Product description:

A thin, clever and space-saving coat stand with two main pillars and conjoining branches which create an exquisitely detailed visual effect. The coat stand is free standing, easy to fold and store. Each coat stand includes an additional four hooks to provide customisable functionality along the pillars.

Designer's thoughts:

'The idea for the Foyer Coat Stand sprang from an attempt to find new types of joints. Thus, the most essential design element is the way the top hook pushes through the vertical pillar: that feature illustrates the basic constructive concept. Our goal was to design a space-saving coat stand that would fit into a small hallway. The small extra hooks are intended for guests and children.'
