

GUIDE DES TAILLES

1- Imprimez ce baguier à **taille réelle** (100% ou «ne pas mettre à l'échelle du support») sur format A4 et vérifiez la mesure ci-dessous.

2- Prenez l'une de vos bagues dont la taille correspond au doigt et à la main où vous souhaitez porter votre bague Maison Mouche.

Positionnez-la sur les gabarits, le cercle noir doit apparaître à l'intérieur de votre bague.

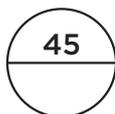

Si votre bague se trouve entre 2 tailles, préférez la taille supérieure.

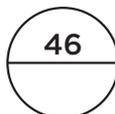

Certains styles de bagues peuvent affecter le choix de la taille : une bague haute sur le doigt sera plus confortable dans une taille supérieure à celle d'un simple anneau.
