

Get to Know Your Swivl Robot

Install the Teams by Swivl app and any live streaming app you plan to use onto your mobile device.

Connection Basics

- Slide the grip to the left and out to change the shim size to fit your mobile device snugly.
- Connect your mobile device using the appropriate connection cable in your kit.

Connection indicator lights:

- Red: No connection
- Green: Connection successful

Charging Basics

- Plug the robot into an outlet using the USB charging block and the black charging cable.
- A full charge lasts for approximately 4-6 hours of use.
- Charging indicator lights: Red: less than 40% battery Green: More than 40% battery Flashing: charging

Marker Basics

- Your marker tracks you and collects audio.
- Wear the marker on the lanyard or clip at heart height to get the best video and audio quality.
- · Maintain a line of sight with the black sensor on the front of Swivl when wearing the marker.
