## Watch Strap Size Calculator

Print this page at 100%. Do not scale to fit.  
(To make sure you printed at 100%, place a credit or ID card in the box below. If it's an exact fit, you're good to go.)

1. Cut out the measuring tool. Place the wider end on the spot where you normally wear your watch. For a more accurate measurement, you can secure this end with a small piece of tape.
2. Wrap the measuring tool firmly around your wrist, exactly where you would wear your watch. Make sure it fits snugly and doesn't slide up or down.
3. Check your watch case size and find the corresponding line on the measuring tool. Once wrapped around your wrist, the indicated line will clearly show whether your ideal strap length is Regular, Short, or XL.

Place your credit card or ID card here  
to confirm that the toll printed at 100%.
