Linea Colli Ripani

Marche IGT Sangiovese

Production area

Ripatransone and neighbouring villages.

Wine varieties

Sangiovese.

Vinification

Selection of grapes, long maceration,
délestage and soft pressing.

Serving temperature

We recommend serving at 14/16°C

Picking method

By hand.

Organoleptic characteristics

Bright ruby red colour. Intense and fruity
with notes of red cherry and sour cherry.
The palate is harmonious, pleasant,
persistent and easy to drink.

Average yield per hectare

10/11 tons of grapes.

Serving suggestions

Thanks to the delicate nature of its tannins,
this wine can be drunk with any meal.
