

USER 2 24V DG

24V low voltage for two operators
Digital programming

- ▶ Dead-man, automatic, security, step by step type 1, step by step type 2, half-automatic 1, half-automatic 2
- ▶ Emergency battery management through optional battery charging card
- ▶ Separate torque adjustment for each leaf and for opening and closing
- ▶ Leaf delay adjustment differentiated between opening and closing
- ▶ Optional external module for traffic light management
- ▶ Adjustable slowdown in opening and closing
- ▶ Separate motors speed adjustment for each leaf
- ▶ Version with rectifying jumper on board
- ▶ Adjustable pedestrian opening
- ▶ 24V Led warning lamp
- ▶ Electro-lock management
- ▶ Working times self-learning
- ▶ Connector for RF radio receiver plug-in
- ▶ Prepared for encoder management
- ▶ Simplified programming through buttons and display
- ▶ Programming through JOLLY 3 palm also
- ▶ Photocells self-test
- ▶ Adjustable ammeter type inversion on obstacle
- ▶ Balanced or standard safety edge management
- ▶ Extractable terminals
- ▶ Adjustable courtesy light output up to 4 minutes
- ▶ Setting number of cycles for assistance
- ▶ Settable photocells inputs
- ▶ Low consumption in standby
- ▶ Push over
- ▶ Management of photocells 10K

...and many other functions
