Please remove all packaging including tags, ties & tacking stitches before giving this product to a child.

## QUICK START

Before beginning, cover the play area to prevent possible water damage.

Dip a dry cloth into ice cold water. Then, in a circular motion, wipe the spots off of Chief to make them disappear. Also, use the cloth to wipe down Cozy and get the smaller areas as well.

Allow the vehicles to cool down or use the cloth and warm water (not hot water) to immediately revert back to their original colors. Then, play all over again!

## ⚠ WARNING:

- Remember to use warm water, not hot water, to revert vehicles back to their original colors. HOT will shorten/affect the color changing lifespan.
- Adult supervision is required when children are playing around water.
- Do not allow children to play with water near an electrical source or apparatus in order to avoid electric shock and/or electrocution.
- Do not leave items filled with water near electrical devices.

## IMPORTANT INFORMATION

- For best results, use ice water at approximately 32°F (0°C) for cold colors change.
- Warm color change will start at approximately 100.4°F (38°C), but best results occur if the water is approximately 104°F (40°C).
- If color change does not work properly or quickly, the temperature of the vehicle may be too close to the temperature of the water.
- Color change temperatures may vary according to weather conditions.
- Extreme weather conditions may cause the color change pattern to appear upon arrival. To return it to its original color, place the vehicle in a room temperature area at approximately 68-77°F (20-25°C).
- Do not place vehicle in extremely hot water.
- The color change effect of the vehicle has a lengthy, but limited lifespan.
- Do not store the vehicle in direct sunlight for extended periods of time.
- Exposure to sunlight may deactivate color change feature.
- Only use water on the vehicles, as other liquids may cause irreparable damage.
- Avoid submerging vehicles into water as doing so can damage the vehicles.
- Dry off vehicles with a dry cloth or air dry vehicles. Do not place under direct or excessive heat.
- Keep long hair and other loose objects, like shoelaces, away from the rotating tires of the vehicle.
- Do not play with car in the street or where there is vehicular traffic or in heavily traveled areas with pedestrians.
- Avoid driving the car through water, mud, etc.
- It is recommended to drive the car on hard and flat surface.
