

ANDREW MARTIN

Braque

Console Table

A statement geometric console table, inspired by the faceted style of the Cubist art movement, of which George Braque was at the forefront. The natural wood finish highlights the wood grains and knots for an authentic and rustic look. This console is a sculpture in itself, give it centre stage with a bold lamp or some colourful artwork or accessories.

Please note, Colour may vary from picture due to the organic nature of this material.

Specification

| | |
|--------------------|----------------------|
| Product Code: | CONS0090 |
