 <p>BUJUR DELIMON ChassisCare® for Trucking</p> <p>Maximize uptime and reduce maintenance costs. ChassisCare is the most advanced lubrication system for heavy-duty trucks. It features a multi-stage filtration system that removes contaminants and extends oil life. ChassisCare also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. ChassisCare is the only lubrication system that can be installed on any truck chassis. For more information, visit www.bujurdelimon.com.</p>	36925	ChassisCare	PDF Link
 <p>BUJUR DELIMON The Lubrication Solution for Wheel Loaders</p> <p>Maximize uptime and reduce maintenance costs. Wheel Loader is the most advanced lubrication system for wheel loaders. It features a multi-stage filtration system that removes contaminants and extends oil life. Wheel Loader also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. Wheel Loader is the only lubrication system that can be installed on any wheel loader. For more information, visit www.bujurdelimon.com.</p>	36972	Wheel Loader	PDF Link
 <p>BUJUR DELIMON The Lubrication Solution for Waste Trucks</p> <p>Maximize uptime and reduce maintenance costs. Waste Truck is the most advanced lubrication system for waste trucks. It features a multi-stage filtration system that removes contaminants and extends oil life. Waste Truck also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. Waste Truck is the only lubrication system that can be installed on any waste truck. For more information, visit www.bujurdelimon.com.</p>	36953	Waste Truck	PDF Link
 <p>BUJUR DELIMON The Lubrication Solution for Snow Plows</p> <p>Maximize uptime and reduce maintenance costs. Snow Plow is the most advanced lubrication system for snow plows. It features a multi-stage filtration system that removes contaminants and extends oil life. Snow Plow also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. Snow Plow is the only lubrication system that can be installed on any snow plow. For more information, visit www.bujurdelimon.com.</p>	36959	Snow Plow	PDF Link
 <p>BUJUR DELIMON The Lubrication Solution for Haul Trucks</p> <p>Maximize uptime and reduce maintenance costs. Haul Truck is the most advanced lubrication system for haul trucks. It features a multi-stage filtration system that removes contaminants and extends oil life. Haul Truck also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. Haul Truck is the only lubrication system that can be installed on any haul truck. For more information, visit www.bujurdelimon.com.</p>	36970	Haul Truck	PDF Link
 <p>BUJUR DELIMON The Lubrication Solution for Fire Apparatus</p> <p>Maximize uptime and reduce maintenance costs. Fire Apparatus is the most advanced lubrication system for fire apparatus. It features a multi-stage filtration system that removes contaminants and extends oil life. Fire Apparatus also includes a built-in oil cooler to keep engine temperatures low and a built-in oil separator to remove water and sludge. Fire Apparatus is the only lubrication system that can be installed on any fire apparatus. For more information, visit www.bujurdelimon.com.</p>	36958	Fire Apparatus	PDF Link
