111039UL CHANDELIER IMPERO

ASSEMBLY INSTRUCTION

Turn off the electricity supply at the main circuit panel before installing.
Do not connect the electricity supply until your luminaire is fully assembled and installed.

Fix the ceiling bracket (A) to the ceiling by using mounting plugs and screws suitable to your ceiling type.

Hold the lamp in an elevated position in such a way that the wires can freely reach the ceiling junction box.
Thread the wires through the components (suspension eye (D), retaining nut (C), ceiling canopy (B)) and connect the 3 power wires. The slick wire is the live wire, the coarse wire is the neutral wire and the brass wire is the earth wire.

Screw the suspension eye (with retaining nut attached) to the ceiling bracket and fix it securely by tightening the retaining nut.

Place the bulbs.

CARE INSTRUCTION

Wipe clean with soft, dry cloth.
Always avoid the use of harsh chemicals or abrasive cleaners as they may cause damage to the fixture's finish.
