RETAIL PRODUCT OVERVIEWS & DIRECTIONS FOR USE

TOTAL LIST OF PRODUCTS

- AHA salicylic solution
- antiox-C serum™
- argan boost serum™
- botana-cream cleanser
- botana-gel cleanser™ – with green tea
- botana- scrub cleaner
- C-difference™ – vitamin C lotion
- calm and balance™ - moisturizing stress relief
- clari-tone serum™ – for even skin tone
- collagen renewal C'reme™ – with edelweiss extract
- D20 solution
- daily eclipse® - oil-free sunscreen SPF 30
- derma renewal gel™
- eye-radiance K'reme™ – with grape seed extract
- gentle cleansing bar
- glycolic treatment 30%
- green tea toner – with glycolic
- green tea vita-E moisturizer™ – with cucumber
- high potenC serum™
- hydra-repair mask™ – with red wine extract
- IPL photo sensitizing prep
- lactic treatment 30%
- mandelic combo peel 30%
- mineral makeup
- oxygen cream
- oxygen serum
- purifying mineral mask
- peel prep
- repair bar
- retinyl enzyme treatment – with green tea
- soothe and restore™ - moisturizing muscle relief
- vitA-clear serum™ – antioxidant/oil control
- treatment neutralizer

PRODUCT: AHA salicylic solution

DESCRIPTION: This skin renewal product hydrates while exfoliating with a poly-AHA combination of glycolic and lactic acids plus salicylic acid. Marine algae extracts remineralize and tone the skin. This pleasant, non-sticky gel can be used on its own for removing dead cells and imparting a smoother, softer surface to any skin type. It is also used as part of the delivery system for all of the nutrient serums. The combination of acids is extremely effective, yet gentle enough for many sensitive skin types. Salicylic is a mild keratolytic that creates gentle desquamation, as well as imparting anti-microbial benefits.

RX: Oily or blemish-prone skin. This product may be applied before serums.

INGREDIENTS: Deionized Water, **Glycolic Acid, Lactic Acid**, Glycerin, Sodium Hydroxide, **Sodium PCA, Laminaria (Algae) Extract**, Polysorbate-20, Hydroxyethyl Cellulose, Cyclomethicone, Allantoin, **Salicylic Acid**, Gluconolactone.

PACKAGING: 50ml/1.7 fl. oz airless pump bottle
PAO - 12 months

INSTRUCTIONS: Apply a nickel size over serums or use alone. May cause mild shedding of surface skin. May be used on neck, chest and arms as part of an anti-acne program or to encourage cell turnover as part of an anti-aging program.

SC570

KEY INGREDIENT DESCRIPTIONS:

Glycolic Acid: dissolves intercellular cement responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

Lactic Acid : increases water holding capacity of the corneum layer. Concentrations of 5% and above provide improvement of fine lines for softer, smoother skin.

Sodium PCA: high performance humectant, moisture binding abilities, derived from amino acids.

Laminaria (Algae) Extract: stimulating, revitalizing and nourishing to the skin, contains anti-inflammatory and skin tensing properties.

Salicylic Acid: dissolves the top layer of corneum cells, is an antiseptic found in the leaves of wintergreen and bark of sweet birch.

PRODUCT: antiox-C serumTM

DESCRIPTION: ▷ Free radical protection in a silky serum taking anti-aging to the cellular level. This stable, oil soluble, lipid source of Vitamin C delivers strong antioxidant and rebuilding ingredients. Once applied to the skin it hydrolyzes into ascorbic acid and provides skin lightening, promotes collagen synthesis and acts as a strong free-radical scavenger. It has excellent skin affinity, therefore, has superb cutaneous absorption. It goes on like silk and dries to a beautiful and light finish. This fat soluble form of vitamin C has a higher conversion of vitamin C within the dermis, offering long lasting vitamin delivery and penetration.

RX: ▷ Anti-aging, hyperpigmentation & dehydrated skin types.

INGREDIENTS: ▷ Dimethicone/Dimethiconol, Cyclomethicone, **Tetrahexyl Decyl Ascorbate (Vitamin C)**, Phenoxyethanol, Capryl Glycol, Ethylhexylglycerin, Hexylene Glycol, **Simmondsia Chinensis (Jojoba) Seed Oil**, C12-15 Alkyl Benzoate, Tocopheryl Acetate (Vitamin E), **Camellia Sinensis (Green Tea) Extract**, **Squalane, Ubiquinone**, L-Carnitine

PACKAGING: ▷ 30ml/1 fl. oz airless pump bottle
PAO - 6 months

INSTRUCTIONS: ▷ Apply in the morning and/or evening after cleansing. May be used as a layer under your favorite dmSkincareTM moisturizer.

SC830

KEY INGREDIENT DESCRIPTIONS:

Tetrahexyl Decyl Ascorbate: is a stable, oil-soluble form of Vitamin C, used in cosmetics, personal care products and anti-aging products because of its ability to increase collagen levels, reduce melanin production, brighten skin, and repair the effects of UV exposure and other environmental damage. It is also considered to be more potent than L-ascorbic acid and other Vitamin C compounds, and has a higher rate of penetration (because it is lipid soluble, like human skin) than other derivatives; it also has a higher rate of conversion to vitamin C within the dermis.

Jojoba Oil: a wax ester derived from a desert shrub type plant. It is similar in chemical structure to components of human sebum. It penetrates rapidly, while leaving an emolliency on skin.

Green Tea Extract: a very potent antioxidant that helps to support skin structures and repair skin cells

Squalane: a naturally occurring lipid in both plants and animals, this source being from olives. Non-oily, non-comedogenic ingredient that acts as a barrier protecting skin from moisture loss with anti-bacterial and antioxidant properties.

Ubiquinone: another name for CoQ10, a potent antioxidant naturally produced by the body. Thought to penetrate skin easily and reduce free radical damage. Found to assist cells in building collagen and elastin, therefore reduces the appearance of fine lines and wrinkles.

PRODUCT: argan boost serum™

DESCRIPTION: This serum is a light, non-greasy lipid barrier replacement that incorporates natural and organic ingredients specially chosen for ultra-sensitive skin. Argan oil, squalane and jojoba mimic the skin's own oils to protect the barrier and hold natural moisture in. Argan oil has been shown to have regenerative and anti-microbial properties. Vitamin D, a signaling hormone, may promote cell immunity. Use this serum to create a lustrous, glowing appearance to the skin.

