## SOLAR PANELS

**With our solar panels you'll have power on the go anywhere, anytime.**

The Aussie Traveller Solar Panel range provides portable, reliable and travel friendly power no matter where you find yourself. Using the highest-grade silicon, our solar panels contain high efficiency mono crystalline technology to get the most out of the Aussie sun. The range includes both static and folding designs for either attached or free-standing solar power. All are ideal for caravanning, boating and marine applications.

Our fixed range of solar panels are designed predominately for semi-permanent installations on the roofs of caravans, 4WDs, motorhomes, boats and campers. They are perfect for charging 12V devices throughout any vehicle.

Our folding range of solar panels are designed predominately for portable charging solutions at the campsite, allowing you to change the angle of the panel to capture the optimum sunlight throughout the day.

### FEATURES

- Ideal for caravans, motorhomes and RVs
- High-efficiency mono crystalline technology
- Strong, heavy duty anodised aluminium alloy frame
- Waterproof IP67 PWM Regulators
- Connect to a deep-cycle battery to store your electricity
- Charges 12V devices throughout your vehicle, including batteries, fridges, air compressors, lighting
- Suitable for use with AGM, VRSLA & Flooded 12V Batteries

### WARNING: ELECTRIC SHOCK HAZARD
