HONEY

Turkish honey is said to be the best honey in the world. Our Raw honey from Turkey has a very mild taste that can be added to anything like your drink, salad dressing, sauces, baking etc. Raw honey is only strained before it's bottled, which means it retains most of the beneficial nutrients and antioxidants that it naturally contains. Conversely, regular honey may undergo a variety of processing, which may remove beneficial nutrients like pollen and reduce its level of antioxidants. That is why Chef's Choice Artisan Raw honey doesn't crystallise.

NOODLES

Hakubaku’s authentic Japanese organic noodles are the world’s favourite. They epitomise the attention to detail at the heart of Japanese culture.

A global search for the world’s highest quality organic wheat, and the wheat varieties most suitable for making Japanese noodles, brought Hakubaku to Australia.

Not only did Hakubaku find secure supplies of the wheat it needs, but it also found an organic flour mill and the perfect site for a noodle factory - in Ballarat.

In 1996, Ballarat became home to Hakubaku Australia – a distant outpost of one of Japan’s most important culinary traditions.

Hakubaku Australia is now a proud contributor to a cuisine that is considered one of the most sophisticated – and one of the healthiest - in the world.

La Tourangelle is one of just a handful of these remaining mills that keep this tradition alive: Hand-crafting a wide range of delicious artisan oils in both France and California, La Tourangelle distributes an exclusive line of premium quality oils in many countries around the world.

Walnut oil is delicious and easy-to-use oil. In salads, walnut oil mixes very well with balsamic vinegar or red wine vinegar to create simple but flavourful vinaigrette. Also try it with tarragon white vinegar. It is also delicious on grilled fish or meat: A dab of walnut oil is the perfect touch for enhancing flavours and easing digestion when added towards the end of your beef bourguignon or meat dishes. You can also try it in pasta with cheese. Don't hesitate to use it in cakes and baked goods, particularly with apples or pears. After harvesting, the nuts are washed, sorted, sun-dried for several days and stored for further drying. The walnut kernels are then ground and roasted in cast-iron kettles. The resulting warm paste is pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled. Walnut oil is extracted from English walnuts only.

Hazelnut Oil

Roasted hazelnut oil is a well-kept secret of many top chefs. Great in salads, hazelnut oil combines very well with vinegar to produce light but flavourful vinaigrette. However, some say it goes even better with lemon juice. With pasta, potatoes and beans, hazelnut oil serves as a wonderful substitute for butter. Finally, hazelnut oil works great with fish, and you won't go wrong to give it a try with cheese or carpaccio. Once you "discover" hazelnut oil, you will return time and time again to rediscover this versatile treasure! The process of extracting the oil has not changed for centuries. First, the hazelnuts are ground and roasted in cast-iron kettles. The resulting warm paste is then pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled. The leftover cake is sold as cattle feed or for use in bakeries.

Almond Oil

Roasted almond oil is an outstanding product in the kitchen. With its fresh roasted almond flavour, the oil reveals subtle nuances when combined with other ingredients. Its delicate character makes it a good substitute for olive oil in cases where walnut oil and hazelnut oil are just too powerful. When combined with any salad, fish or vegetable dish, almond oil helps to fashion a gourmet meal. Almond oil is very popular in India with duck and curry, and in China it is also used with chicken and duck. Give almond oil a try - you are sure to love it. After harvesting, the nuts are washed, sorted, sun-dried for several days and stored for further drying. The almonds are then ground and roasted in cast-iron kettles. The resulting warm paste is pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled.

Avocado Oil

Avocado oil can be used the same way you use your extra virgin olive oil. But with a smoke point at 181 degrees it is very practical to use in the kitchen for pretty much any application. On salads or in a dressing, it contributes a hint of avocado flavour, and it is wonderful drizzled over slices of fruits. Cook, bake, dress or simply dip, avocado oil will make it all. Avocado oil is processed on equipment very similar to those used to process extra virgin olive oil. The avocado pulp is first expeller-pressed usually using a centrifuge. It is then lightly filtered and polished, using another centrifuge. The result is beautiful, emerald green oil with high level of monounsaturated fats that will bring a delicious, light avocado flavour to your dishes.