RX: Sensitive and dry skin types. This product should be used post-treatment (IPL/chemical peel/deep microderm) to aid in the healing process.

INGREDIENTS: Squalane, Simmondsia Chinensis (Jojoba) Seed Oil, Argania Spinosa (Argan) Oil, Cholecalciferol (Vitamin D-3)

PACKAGING: 18 ml/0.6 fl. oz. airless pump bottle
PAO – 12 Months

INSTRUCTIONS: Apply small amount to skin. Add water and smooth over face. Keep out of tear ducts. May be used under eyes, on lips and throat. This product can be used as a layer under other moisture products or alone as a liquid moisturizer for sensitive skin.

SC630

KEY INGREDIENT DESCRIPTIONS:

Squalane: a naturally occurring lipid in both plants and animals, this source being from olives. Non-oily, non-comedogenic ingredient that acts as a barrier protecting skin from moisture loss with anti-bacterial and antioxidant properties.

Jojoba Oil: a wax ester derived from a desert shrub type plant. It is similar in chemical structure to components of human sebum. It penetrates rapidly, while leaving an emolliency on skin.

Argan Oil: extracted from a long-living tree, largest source from Morocco. Contains anti-inflammatory and anti-microbial and nutritive properties along with strong emolliency promoting tissue and hair structure health

Cholecalciferol: vitamin D3 is similar in structure to steroids, such as cortisol. It has been shown to be beneficial topically against psoriasis and other skin conditions.

PRODUCT: botana-cream cleanser

DESCRIPTION: ▶ A gentle cream cleanser formulated with botanical ingredients to cleanse the skin and remove makeup without drying or irritation. Soothing and hydrating, this creamy cleanser features calming botanicals, calendula and sativa oat, along with powerful antioxidants from cranberry and pomegranate which also contribute to the refreshing scent. Sodium PCA and Safflower Seed Oil contribute moisture and support skin cell integrity without being comedogenic, making this cleanser ideal for sensitive skin types as well as anyone who enjoys the luscious texture of a creamy cleanser.

RX: ▶ All skin types, especially dry, sensitive skin.

INGREDIENTS: ▶ Water, Glycerin, Cetearyl Alcohol, Cetyl Alcohol, Glyceryl Stearate, Carthamus Tinctorius (Safflower) Seed Oil, **Avena Sativa (Oat) Kernel Flour**, Sodium Lauroyl Oat Amino Acids, Ceteareth-20, Sodium PCA, **Avena Sativa (Oat) Meal Extract**, **Vaccinium Macrocarpon (Cranberry) Fruit Extract**, **Chamomilla Recutita (Matricaria) Flower Extract**, **Punica Granatum (Pomegranate) Seed Oil**, **Avena Sativa (Oat) Kernel Extract**, Citrus Grandis (Grapefruit) Seed Extract, Ascorbyl Palmitate, Phospholipids, Phenoxyethanol, Hydroxypropyl Guar, Xanthan Gum, Ethylhexylglycerin, Sodium Phytate, Retinyl Palmitate, Tocopheryl Acetate

PACKAGING: ▶ 120 ml/4 fl. oz. airless pump bottle
PAO – 12 Months

INSTRUCTIONS: ▶ Wet hands and apply a nickel-sized amount to palm using warm water. Gently wash skin. Rinse and pat dry. Follow with your favorite dmSkincare™ moisturizer.

SC750

KEY INGREDIENT DESCRIPTIONS:

Avena Sativa(Oat): Oat Kernel contains an abundance of beneficial, natural compounds including polyphenols, beta-glucan and amino acids. One of the specific beneficial polyphenol compounds in oat is called avenanthramide. This ingredient is very helpful for soothing and moisturizing the skin.

Vaccinium Macrocarpon (Cranberry) Fruit Extract: Cranberry extract is taken from the seeds, skin, and pulp of the fruit. It contains high levels of polyphenols, flavonoids, vitamin C, and fatty acids. This creates an extract that provides potent anti-inflammatory, and antioxidant benefits. Since the pH is quite low, it acts as an effective astringent and also delivers antibacterial benefits due to its high phenolic content.

Chamomilla Recutita (Matricaria) Flower Extract: also known as German Chamomile, has anti-inflammatory properties, commonly used to relieve and calm sensitive, itchy skin. It also has antiseptic and healing properties, relieving of skin congestion,

Punica Granatum (Pomegranate) Seed Oil: An oil from the cold pressed organic seeds of pomegranate fruit which is naturally high in flavonoids and punicalic acid. Deeply nourishing to the outer epidermal layer, pomegranate seed oil provides powerful anti-oxidant benefits. Studies show that pomegranate seed oil stimulates an increase in glutathione, the body's own built-in antioxidant, which increases the topical SPF of sunscreens.

PRODUCT: botana-gel cleanserTM – with white tea

DESCRIPTION: ▷ Mild, gel-based, foamy cleanser containing light alpha and beta hydroxy acids for gentle exfoliation. Calming botanicals and aloe balance moisture, while removing oil, makeup, and cellular debris. Anti-microbial ingredients inhibit bacteria formation. Powerful vitamins and nutrients act as antioxidants. Includes a strong combination of vitamins C and E plus white tea.

RX: ▷ Most skin types.

INGREDIENTS: ▷ Water (Aqua), Sodium C14-16 Olefin Sulfonate, Cocamidopropyl Betaine, Glycerin, Benzyl Alcohol, Sodium Chloride, Peg 150 Distearate, Polyquaternium-10, Polysorbate 80, **Cucumis Sativus (Cucumber) Fruit Extract**, Sodium Dehydroacetate, Citric Acid, **Vaccinium Myrtillus (Bilberry) Fruit Extract**, Saccharum Officinarium (Sugarcane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, **Aloe Barbadensis Leaf Juice**, **Camellia Sinensis (White Tea) Leaf Extract**, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Tocopheryl Acetate, **Acer Saccharum (Sugar Maple) Extract**, **Salicylic Acid**, Sodium Ascorbate, **Lactic Acid**

PACKAGING: ▷ 120 ml/4 fl. oz. airless pump bottle
PAO – 24 Months

INSTRUCTIONS: ▷ Wet hands and apply nickel-size amount to palm using warm water. Work into lather and gently wash skin. Rinse and pat dry. May be used to remove makeup.

SC530

KEY INGREDIENT DESCRIPTIONS:

Cucumber Extract: soothing, tightening, and anti-itching. Contains amino acids and organic acids that are claimed to strengthen the acid mantle.

