Olimpus

Passerina Brut Sparkling Wine

Production area

Ripatransone and neighbouring towns.

Wine varieties

Passerina.

Vinification

Manual harvesting in late September.

Organoleptic characteristics

Without the skins, the must is left to settle
with controlled-temperature fermentation.

Serving temperature

We recommend serving at 5/6°C.

Sparkling wine obtained by selecting
Passerina grapes processed using the
Martinotti method. Straw yellow colour
with fine and consistent bubbles.
The nose is fruity with hints of
yellowfleshed fruits and delicate floral
notes. Ideal with seafood appetisers and
aperitifs in general.
