Game Fishing and Boating Risks and Hazards

There are risks and hazards inherent to game fishing and boating. The same elements that contribute to the uniqueness and fun of fishing and boating such as the physical effort or being in the outdoors can cause loss or damage to equipment, injury, illness, or in extreme cases, permanent trauma, or death. PROFESSIONAL REDFISH LEAGUE (PRL) / REDFISH WORLD SERIES (RWS) and SPONSORS do not want to heighten or reduce your enthusiasm for the experience, but we do want you to know in advance what to expect and to be informed of some of the possible risks. The following list does not intend to be all-inclusive; exclusion of a risk or hazard does not negate its possibility.

- Injury or death while traveling to and from the activity sites.
- Risks of collisions with other boats and or stationary objects in and around water, including rocks, reefs, piers, or other vehicles and trailers at landing areas.
- Personal injury including death by drowning associated with rough weather, rough water, currents, changing weather patterns, heavy winds and lightning storms.
- Personal injury including but not limited to: blisters; sprains, strains, dislocations, torn muscles and/or ligaments; fractured or broken bones; eye damage; cuts, wounds, scrapes, abrasions and/or contusions; head, neck, and/or spinal injuries; medical illnesses; allergic reaction, shock, paralysis or death.