Vaccinium Myrtillus (Bilberry) Fruit Extract: one of the richest natural sources of anthocyanins, a potent antioxidant. Bilberry has vasoprotective, anti-inflammatory, antioxidant and healing activity.

Aloe Barbadensis Leaf Juice: moisturizes, soothes inflammation.

Camellia Sinesis (white tea) leaf extract: Extract from the minimally processed buds and leaves of green tea. Both white and green teas have the highest concentration of antioxidant properties (via their polyphenol and flavonoid content) of all teas, and several in vitro and animal studies have shown that green tea and white tea have anticancer and anti-mutagenic properties.

Acer Saccharum (Sugar Maple) Extract: exfoliating/conditioning agent; natural AHA for refining wrinkles.

Lactic Acid: increases water holding capacity of the corneum layer and acts as a delivery enhancement.

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

PRODUCT:

botana-scrub cleanser

DESCRIPTION:

▶ Deeply cleanse and gently exfoliate skin utilizing natural bamboo crystals and glycolic/salicylic acids. This clarifying cleanser removes dead skin, absorbs oil, and brightens. Phytomoist™ and aloe help restore natural water balance and contribute antioxidant protection, which is critical, in the most oily skin types. This unique blend of ingredients will help improve texture and tone, leaving the skin looking revitalized and glowing.

RX:

▶ Most skin types (that tolerate glycolic acid). Normal, oily, acneic, photo-damaged and aging skin. Can be used daily.

INGREDIENTS:

▶ **Phytomoist™ (Water (and) Tremella fuciformis sporocarp extract (and) Betaine (and) Glycerin (and) Potassium Sorbate (and) Phenoxyethanol, Bambusa Arundinacea (Bamboo) Stem Extract, Aloe Barbadensis (Aloe Vera) Leaf Extract, Salicylic Acid, Glycolic Acid**

PACKAGING:

▶ 177mL/6 fl. oz Clear Pump Bottle
PAO – 24 Months

INSTRUCTIONS:

▶ Wet hands and apply a nickel-sized amount to palm using warm water. Gently wash skin in circular motions spending more time in problem areas. Rinse several times ensuring all crystals are removed. Rinse and pat dry. Follow with your favorite dmSkincare™ moisturizer.

SC890

KEY INGREDIENT DESCRIPTIONS:

Phytomoist™: an all natural, plant-derived ingredient that improves skin softness and moisturization. Phytomoist is 400 times more moisturizing than sodium hyaluronate and contains a natural hyaluronic acid derived from an edible mushroom widely consumed in Asia. In combination with betaine, naturally derived from beets and plant derived glycerin, the combination offers improved skin softness and moisture, as well as diminishing signs of fine lines usually associated with dry skin. It also increases the production of SOD in skin while decreasing the feel of tautness.

Babusa Arundinacea (Bamboo) Stem Extract: a solidified organic silica extracted from the nodes of the bamboo stems. Bamboo stem extract removes corneus cells accumulating on the skin surface to refine skin texture and brighten skin tone.

Glycolic: dissolves intercellular cement responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

PRODUCT: C-differenceTM – vitamin C lotion

DESCRIPTION: Unique, oil-free moisturizer which offers vascular and anti-aging support to even the most sensitive skin types. Sodium hyaluronate provides superior moisture through its ability to penetrate deeply, deliver water and improve nutrient absorption. Endothelyol[®], a new and revolutionary ingredient helps to control all of the major skin inflammation factors – helping to decrease both current and future vascular eruptions. Sodium Ascorbyl Phosphate further supports leaky, inflamed blood vessels, reducing redness and providing needed support for new collagen production. Glucosamine HCl and bisabolol contribute anti-inflammatory properties and skin rejuvenation support in this nutrient rich formula packaged in a light, silky lotion that really makes a “difference” in skin tone and texture.

RX: All skin types especially mature, environmentally damaged helps to reduce the appearance of visible redness.

INGREDIENTS: Deionized Water, Cetearyl Alcohol, Polysorbate 60, Glycerin, **Sodium Ascorbyl Phosphate**, Dimethicone, Phenoxyethanol, Ethylhexylglycerin, Polyacrylamide/C13-14 Isoparaffin/Laureth-7, Xanthan Gum, **Endothelyol[®]**, **Glucosamine**, **Sodium Hyaluronate**, **Biosaccharide Gum-2**, **Bisabolol**, Natural Aromatic Extract

PACKAGING: 30 ml/1 fl. airless pump bottle
PAO – 12 Months

INSTRUCTIONS: Apply a dime-size amount to clean, moist skin day or night. May be used as a layer, after a serum and underneath a cream.

SC520

KEY INGREDIENT DESCRIPTIONS:

Sodium Ascorbyl Phosphate: non-irritating, stable form of vitamin C that converts to ascorbic acid via an enzymatic reaction that occurs when it contacts the skin, creating an effective delivery of ascorbic acid to the tissues.

Endothelyol[®]: unique 5-in-1 active ingredient to prevent skin redness and help improve rosacea. It controls all the major skin inflammation factors, helping reduce neovascularis on mechanisms while brightening skin tone. Perfect for all types of red, sensitive and irritated skin.

Glucosamine HCl: an antioxidant which stimulates cellular growth, helps burn wounds heal faster and better.

Sodium Hyaluronate: occurs naturally in the dermis and can hold up to 1000 times its weight in water. The small molecular size allows for deep penetration and delivery of water. These hydrating properties result in efficient nutrient absorption as well as smoother, softer skin with decreased wrinkles and an all-around fuller appearance.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Bisabolol: botanically derived ingredient clinically proven to have effective anti-inflammatory, anti-bacterial and anti-mycotic benefits. Assists with delivery of active ingredients trans-dermally by improving skin penetration.

PRODUCT: calm and balanceTM – moisturizing stress relief

DESCRIPTION: ▶ Our calm and balanceTM blend provides aromatherapeutic relief for stressed, anxious clients. Frankincense is the star of this blend and the major essential oil ingredient, comprising 62.5% of the total essential oil components. It provides a base for calming without sedating, improves mood, and imparts a relaxed yet gentle re-energized feeling. Lavender, mandarin orange, neroli and ylang ylang round out this zen blend.

RX: ▶ Perfect for all – especially stressed, anxious, or depressed clients.

