

**Application:**

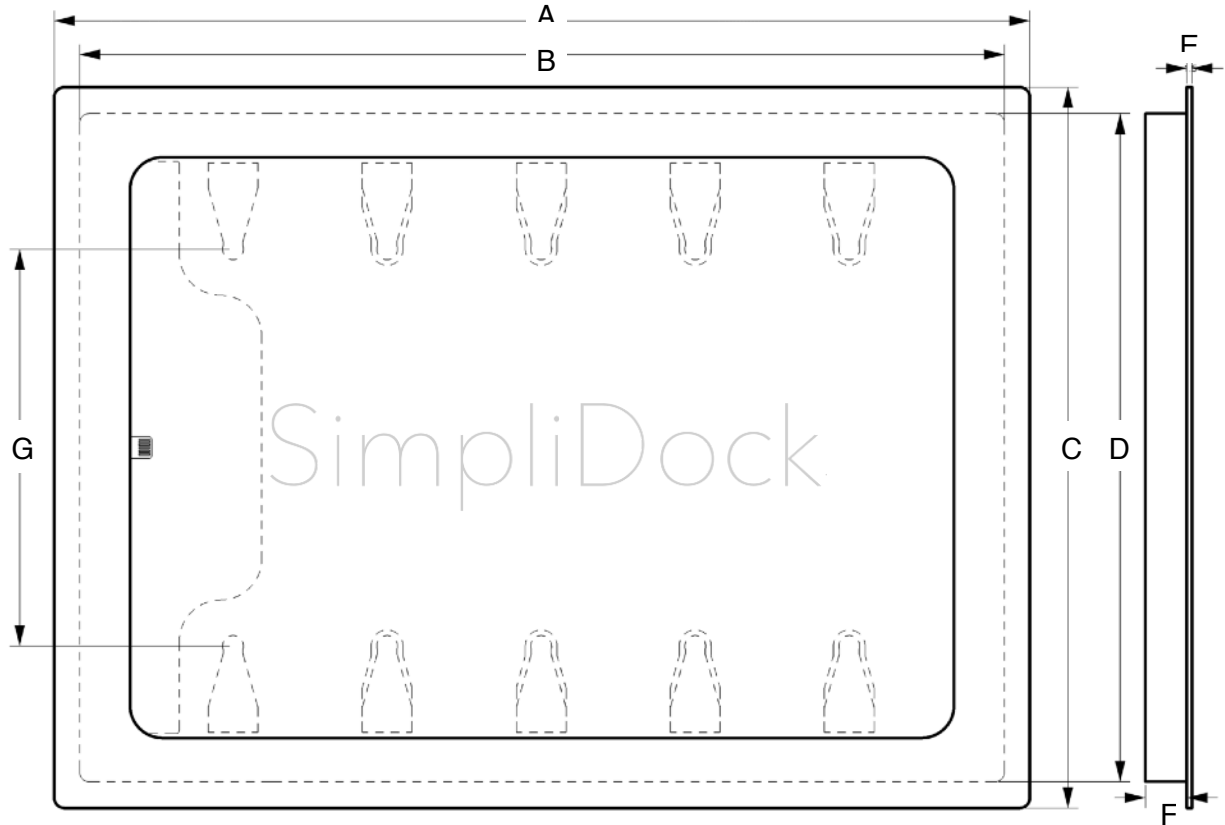

The SimpliDock® is an in-wall or surface tablet mounting system designed for easy docking and removal of the tablet. Flush installation is recommended with wall material thicknesses ranging from 1/8" (3mm) to 1" (25mm). Placement over structural members (studs) is possible with wall thickness greater than mounting depth F (shown below). Installation requires (4) provided clamps when installing in hollow wall cavities or directly to structural members, or a combination of both depending on installation requirements. Open area behind charging connector should remain clear of obstructions to allow proper installation. Cutout dimensions are shown in the table below (B x D)

**Environment:**

Recommended for indoor use only. Mounting surface should be 0-90° and stationary. Operating temperature: 65°F to 85°F (18°C to 29°C)

**Materials:**

Laser Cut Acrylic Plastic + Flame Resistant PC/ABS (Paintable Bezel with appropriate preparation)
