

# ARGAN LIFE MOROCCAN RHASSOUL CLAY POWDER

## Detoxing, Exfoliating, Pore Minimising Mask

- Mix 1 teaspoon of Argan Life Rhassoul powder with 2 teaspoons of water. To obtain a lump-free mix, use a shallow dish and sprinkle the water over the powder, ensuring even saturation. Mix to a smooth creamy paste. Do not use metallic utensils.
- Wet the face with warm water, and spread Rhassoul mix over the face and chest.
- Leave the mask for approx. 10 minutes, and then simply rinse off.
- Massage the face with Argan Oil for a smooth, soft complexion.
- Rhassoul clay is very high in Magnesium and Silica to condition the skin. Rhassoul particles are negatively charged and detox the skin through the process of ionic exchange.
- Your mask can be enhanced with the addition of Argan Life Argan Oil, honey and milk.
- Rhassoul clay is an excellent deep cleansing treatment for acne prone skin. For extra anti-bacterial power, add Argan Life Argan and Tea-Tree Oil.
- Argan Life's Rhassoul Clay is obtained directly from the Rhassoul mine in the Atlas Mountains. It is extracted in large lumps, then washed and dried in the sun. Argan Life then have the Rhassoul ground into a fine powder, and finally we hand-sieve the powder to remove remaining impurities. Our Rhassoul Clay is entirely natural and manually processed.