INGREDIENTS: ▶ Prunus Persica (Peach Kernel) Oil, Simmondsia Chinensis (Jojoba) Oil, Cocus Nucifera (Coconut Oil), Tocopherol (Vitamin E), **Boswellia Carterii (Frankincense), Lavandula Angustifolia (Lavender) Oil, Citrus Reticulata (Mandarin) Oil, Citrus Aurantium (Neroli) Oil,** Cananga Odorata (Ylang Ylang) Oil

PACKAGING: ▶ 120ml/4 fl. oz. pump bottle
PAO - 12 months

INSTRUCTIONS: ▶ Apply to the body up to 2 times per day. Application is ideal post shower or for use as a relaxing and moisturizing body oil.

SC870

KEY INGREDIENT DESCRIPTIONS:

Frankincense: 62.5% of the essential oil component of the blend. Provides calming, mood support in a relaxing yet re-energizing formula.

Lavender Oil: 12.5% of the essential oil component of the blend. Has its own benefits in addition to supporting the benefits of the frankincense. Studies show anxiety relieving effects similar to those of benzodiazepine drugs. Acts upon the stress response by balancing the nervous system's autonomic response system. Lavender also decreases inflammation and pain, which benefits the immune system through this nervous system relaxation effect.

Mandarin Oil: 12.5% of the essential oil component of the blend. Mandarin is known to support the digestive system. The oil contributes fragrance and offers calming, antidepressant effects as well as skin tone enhancement when applied topically.

Neroli Oil: 6.25% of the essential oil component of the blend. Contributes fragrance and offers calming, antidepressant effects. Additional benefits of topical application include skin tone enhancement.

PRODUCT: clari-tone serumTM - for even skin tone

DESCRIPTION: This serum contains pigment lightening agents to block the overproduction of pigment where it is formed in the basal layer of the skin. Kojic acid dipalmitate, azelaic acid and alpha-arbutin are a powerful combination of clinically tested ingredients that inhibit tyrosinase activity. Antioxidant vitamins C and E give added protection from environmental damage while salicylic and lactic acids provide an effective delivery system. The pigment blocking agents remain in the cells for a period of time but do not actually bleach them. Exfoliation is necessary to remove old surface pigmentation.

RX: Hyperpigmented skin from skin traumas, sun damage, acne scars, surgery, and other pigmentary deviations. Recommended post-treatment after IPL series for hyperpigmentation.

INGREDIENTS: Distilled Water, Witch Hazel Distillate, Glycerin, Cetearyl Olivatate/Sorbitan Olivatate, Methylcellulose, **Azelaic Acid, Sodium Isoascorbate (Vitamin C), Kojic Acid Dipalmitate, Alpha-Arbutin, Tocopherol (Vitamin E), Lactic Acid, Salicylic Acid, Potassium Sorbate, Phenoxyethanol, Ethylhexylglycerin, Biosaccharide Gum-2, Dipotassium Glycyrrhizinate (Licorice)**

PACKAGING: 18 ml/0.6 fl. oz. airless pump bottle
PAO – 6 Months

INSTRUCTIONS: Apply dime-size amount to the face. Allow to dry for two (2) minutes before applying additional topical products. Product should be used in the evening to prevent potential inflammation from the sun.

SC580

KEY INGREDIENT DESCRIPTIONS:

Azelaic Acid: is a natural occurring dicarboxy acid that inhibits tyrosinase activity during its use, has exfoliating and disinfecting properties and works best when used with AHAs.

Sodium Isoascorbate: form of vitamin C that protects skin by limiting the production of free radicals.

Kojic Acid Dipalmitate: inhibits the activity of tyrosinase in skin so as to inhibit melanin formation. Produces skin whitening and toning effects as well as fights age spots, freckles and pregnancy marks.

Alpha-Arbutin: blocks epidermal melanin synthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa. It is the more effective, faster and safer approach to promoting even skin tone and skin-brightening on all skin types. It also minimizes liver spots.

Lactic Acid: increases water holding capacity of the corneum layer and acts as a delivery enhancement.

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Dipotassium Glycyrrhizinate: anti-inflammatory agent that may inhibit tyrosinase activity in skin, derived from licorice.

PRODUCT: collagen renewal C'reme™

DESCRIPTION: ▶ Vitamin C, Edelweiss and Teprenone are blended in this silky, light-weight, yet highly effective moisturizer with skin renewal and protective properties. In clinical studies Alpaflor® Edelweiss, an extract from the Swiss Alpine Edelweiss Plant, is shown to support skin's crucial protective barrier, while enhancing its resistance to external stress factors. Teprenone (Renovage™) supports cell survival and improves skin tone and appearance by inhibiting or limiting cell aging and cell death. Vitamin C uses lactic acid to further enhance the skin turnover and delivery in this state-of-the-art product. This product is essential in a vitamin C regimen with high potentC serum™ and C-difference™ - vitamin C lotion to aid in collagen formation and redness reduction while maintaining a healthy, vibrant glow.

SC590

RX: ▶ Environmentally damaged and mature skin.

INGREDIENTS: ▶ Deionized Water, Caprylic/Capric Triglyceride, Cetearyl Alcohol, Cetearyl Glucoside, Glycerin, **Teprenone (Renovage®)**, **Leontopodium Alpinum (Edelweiss) Extract**, Glyceryl Stearate, PEG-100 Stearate, Sodium Hydroxide, Phenoxyethanol, Ethylhexylglycerin, **Lactic Acid**, **Sodium Ascorbyl Phosphate**, Denatured Ethyl Alcohol, Carbomer, Acrylates/C10-30 Alkyl Acrylate Crosspolymer, Xanthan Gum, **Fructose**, Albumin, **Glucosamine HCl**, Disodium EDTA, Citrus Sinensis (Orange) Oil, Natural Aromatic Extract

PACKAGING: ▶ 30 ml/1 fl. oz. acrylic jar.
PAO – 12 Months

INSTRUCTIONS: ▶ Apply to clean skin for day and/or nighttime repair.

KEY INGREDIENT DESCRIPTIONS:

Edelweiss Extract: is shown in studies to protect and regenerate skin's natural barrier, providing extraordinary antioxidant, radical scavenging and protection properties.

Renovage®: supports cell survival improving skin tone and appearance. Fights against all signs of aging including loss of elasticity, dehydration, age spots, ineffective barrier function, wrinkles, pores, and redness.

Lactic Acid: an AHA with a larger molecule that may not be as irritating as other AHAs. It increases the water holding capacity of the corneum layer.

Sodium Ascorbyl Phosphate: non-irritating, stable form of vitamin C that converts to ascorbic acid via an enzymatic reaction that occurs when it contacts the skin, creating an effective delivery of ascorbic acid to the tissues.

