

PROVIDING FOR HAPPY CAMPERS SINCE 1988

Thank you for purchasing this Aussie Traveller product.

LUXURY 4WD MATTRESS INSTRUCTIONS

1. Unroll the mattress and place on a flat surface; free from rocks, sticks or anything that may puncture the mattress.
2. Open all valves on the end of the mattress.
3. Allow the mattress to inflate to full thickness.
4. Close all valves and enjoy a restful night sleep.
5. When packing away your mattress, open all valves and begin to roll the mattress up. Once rolled up, close all valves and place Velcro straps around rolled up mattress. Store mattress in carry bag.

AUSSIE TRAVELLER LUXURY 4WD MATTRESS USE TIPS:

- On first usage, open all valves and allow 24–48 hours for the mattress to fully inflate. This is only a 'once off' due to the mattress being vacuum sealed from production.
- Always use on a flat surface, free of obstructions and sharp objects.
- Try not to store rolled up for long periods of time.
- Never store in hot conditions.
- Avoid use in direct sunlight.

HOW TO REPAIR YOUR AUSSIE TRAVELLER LUXURY 4WD MATTRESS:

Should you puncture your Aussie Traveller Luxury 4WD mattress, use the repair kit included.

1. Clean the area around the puncture. Ensure the area is free of dirt, grime or oils.
2. Cut a patch to fit over the puncture. Leave an extra 1cm around the border of the patch, to ensure complete coverage over the puncture.
3. Cover area around the puncture with the glue provided. Ensure some glue is worked into the puncture, and that there is glue exceeding the size of the patch.
4. Cover the back of the patch with glue.
5. Wait until the glue is tacky then apply over the puncture.
6. Once the glue is dry, the mat is ready for use.
