Linea Colli Ripani

Marche IGT Bianco da uve 100% Pecorino

Production area

Ripatransone and neighbouring villages.

Wine varieties

Vinification

Cryomaceration of grapes, soft pressing with must debourbage and temperature controlled fermentation, oxygen-free maturation in steel vats, and long periods of contact with fine lees.

Serving temperature

We recommend serving at 12/14°C.

Picking method

By hand.

Organoleptic characteristics

A straw yellow colour with greenish hues. The nose is intense and persistent, with hints of fresh fruit and citrus flowers. The taste is fruity, full-bodied, slightly acidulous and persistent.

Average yield per hectare

8/9 tons of grapes.

Serving suggestions

Ideal with roasted fish and soft cheese.