Fructose: enhances synthesis of cell wall components; promotes water uptake in cells, it is attracted to the fluids that flow along the basal layer of the skin and causes the Langerhan cells (immune cells), to expand with the increased water uptake, thereby plumping the skin.

Glucosamine HCl: an antioxidant which stimulates cellular growth, helps burn wounds heal faster and better.

PRODUCT: daily eclipse[®] – oil-free sunscreen SPF 30

DESCRIPTION: Oil-free, physical barrier protection cream that uses no chemical sunscreen ingredients in the formula. Instead, it is formulated with micronized titanium dioxide, zinc and zirconium dioxide for broad spectrum filtering (UVA and UVB). Mild barrier protection can be used after any strong skin treatment with no worry of burning or irritation, especially around the eyes. No-oil formula leaves skin smooth without greasy residue.

RX: All skin types, especially sensitive and post microdermabrasion, surgery, peel, and/or laser, for irritant barrier and sun protection. May be used on children and adults.

INGREDIENTS: Active Ingredients: Titanium Dioxide 13%, Zinc Oxide 2%
Inactive Ingredients: 1,2 Hexanediol, Allantoin, Aloe Barbadensis Leaf Juice, Alumina, Caprylyl Glycol, Cetyl Alcohol, Glycerin, Glyceryl Stearate, Phenoxyethanol, Potassium Sorbate, Simethicone, Stearic Acid, **Titanium Dioxide**, Tropolone, Water, Watermelon Extract, Xanthan Gum, **Zinc Oxide**, **Zirconium Dioxide**

PACKAGING: 50 ml/1.7 fl. oz. airless pump bottle
PAO – 12 Months

INSTRUCTIONS: Use dime-size amount on fingertips and apply to face, neck and ears. Re-apply frequently depending on activities.

SC550

KEY INGREDIENT DESCRIPTIONS:

Titanium Dioxide: a naturally occurring mineral that acts as a sun screen and particle barrier to deflect the light away from the area.

Zinc Oxide: approved broad spectrum particle barrier for sun protection.

Zirconium Dioxide: diamond like particle for sun deflection and even particle distribution.

PRODUCT: derma renewal gel™

DESCRIPTION: ▷ Cooling and refreshing moisture in an oil-free gel which combines the time-tested homeopathic ingredients of arnica, calendula, aloe vera gel, and honey to renew the skin following cosmetic skin treatments, skin irritations, burns, pain, and inflamed areas. This cooling and refreshing gel increases the hydration level and promotes healthy cellular renewal.

RX: ▷ All skin types and is especially useful for post treatment skin.

INGREDIENTS: ▷ Water (Aqua), **Honey**, Glycerin, **Aloe Barbadensis Leaf Juice**, **Sodium Hyaluronate**, Sodium PCA, **Arnica**, **Calendula**, **Chamomile**, Phytonadione (Vitamin K), Hydroxyethyl Cellulose, Phenoxyethanol, Ethylhexylglycerin

PACKAGING: ▷ 50 ml/1.7 fl. oz. airless pump bottle
PAO - 12 months

INSTRUCTIONS: ▷ Apply one pump to the face, neck or any irritated area as needed.

SC850

KEY INGREDIENT DESCRIPTIONS:

Honey: Honey is a natural humectant; it attracts and retains moisture and features a moisture content of 14% to 18%. In addition, it offers a stimulating and toning effect on the skin. It has antimicrobial properties and is safe to use on even the most sensitive skin.

Aloe Barbadensis Leaf Juice: a high mannin (carbohydrate) content ingredient naturally derived and carefully extracted to maintain potency, used for its ability to attract moisture which is critical for a healing environment.

Sodium Hyaluronate: occurs naturally in the dermis and can hold up to 1000 times its weight in water. The small molecular size allows for deep penetration and delivery of water. These hydrating properties result in efficient nutrient absorption as well as smoother, softer skin with decreased wrinkles and an all-around fuller appearance.

Arnica: botanical with antiseptic, astringent, antimicrobial, anti-inflammatory properties. Promotes the removal of wastes from the skin and aids in new tissue growth.

Calendula: emollient offering healing, soothing, antiseptic, anti-itching and anti-inflammatory properties. It can be used to improve mild acne, reduce irritation and calm inflammation, and can even improve the condition of chapped and sunburned skin. Calendula is a calming and soothing ingredient that is believed to be safe and gentle for even the most sensitive skin. It may improve the condition of patients diagnosed with eczema when used in conjunction with other treatment options.

Chamomile: Conditioning agent and cell rejuvenator with anti-inflammatory and skin soothing properties. Shown to enhance the appearance of dehydrated or damaged skin by reducing dry flaking and restoring suppleness.

PRODUCT: eye-dewTM

DESCRIPTION: This marriage of liquid oxygen and liquid crystals breathes life into tired skin around the eyes. Liquid crystals softly shimmer to brighten dull skin while acting as the delivery agent for a highly moisturizing peptide formula which is proven to reduce the appearance of visible lines. Liquid oxygen plumps, hydrates and rejuvenates skin. Long term benefits include a reduction in the depth of existing lines and prevention of new wrinkles from repeated applications.

RX: Mature, Dry Skin

INGREDIENTS: Perfluorodecalin, Cholesteryl Nonanoate, Cholesteryl Oleyl Carbonate, Cholesteryl Chloride (Liquid crystals), Sodium Hyaluronate

PACKAGING: 8 ml/0.6 fl. oz jar
PAO – 12 Months

INSTRUCTIONS: Apply very small amount above and below eye area prior to makeup application. A small amount may be applied after makeup to illuminate cheekbones. Use very small quantities for application. Approximate 4 month supply when used as directed.

SC600

KEY INGREDIENT DESCRIPTIONS:

Perfluorodecalin: improves cellular respiration and metabolism by increasing oxygen to cells and removing carbon dioxide; moisturizes; heals; anti-wrinkle agent.

Cholesteryl Nonanoate, Cholesteryl Oleyl Carbonate, and Cholesteryl Chloride (Liquid crystals): improves skin barrier integrity; provides protection, repair and moisture

Sodium Hyaluronate: occurs naturally in the dermis and can hold up to 1000 times its weight in water. The small molecular size allows for deep penetration and delivery of water. These hydrating properties result in efficient nutrient absorption as well as smoother, softer skin with decreased wrinkles and an all-around fuller appearance.

