

Total Turmeric

A natural aid for inflammation and muscle soreness recovery.*

Dr. Cymerint's Turmeric formulation is a powerful combination of synergistic nutraceuticals combined to enhance Turmeric's natural ability to reduce inflammation. This formula is professionally formulated to decrease the inflammatory responses in your body and to restore homeostasis. Inflammation is a common factor in aging and physical stress. Our bodies are constantly working to reduce the inflammatory response. Too much inflammation causes wear & tear resulting in subsequent aging seen in the form of tissue hardening, arthritis, stiffness, autoimmune disorders, and pain. Turmeric when combined with black pepper, organic ginger, saffron, & bromelain can also improve exercise induced muscle soreness & recovery. The medical literature on all of these ingredients supports all anti-inflammatory & muscle recovery issues.

Ingredients:

Organic Turmeric Powder, 95% Standardized curcuminoid, black pepper fruit extract (piperine),

A proprietary blend of the following ingredients: organic ginger root extract, saffron powder, bromelain.
