

# SHIELD KNIFE & TOOL

BIGFORK MT

We are glad you are getting your knife in for a little TLC. Below is what you can expect when sending your knife in for our Shield Knife & Tool Spa Treatment.

- *Professional custom hand-sharpened edge*
- *Blade finish inspection & restoration if needed (stonewash, rust removal, etc.)*
- *Micarta handle inspection & restoration if needed (re-texturing, chip repair, etc.)*

Upon receiving your blade in shop, we will be emailing you to let you know your knife has begun its treatment! Please allow 2-3 weeks before your treatment is complete. We will email you your tracking details within that time so that you can track your knife as it makes its way back to you.

## SHIPPING YOUR BLADE:

When shipping your knife for its spa treatment, we ask that you package it inside its original sheath, making sure the blade is clean, and securely wrapped in a shipping box. It is highly recommended that you ship your knife with insurance for the value of the knife, as we are not able to ensure the safe return of your knife until it has been received in shop. Be sure to include the contact detail slip below with your shipment so that we can get your newly refreshed knife back to you!