PRODUCT: eye-radiance K'reme™ – with grape seed extract

DESCRIPTION: Thoughtfully blended eye care cream for use against dark circles and puffiness. This luxurious cream illuminates the under-eye area with light diffusing, natural pigments. Haloxyl™, a peptide blend, promotes skin firmness while helping to reduce pigment and inflammation. Teprenone (Renovage®) fights signs of aging by helping to increase the lifespan of telomeres (cell protectors); creating healthy, youthful looking skin. Vitamin K and resveratrol combine to support healthy capillary function which helps against the formation of dark circles and pigment deposits.

RX: All skin types to reduce puffiness and the appearance of dark circles under the eyes.

INGREDIENTS: Deionized Water, Caprylic/Capric Triglyceride, Glycerin, Polyacrylamide C13-14 Isoparaffin/Laureth-7, **Steareth-20/Hydroxysuccinimide/Chrysin/Palmitoyl Oligopeptide/Palmitoyl Tetrapeptide-7 (Haloxyl™), Teprenone (Renovage®),** Glycol Distearate, Cetyl Alcohol, Phenoxyethanol, Ethylhexylglycerin, **Phytonadione (Vitamin K), Alpha-Arbutin, Vitis Vinifera (Grape Seed) Extract,** C12-C15 Alkyl Benzoate, Olea Europaea, Stearic Acid, **Titanium Dioxide,** Witch Hazel Extract, Xanthan Gum, **Resveratrol, Arnica Montana Flower Extract, Calendula Officinalis (Marigold) Flower Extract,** Natural Aromatic Extract

PACKAGING: 18 ml/0.6 fl. oz airless pump bottle
PAO – 9 Months

INSTRUCTIONS: Apply pea-size amount under both eyes once or twice daily.

SC600

KEY INGREDIENT DESCRIPTIONS:

Haloxyl™: a peptide blend that lessens under eye dark circles by reinforcing firmness and tone of the eye area. Ingredients activate the elimination of blood originated pigments responsible for dark circle color and local inflammation.

Renovage®: supports cell survival improving skin tone and appearance. Fights against all signs of aging including loss of elasticity, dehydration, age spots, ineffective barrier function, wrinkles, pores, and redness.

Vitamin K: fat soluble vitamin used by the body to ensure proper blood clotting. Helps reduce pigment deposits and bruising caused by “leaky” blood vessels.

Alpha-Arbutin: blocks epidermal melanin synthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa. It is the more effective, faster and safer approach to promoting even skin tone and skin-brightening on all skin types. It also helps to minimize liver spots.

Grape Seed Extract: an antioxidant, that promotes capillary strength, wound healing and helps decrease bruising. Also, considered counterirritant with soothing and antibacterial properties.

Titanium Dioxide: a naturally occurring mineral that acts as a sun screen and particle barrier to deflect the light away from the area.

Resveratrol: a phytoalexin that is produced in plants in response to environmental, insect or animal stress. Grape skins are good sources. Resveratrol demonstrates anti-inflammatory effects, in addition to anti-mutagenic activity. It supports the capillaries and health of the skin from free-radical damage. Resveratrol may be used to calm the skin after microdermabrasion treatments or other exfoliation procedures.

Arnica Montana Flower Extract: botanical with antiseptic, astringent, antimicrobial, anti-inflammatory properties. Promotes the removal of wastes from the skin and aids in new tissue growth.

Calendula: used as a skin conditioning agent, anti-inflammatory, wound healing agent and fragrance additive. Has been shown to promote skin healing and repair, as well as help reduce inflammation.

PRODUCT: gentle cleansing bar

DESCRIPTION: ▶ A mild glycerin and coconut oil cleansing bar which contains no detergents. Fruit sugars hydrate and botanicals gently cleanse to create a superior skin conditioning effect for post-traumatic skin conditions.

RX: ▶ Sensitive, dry and post-treatment.

INGREDIENTS: ▶ Glycerin, Water (Aqua), Cocos Nucifera (Coconut) Oil, Elaeis Guineensis (Palm) Kernel Oil, Ricinus Communis (Castor) Seed Oil, Caprylic/Capric Triglyceride, Sorbitan Oleate, Sorbitol, Carthamus Tinctorius (Safflower) Seed Oil, Coco-Caprylate/Caprates, Glycine Soja (Soybean) Protein, Sodium Hydroxide, Dicaprylyl Ether, Glyceryl Stearate, Cetearyl Glucoside, Cetearyl Alcohol, **Sodium PCA, Fructooligosaccharides, Glucosamine HCl, Mangifera Indica (Mango) Fruit Extract, Xanthan Gum, Canaga Odorata (YlangYlang) Flower Oil, Citrus Aurantium Bergamia (Bergamot) Fruit Oil, Citrus Tangerina (Tangerine) Peel Oil, Citrus Aurantifolia (Lime) Oil, Lecithin, Hamamelis Virginiana (Witch Hazel) Water, Alcohol Denat, Benzyl Alcohol**

PACKAGING: ▶ 60 g bar
PAO – 12 Months

INSTRUCTIONS: ▶ Use as part of post peel or laser treatment follow-up home care regimen. Create a lather with water, apply to skin and gently cleanse with fingertips. Rinse well. May be used in the morning and the evening. Will not cause irritation or drying.

SC650

KEY INGREDIENT DESCRIPTIONS:

Sodium PCA: a high performance humectant due to its moisture binding abilities. It exists naturally in the skin as a component of the natural moisturizing factors. It is derived from amino acids and is considered noncomedogenic and nonallergenic and therefore is recommended for dry, delicate, and sensitive skin.

Fructooligosaccharides: naturally occurring carbohydrates that promote healthy surface bacteria that protect the skin from harmful bacteria invasions.

Glucosamine HCl: an antioxidant which stimulates cellular growth, helps burn wounds heal faster and better.

Mango Extract: associated with various benefits, including antioxidant properties and skin softening and smoothing thanks to natural enzymatic activity.

Essential Oils (YlangYland, Bergamot, Tangerine, Lime): for natural fragrance.

PRODUCT: green tea toner – with glycolic

DESCRIPTION: ▷ Glycolic toner blends a synergistic combination of hazelnut extract and witch hazel which creates superior skin softening and firming. Green tea extract, grape seed oil and vitamin C provide anti-oxidant protection and astringency to tone. Glycolic acid is added to loosen cellular debris, cut oil and encourage cell turnover. After use, skin feels smooth and taut but never dry.

