

## Torch series

Designed by Büro Famos, Germany

---

The German designers, Büro Famos, have created the Torch series presenting beautiful vases and candleholders in different sizes, colours and expressions. The vases are made from stoneware and the candleholder from cast iron. Each design is sculpted after the same template, with idea to create a generous architectural and sculptural landscape of flowers and pots. Inspired by the decorative torches used in ancient times, the designers wanted to create an urban and modern scenery relying on light colours, different heights and simple yet beautiful structures with an added functional and durable quality. Something elegantly solved with Torch.

### Meet the designer

It is important for us to design long lasting products. So to speak: Taking the right material for the right application and creating an appealing good shape is important to make the owner wanting to use a product for a long time. This automatically binds pleasant memories and results in a long-lasting product. We like to take into account different points of views - regarding design and technical aspects. Constant questioning is one of the greatest skills we need to do over and over again. We like to think our ideas through. From the initial idea to final product.
