Beaded Daisy Chain

HOW TO MAKE

Beaded Daisy Chain

DIFFICULTY: Intermediate

Approximate time of project: 1 hour

MATERIALS

Sullivans seed beads in an assortment of colours
Sullivans clear nylon beading thread
Sullivans true barrel clasps
Scissors

STEPS

- Pick beads in three different colours for the:
 - Chain
 - Petals
 - Flower centres
- Cut your beading thread. For a bracelet, cut enough to fit around your wrist with some extra to tie to the clasp. For a necklace, cut a longer strand
- Attach one half of the clasp by tying a double knot through it
- Begin to thread your beads in the following order:
 - 4 chain beads
 - 4 petal beads
 - 1 flower centre bead
- Guide the thread back through the first petal bead and pull gently to tighten
- String on 3 more petal beads
- Guide the thread back through the petal bead under the centre bead and pull tightly again
- You've just made your first daisy flower in the chain!
- Simply repeat until you achieve the length you desire
- Attach the other half of the clasp and trim the excess thread to give a neat finish