RX: ▷ Most skin types (that tolerate glycolic acid).

INGREDIENTS: ▷ Deionized Water, Witch Hazel Distillate, Glycerin, **Glycolic Acid**, Phenoxyethanol, Ethylhexylglycerin, Aloe Barbadensis Leaf Juice, **Corylus Avellana (Hazel) Leaf Extract**, Polysorbate-20, **Camellia Oleifera (Green Tea) Extract**, **Vitis Vinifera (Grape Seed) Extract**, Malva Sylvestris (Mallow), Symphytum Officinale (Comfrey) Leaf Extract, Calendula (Marigold) Officinalis Flower Extract, Chamomilla Recutita (Matricaria) Flower Extract, Panax Ginseng Root Extract, **Sodium Ascorbyl Phosphate (Vitamin C)**, Helianthus Annuus (Sunflower) Seed Oil, Tocopherol (Vitamin E), Ascorbyl Palmitate

PACKAGING: ▷ 120 ml/4 fl. oz. airless pump bottle
PAO – 9 Months

INSTRUCTIONS: ▷ Follow cleansing product with green tea toner on cotton pad. Keep out of eyes. For most skin types, use once daily. For oily skin, use after each cleansing.

SC640

KEY INGREDIENT DESCRIPTIONS:

Glycolic Acid: dissolves intercellular cement responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

Green Tea Extract: a very potent antioxidant that helps to support skin structures and repair skin cells. It contains astringent and anti-inflammatory properties.

Grape Seed Extract: an antioxidant that promotes capillary strength, wound healing and helps decrease bruising.

Sodium Ascorbyl Phosphate: non-irritating, stable form of vitamin C that converts to ascorbic acid via an enzymatic reaction that occurs when it contacts the skin, creating an effective delivery of ascorbic acid to the tissues.

PRODUCT: green tea vita-E moisturizerTM – with cucumber

DESCRIPTION: ▶ Moisturizer with a soft whipped gel/cream consistency that hydrates, soothes and calms skin. Light enough to wear day or night as a moisturizer. Contains soothing cucumber, calendula extracts and vitamin E to calm irritations. Green tea extract is a powerful antioxidant appropriate for providing protection against environmental stress.

SC540

RX: ▶ For all skin types.

INGREDIENTS: ▶ Deionized Water, Glycerin, Cetearyl Alcohol, Cetearyl Glucoside Caprylic/Capric Triglyceride, Polyacrylamide C13-14 Isoparaffin/Laureth-7, Glyceryl Stearate, Phenoxyethanol, Ethylhexylglycerin, **Butyrospermum Parkii (Shea) Butter**, Carthamus Tinctorius (Safflower) Seed Oil, Helianthus Annus (Sunflower Seed Oil), **Camellia Sinensis (Green Tea) Leaf Extract**, **Cucumis Sativus (Cucumber) Fruit Extract**, Chitosan Succinate, **Aloe Barbadensis Leaf Juice**, Chlorophyll, **Allantoin**, **Calendula Officinalis (Marigold) Extract**, Fructose, Glyco Delta Lactone, **Tocopherol**, Natural Aromatic Extract

PACKAGING: ▶ 30 ml/1 fl. oz. acrylic jar
PAO – 12 Months

INSTRUCTIONS: ▶ Apply dime-size amount to skin in the morning and/or evening.

KEY INGREDIENT DESCRIPTIONS:

Shea Butter: non-comedogenic emollient derived from a natural fat of the karite tree, protects skin from dehydration, prevents erythema, neutralizes free radicals and prevents lipid-peroxidation.

Cucumber Fruit Extract: soothing, tightening, and anti-itching. Contains amino acids and organic acids that are claimed to strengthen the acid mantle.

Aloe: an emollient and film-forming gum resin with hydrating, healing, antimicrobial and anti-inflammatory properties.

Allantoin: botanical extract that is healing and soothing, aids in the healing of damaged skin by stimulating new tissue growth.

Calendula: used as a skin conditioning agent, anti-inflammatory, wound healing agent and fragrance additive. Has been shown to promote skin healing and repair, as well as help reduce inflammation.

Green Tea Extract: a very potent antioxidant that helps to support skin structures and repair skin cells.

Tocopherol: commonly used to replace vitamin E, it is a more stable form and is converted to vitamin E in the body, non-comedogenic antioxidant that is fat soluble, which means, it will stick around longer than water-soluble, a very powerful tool in protection for skin. It will help the body repair itself and help prevent appearance of wrinkles.

PRODUCT: high potenC serum™

DESCRIPTION: ▶ The essential elements of every skincare program are to support and replace necessary constituents of collagen, elastin and provide vascular protection. High potenC serum™ supports each essential element improving skin tone and appearance, leaving skin illuminated. This botanical powerhouse formula features sodium ascorbyl phosphate, a significantly more stable form of vitamin C, in a polyphenol blend of apple stem cell extract, resveratrol (red wine extract) and grape seed extract. These ingredients work synergistically to slow the aging process by making skin more flexible with fewer visible lines and nourished capillaries.

RX: ▶ Any skin type, especially for those over 35, with photo damaged skin and visible capillaries.

INGREDIENTS: ▶ Deionized Water, **Sodium Ascorbyl Phosphate**, Butylene Glycol, Hyaluronic Acid, Phenoxyethanol, Xanthan Gum, Chlorphenesin, Hamamelis Virginiana (Witch Hazel), **Dipotassium Glycyrrhizenate (Licorice)**, **Resveratrol**, **Bisabolol**, **Bio-saccharide Gum-2**, **Malus Domestica Fruit Cell Culture Extract (PhytoCellTec™)**, Lecithin, **Alpha Arbutin**, **Vitis Vinifera (Grape Seed) Extract**

PACKAGING: ▶ 18 ml/0.6 fl. oz. airless pump bottle
PAO – 6 Months

INSTRUCTIONS: ▶ Apply pea size amount to face and another to neck. Blend well before applying additional products. Use daily in the morning. Do not apply to upper eyelids.

SC620

KEY INGREDIENT DESCRIPTIONS:

Sodium Ascorbyl Phosphate: non-irritating, stable form of vitamin C that converts to ascorbic acid via an enzymatic reaction that occurs when it contacts the skin, creating an effective delivery of ascorbic acid to the tissues.

Dipotassium Glycyrrhizinate: anti-inflammatory agent derived from licorice that may inhibit tyrosinase activity in skin.

