

Turn Your Manual Wheelchair Into a Freedom Machine!

The Companion power assist system from Cheelcare connects in seconds to increase the distance and range of your mobility.

Designed and Manufactured in North America
Patent Pending

POWER & RANGE

Companion Q lets you choose from five speeds or reverse, has a **max speed of 7.5mph/12kmh**, and takes **three hours to charge**.

QUICK-CONNECT

The unique mechanism means it **takes under 10 seconds** to connect or disconnect your Companion without the need to unbolt it.

SECURE CONNECTION

The Companion **locks securely** onto almost every make of wheelchair for a smooth, stable ride.

MANEUVERABLE

The Companion features a **tight turning radius** to deliver outstanding maneuverability in tight spaces.

LIGHTWEIGHT

The Companion **weighs about 20lbs/10kgs** making it easy to load and unload from your vehicle when you're on the go and adds as little as 2lbs to your chair when disconnected.

TRAVEL-FRIENDLY

From sea to sky, and everywhere in between, Companion was designed in compliance with travel industry standards to be there with you every step of your journey.

**Your Companion
As Unique As You Are**

Cheelcare's line of accessories allow you to customize your Companion's appearance and function to suit your lifestyle. Get yours wrapped in your favourite colour pattern and add a basket to carry everything you need.

The Freedom to Go Anywhere Life Takes You

Keeping up with family, joining your friends on bike rides, running to the convenience store for milk, or an outing at your favourite amusement park. Your Companion will be there for you.

Cutting-Edge Controls Mean Freedom For Any Body

Companion Q's controls are like no other. Push to go, release to stop. Ideal for those with limited hand dexterity, youth, or people who love to experience life differently.

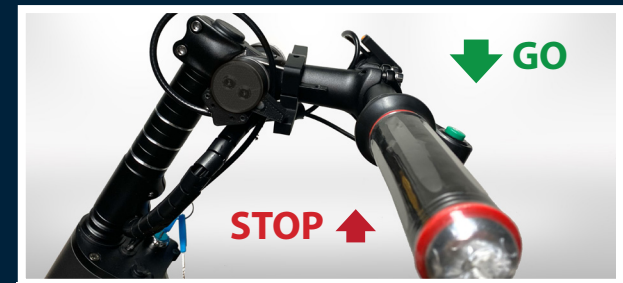

***Your Next Adventure is Waiting.
Grab Your Companion and Go!***

Advantage of Two Convenience of One

Did you know power wheelchair users travel over **four times the distance in a day** vs manual wheelchair users? Don't miss out on adventure. Keep the convenience, comfort and practicality of your wheelchair, and give yourself the advantage of power on-demand!

Give Your Mobility a Boost and Your Arms a Break!

Take control of when you want to push and when you want to power. Conserve your shoulders and arms to reduce injury and avoid recovery time!
