
- IP 64 protection class
- Adjustable sensitivity
- Metal fixing support

23102065

Pilar

- Aluminium pillar for photocells SUNSET h 40 cm - h 15.7" (1 pc)