Pumpkin Seed

Toasted pumpkin seed oil adds a rich taste to salad dressing, soup, marinade, pasta, dips, pastries and more. Check out our recipe section for more. The pumpkin seed oil vanilla ice cream may be the easiest way to enjoy it: simply drizzle the ice cream with the oil and sprinkle with some pumpkin seeds... Enjoy! The process of extracting the oil has not changed for centuries. First, the best pumpkin seeds are toasted. It is then pressed in a hydraulic press. Following mechanical extraction, the oil is lightly filtered and bottled in a protective tin can to preserve freshness.

Black Truffle Oil

Black Truffles originate in Provence, France and are one of the most pre-cious ingredients of Mediterranean cooking. The strong, intense, earthy flavour of this oil will bring a deep aroma to your dishes, and will especialy complement pasta, mashed potatoes, meat and other dishes. Just like the most prestigious perfumes, the black truffle extract is very rare, expensive and difficult to source. Only a few companies master the art of producing the extract. We infuse the extract in Grapeseed Oil because of its great properties and its neutral flavour that won't interfere with the aroma like olive oil may do.

White Truffle Oil

White Truffles originate in Alba, Italy and are considered by many to be the most prestigious truffles. The strong, intense, earthy flavour of this oil will bring a deep aroma to your dishes, and will especially complement pasta, mashed potatoes, meat and other dishes. Just like the most prestig-iuous perfumes, the white truffle extract is very rare, expensive and difficult to source. Only a few companies master the art of producing the extract. We infuse the extract in Grapeseed Oil because of its great properties and its neutral flavour that won't interfere with the aroma like olive oil may do.

El Socarrat Arroz Paella Rice
(Gluten Free)

The best rice for paella is Bomba, a Spanish short-grain rice that is able to absorb three times its volume in liquid. When cooked, the grains remain separate and do not stick together. (The rice in paella should be dry and separate when it's done, not creamy like risotto.) Bomba is the rice prized by chefs in Spain; it's the best of the best.

STONEBARN
TRUFFLERIE & LODGE

Established in 2004 by Dion and Sharon Rang, Stonebarn is a large commercial truffle producer in the West Australian food and wine region of Manjimup – the heart of Australian truffle country. We found our very first Stonebarn truffle on 5 June, 2010.

We pride ourselves on the exceptional quality, taste and aroma of our truffles often attributed to our rich, sloping and free draining loam soils that create the ideal terroir.

The aroma and flavour of truffles have been described as earthy – the floor of the forest, damp earth, roasted dry fruits and chocolate – with a memorable aroma and lingering aftertaste. Nothing beats the exquisite experience of fresh truffle!

Stonebarn Black Truffle Chilli Sauce

Our Stonebarn Black Truffle Chilli Sauce is a versatile hot sauce with a beautiful truffle taste that can be enjoyed in so many ways. It can be served separately to food and added to taste, for example it is a perfect condiment for burgers and sausages. It is also a great go-to pantry sauce - just one tablespoon added to a sauce or broth creates an explosion of chilli and truffle filled flavours.

Black Truffle Seasoning

Our Stonebarn Black Truffle Tapenade is true to the tapenade popularised in southern France. It contains real black Perigord Truffle (*tuber melanosporum*) and is combined with black olives, extra virgin olive oil and capers. This exquisite combination gives our tapenade a rich, clean olive taste, a beautiful colour and texture, with a subtle truffle aroma.

Our tapenade can be enjoyed simply by spreading it on bread or as a dip with crackers as an appetizer.

Adding a small amount to any pasta or rice dish will really enhance its flavour. Dilute a little in our Stonebarn Truffle Oil and it can be drizzled over soups, sauces, pizza, bruschetta and meat.
