

Kite series

Designed by Studio Nooi, Italy

The Italian designers, Studio Nooi, have created the Kite chair. A stackable design, which is rarely achieved when designing chairs in wood, with both a dynamic and stoic identity – inspired by the natural force of the Nordic winds. The sides of the curved backrest, made of steam bent, FSC® certified solid oak, function as armrests that ensure a great seating comfort.

Meet the designer

Studio Nooi was founded by Giulia Pesce and Ruggero Bastita in Torino, Italy. Giulia and Ruggero built their approach to design while studying and working as designers in Italy and Denmark. Nooi derives from the Italian word “noi”, meaning “us” – the idea being that design is never an individual act but rather a collaborative process, involving designers, companies, users, artisans and technicians. Nooi’s designs are always the result of good cooperation between people and influenced by society, art, nature and cultural heritage, and the designers are closely involved at every stage of the project development.
