ROBOT TROLLEY

The world's no. 1 remote control boat and caravan mover.

The Robot Trolley is the smart alternative to the traditional movers that helps to manoeuvre your camper, boat, horse, and industrial trailer. The Robot Trolley is controlled easily and simply by a remote control and helps manoeuvring the trailer with pinpoint accuracy.

The Robot Trolley runs on different surfaces, such as grass, gravel, stones, asphalt, concrete etc. With a battery life of 30 minutes, the Robot Trolley can handle the job on site.

The Robot Trolleys are easy to install and need no after sales tools or wiring. They also negate the use of your jockey wheel - eliminating the possibility of damage to your fawbar or jockey wheel.

All models of Robot Trolleys are supplied with an attachment bracket. Simply attach the bracket, connect your Robot Trolley and using your hand-held remote control, start effortlessly positioning you caravan, boat or trailer.

FEATURES

- Capable of moving 1,500–4,500kg
- Easy to install
- IP65 approved
- No additional wiring required
- 30 minutes battery life
- Remote controlled
- Manages elevations up to 10%
- Speeds of 9m/per minute
- Lithium-ion battery charges in 2–3hr
