RUES512

52cm Stainless Steel Range hood
Undermount

FEATURES

52cm Undermount

This 52cm rangehood is designed to fit in the cupboard above the cooktop. The “undermount” design is perfect when space is an issue, or when you simply want to keep the rangehood out of sight.

Up to 700m³/hr extraction rate

The powerful motor will extract smoke/steam/odours at up to 700m³ per hour, which will suit most kitchen sizes.

5 Layer Aluminium Filter

The 5 layer design ensures the maximum amount of smoke and odours are extracted and the maximum amount of grease is caught within the filter. The filter is dish washable.

2 * 3W LED lighting

LED lighting ensures a more natural light, whilst providing a longer lasting bulb.

Ducted or Recirculated

This product can be ducted so the air is exhausted through a vent outside. If no external vent is available there is a recirculating option by way of using charcoal filters in the unit (Charcoal filters are sold separately)

SPECIFICATIONS

Finish	Stainless Steel fascia
Speeds	3 Speeds
Control	Slide Toggle Control
Lighting	1 * 2.0W LED light
