Product description:

This versatile and high-quality foldable three-step ladder is functional and well-crafted. It features a deep-set top step for extra safety and comfort and a significant wooden support bar that finishes the design and provides good balance. The ladder can be folded and stored on the wall with the small wooden hook included, meaning the ladder can then double as a decorative object on the wall.

The ultra-strong flag halyard line prevents the ladder from collapsing when in use and also prevents it from damaging the wall when stored.

Designer's thoughts:

'This step ladder had two purposes: to provide optimal functioning when unfolded and in use and serving as a decorative element when folded up and hanging on the wall. We wanted to create a functional ladder that would also have a sculptural effect in a room. The flag halyard line keeps the ladder at the right angle and also prevents it from scratching the wall when it is hanging on the hook.' – Herman Studio
