### Linea Colli Ripani

#### Marche IGT Passerina

##### Production area

Ripatransone and neighbouring villages.

##### Wine varieties

Passerina.

##### Vinification

Soft pressing with must debourbage and temperature controlled fermentation. Maturation 'sur lie' for at least three months.

##### Serving temperature

We recommend serving at 10/12°C.

##### Picking method

By hand.

##### Organoleptic characteristics

Pale yellow colour, floral and fruity scent with notes of green apple. The taste is dry, soft and full-bodied.

##### Average yield per hectare

10/11 tons of grapes.

##### Serving suggestions

Appetisers and light fish dishes.
