PRODUCT INFORMATION

PREP VINYL

Description

A fast evaporating alcohol base solvent. (Contains isopropanol)

Use

A solvent to clean and dry most surfaces before applying self adhesive vinyl and to clean vinyl surfaces before painting.

Application

Saturate a clean cloth with Prep Vinyl and wipe the surface to remove all contaminants. Repeat if necessary. Allow the remaining solvent to evaporate before applying vinyl or paint.

Pack Size

500 ml, 1 litre, 4 litre and 20 litre

Caution

Avoid contact with skin and eyes and avoid breathing its vapour.
Use in a well ventilated area.

Revised January 2021
