Rescue Clinic #2	Saturday, 3/26/22	1:00p – 2:00p

2022 SCUBA CLINICS

Every year during the winter months Dip 'N Dive gives divers a chance to enhance their diving skills with our series of pool dives designed to improve your diving skills for safety and enjoyment. Dip 'N Dive will have instructors there just for you! We want every diver to be comfortable and confident enough to enjoy every dive they do. **This year we are offering one (1) \$100.00 grand prize gift certificate for one lucky participant!**

Refresher Clinic - Great one to start with! This pool dive is designed to be different for each person who participates. Some people want to just get in the pool and swim around themselves and practice on their own. Other divers may have been out of the water for some time and need more assistance so our instructors will lend a hand in reviewing you're basic SCUBA skills. Whatever you need, we can help!

Buoyancy Clinic - Finally, solve the mystery of buoyancy! Learn the secrets of true buoyancy control with our instructors. Proper buoyancy control will help you conserve energy, use less air and add to the safety and enjoyment of any dive. During this pool dive, we will teach you how to properly weight yourself. Our instructors will also teach you several different techniques that you can practice to help you achieve the true bliss of neutral buoyancy. (So you don't bounce up and down anymore).

Air Consumption Clinic - The mystery of air consumption. "Why do I use so much air? Why do very experienced divers use a lot less air than I do? What can I do to improve my air consumption and lengthen my dives?" These are some of the most common questions asked by divers. This clinic is designed to answer all of these questions and many more about improving your air consumption on any dive. You will be taught all the little tricks and skills that your instructor employs to help you safely improve your breathing rate.

Rescue Clinic - Every diver hopes they will never have to be involved in a SCUBA rescue. The best way not to worry about how you will react in an emergency is to be properly trained. This pool dive is designed to review basic SCUBA rescue procedures. Everything from identifying potential problems and solving them before they turn into real ones, to actually practicing real SCUBA rescues will be covered with your instructor in this pool dive. (Learn to be a good buddy)!

NITROX COURSE

Join the ranks of the modern day sport divers! Learn to use a different diver friendly breathing mix...**NITROX**! This course will provide the participants the information and certification necessary to participate in Nitrox diving. Nitrox is now available at most tropical destinations as well as here at Dip 'N Dive for local dives, to help make your diving safer.

The cost of this course is \$130.00 per diver and includes materials, registration fees and certification card.

The date for the class is:

Tuesday, December 28th 2021 from 6-10pm at Dip 'N Dive

KEY LARGO, FLORIDA

We're going to watch the landscape of travel in 2022 but we may be setting up (2) trip's to Key Largo, FL next year during August & November 2022.

We're waiting on rates from the hotel for these (2) months and once we receive them, we'll setup dates. The Key Largo trips next year though may be a bit longer than before, as we may setup each trip for an entire week. We will be offering students the possibility to do their training dives, along with their Advanced Diver certification. With the ongoing restrictions with getting into Canada, this may be how we do some of the course for now on.

If you're interested in going, email info@dipndive.com with your contact information and I'll (Chris) touch base with you first once we have dates finalized.

TRAVEL OUTLOOK

We are eager to start setting up international trips again but with the uncertainty of what the world will look like 9 months from when book the trip, we're going to play it safe, sit back and watch for a bit longer. I have an idea of 9+ Countries, planned out for the next 5-7 years but will only move forward with our plans once things normalize a bit, in conjunction with airfare pricing as well.

FINANCING

We're happy to have a continued partnership with *Synchrony Financial*. You can close out Craigslist and eBay and stop looking at old, used life support equipment (would you buy an old used parachute to go skydiving?) and come into the shop and choose a financing option that best fits your budget. We have 0% financing options all the way up to 18 months! Stop in today to learn more!

DON'T WANT TO **FINANCE**?
ASK US ABOUT THE
"RENT-TO-OWN" PROGRAM!

Also remember, we can always customize a package tailored to your liking (cost and/or product), whether we have it or not! So stop in and let's get you outfitted for 2022!

500 Niagara Falls Blvd
Buffalo, NY 14223
716-837-3483 **Store** • 716-837-0039 **Fax**
www.dipndive.com

GIFT CERTIFICATES

Don't know what to get that hard to buy person for Christmas? Well, get them a Gift Certificates that they can use towards classes, gear, service, trips, etc!

You can either stop in to buy one or you can call us at 716-837-3483 and you can pay by phone and have it mailed to you! To ensure that you receive it in time for Christmas (if mailed), please call us by 12/21/20.

DIP 'N DIVE SERVICE DEPARTMENT REMINDER

Part of being a good and responsible diver, isn't always related to what you do **IN** the water but what you do **ABOVE** and/or **BEFORE** you go diving. It is VERY important that you service your **LIFE SUPPORT GEAR** every year. This relates to your **Regulator** AND your **Buoyancy Compensator**. The BCD is the most commonly missed **LIFE SUPPORT** item missed during service but it is also one of the most important! You don't want to have issues with your BCD's Inflator Assembly because it's corroded due to being in Salt water and/or being in environments such as our local waters. If not taken care of, a BCD's Inflator assembly can self inflate, causing issues with the diver's buoyancy and/or worse can shoot the diver up to the surface.

Part of the advantage of buying your **LIFE SUPPORT GEAR** at **Dip 'N Dive** (as opposed to other shops or online), is that you get **FREE LIFETIME PARTS**. Based on manufactures recommendations of servicing your gear on a YEARLY basis, we have to be stricter with our **FREE LIFETIME PARTS** program as we're having some customers come in every 2-4 years for service with equipment that is SEVERLY corroded and/or damaged. So, in order to maintain your **LIFETIME PARTS AGREEMENT** for your equipment, you must bring in your equipment (Regulator/BCD) on a yearly basis. This will be verified with prior year's records.

So bring in your gear to be serviced for any upcoming trips, clinics, etc!

Bring in your gear between Friday, 12/10/21 – Saturday, 1/29/22 & get 15% off of your service (this includes Regulators, BCD's and Tank service)!

"TRADE IN & GET NEW" PROGRAM

Are you someone who likes new stuff? Did you buy equipment that no longer fits you or your kids? Are you looking to get back into the sport? Well, take advantage of our NEW "Trade In & Get New" program!

How does it work? Trade in your old BC and Regulator (w/ gauge or computer) that has been bought brand new in the past 10 - 15 years (regardless of where you've bought it) and get a credit towards any in-store packages** and you'll still qualify for our "FREE LIFETIME PARTS" program!

Call Chris at 716-837-3483 to schedule an appointment to come in.

*BCD, along w/ Regulator Assembly (1st & 2nd Stages, Octo, Computer or Gauge, BCD Hose)

**Off of the "Sale" price, no further discounts can be applied

NAUI DIVEMASTER

Are you someone who likes to help other people? Do you like making a difference in their lives? Well, if so then becoming a NAUI Divemaster may be for you!

We are looking for Divers who are interested in entering into the exclusive "NAUI Dive Leader Program" offered through Dip 'N Dive. If you are interested in becoming a Dive Professional and helping others learn to SCUBA dive while gaining a wealth of diving knowledge yourself, then this is the program for you! We will be starting our **Divemaster Program** beginning in April 2021.

Divemaster is the first level of Professional Leadership. It is a very comprehensive course that will teach you more about SCUBA Diving than all the other courses you have taken before. If you're a Master Diver looking to enhance your diving skills and to also help train future divers, then this program is for you!

If you're interested and think you have what it takes to become a Dive Professional, while joining the exclusive club of "NAUI Dive Leader" then call **716-837-3483** or stop by the store and speak with either **Chris** or **Joe**.
