Product description:

This ultra-lightweight bench is also sturdy and strong thanks to the high-quality design of the detailed half lap joints and the solid wooden slats. This is an elegant and composed bench, and its minimalist design makes it perfect for use in most living spaces.

Designer's thoughts:

"With the Lightweight Bench, we wanted to pay tribute to classic carpentry traditions by constructing the furniture with beautiful and classic-style wooden joints. We wanted to make a light impact furniture in both a visual and physical sense which reflects the quality grounded in our contemporary design language. The design is graphically tight but at the same time soft and tactile when used." - Herman Studio

Finish:

Natural oil treated

White oil treated