Resveratrol: a phytoalexin produced in plants in response to environment, insect or animal stress. Resveratrol demonstrates anti-inflammatory effects and anti-mutagenic activity. It supports capillaries and health of skin from free-radical damage. May be used to calm skin after microdermabrasion treatments or other exfoliation procedures.

Bisabolol: botanically derived ingredient clinically proven to have effective anti-inflammatory, anti-bacterial and anti-mycotic benefits. Assists with delivery of active ingredients trans-dermally by improving skin penetration.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Malus Domestica Fruit Cell Culture (PhytoCellTec™): a liposomal preparation of apple stem cells. These apple stem cells are rich in epigenetic factors and metabolites, assuring the longevity of skin cells. PhytoCell Tec™ Malus Domestica has been shown to protect skin stem cells and delay senescence of cells.

Alpha-Arbutin: blocks epidermal melanin synthesis by inhibiting enzymatic oxidation of Tyrosine and Dopa. It is the more effective, faster and safer approach to promoting even skin tone and skin-brightening on all skin types. It also minimizes liver spots.

Grape Seed Extract: an antioxidant that promotes capillary strength, wound healing and helps decrease bruising. Also, considered counterirritant with soothing and antibacterial properties.

PRODUCT:

hydra repair mask™

DESCRIPTION:

▶ This creamy, hydrating mask works to help reduce the appearance of pores and immediately improve minor irritations and refine texture. Helps to calm irritable skin and may be used after an aggressive treatment, extractions or sunburn. Red wine extract has an anti-inflammatory quality, while squalane and jojoba are added to soothe and replace the lipid barrier to help hold in the skin's own natural moisture.

SC610

RX:

▶ Irritated, dry, post-treatment skin.

INGREDIENTS:

▶ Aqua (Water), **Kaolin**, Titanium Dioxide, Polyacrylamide (and) C13-14 Isoparaffin (and) Laureth 7, **Aloe Barbadensis Leaf Juice, Jojoba, Squalane (Olive)**, Glycerin, **Resveratrol**, Sodium Hyaluronate, Sodium Polyacrylate, PEG-6 Caprylic/Capric Glycerides (and) Polyglycerol-6 Dioleate (and) Glyceryl Caprylate/Caprates, Sodium Carbomer, Phenoxyethanol, Ethylhexylglycerin.

PACKAGING:

▶ 50 ml Acrylic Jar
PAO – 9 Months

INSTRUCTIONS:

▶ Apply a liberal amount to clean skin and leave on for ten minutes. After ten minutes add water to fingertips and massage into a lather. Rinse and remove excess with 4x4 or facial sponge. Rinse again and pat dry.

KEY INGREDIENT DESCRIPTIONS:

Kaolin: has great absorption abilities making it an appropriate absorber of the oil and sweat secreted by the skin.

Aloe: an emollient and film-forming gum resin with hydrating, healing, antimicrobial and anti-inflammatory properties. Its moisturizing ability is its most widely recognized characteristic.

Squalane: excellent moisturizer and lubricant, is an oxygenator and cancer fighter, it holds moisture to the epidermal lipid layer, helps keep skin supple and smooth and guards against UV radiation.

Jojoba: naturally occurring oil that resembles the skin's sebum, reputed to have healing qualities and studies have shown that it penetrates the stratum corneum rapidly to reduce transepidermal water loss.

Resveratrol: derived from red wine extract, a phytoalexin that is produced in plants in response to environmental stress (grape skins are good sources), supports the capillaries and health of the skin from free radical damage, can also calm skin after microdermabrasion treatments and other exfoliation procedures.

PRODUCT:

mandelic serum

DESCRIPTION:

▶ This serum attacks blemishes at their root causes -- excess oil production, bacterial overgrowth, and clogged pores. Mandelic acid is an AHA that exfoliates but does not irritate due to its oil solubility and large molecule size which allows for slower, more gentle skin penetration. In addition, pigment lightening has been reported with regular use of mandelic acid. Willow bark and salicylic derivatives give the serum astringent and keratolytic benefits, while botanical superstar, Alpiflor™ reduces sebum production. Mandelic serum offers cleaner pores and a brighter, smoother complexion, without irritation.

RX:

▶ Mild to severe blemishes, fine lines and wrinkles, and pigmentation. Gentle and safe for most skin types.

INGREDIENTS:

▶ Aqua (Water), Glycerin, **Mandelic Acid**, Xanthan Gum, **Epilobium Fleischeri Extract, Methylpropanediol and 4-Terpineol and Salicylic Acid and Salix Alba (Willow) Bark Extract**, Sodium Benzoate

PACKAGING:

▶ 18 ml Airless Bottle
PAO – 12 Months

INSTRUCTIONS:

▶ Use on clean skin in the evening. Apply a few drops over entire face with clean fingertips. Since this is a slow penetration product, we recommend you wait 10 minutes before applying other products. Follow with mineral sunscreen if used during the day.

SC800

KEY INGREDIENT DESCRIPTIONS:

Mandelic acid: also known as amygdalic acid, an alpha hydroxyl acid made from bitter almonds which has exfoliating, anti-inflammatory and anti-microbial qualities. It has a larger molecule than other AHAs (alpha hydroxy acid) making it slower to penetrate the skin and thereby reducing the potential for irritation.

Alphafor® Epilobium fleischeri extract: produced from Epilobium fleischeri, a rare Alpine species of Willowherb, whose key compounds show sebum-regulating and anti-inflammatory activities due to their ability to significantly inhibit the activity of 5α-reductase and thereby reduce sebum production, leading to visibly clearer skin.

Trikenol™: a synergistic blend that improves the health of oily, acne-prone skin and prevents the factors that trigger this multi-factorial process, 4-Terpineol (tea tree) offers anti-microbial and anti-inflammatory benefits and willow bark extract is used in skincare for its astringent, antiseptic, anti-inflammatory, and soothing properties. Willow Bark Extract also contains salicylic acid, a BHA which is a natural exfoliant and is used in acne treatments because of its ability to help skin shed dead cells and clear pores.

PRODUCT: mineral makeup

DESCRIPTION: ▶ Color from nature for a natural, unspoiled look – yet surprisingly great coverage. This specially bonded, loose and free-flowing powder is concealer, foundation and finishing treatment in one. Crushed mineral pigments are highly refined and blended to reflect light, yet let natural skin tones show. Skin looks radiant. Completely hypo-allergenic and free of all fillers, binders and oils, this makeup can be used by all ages, on all skin types, for every condition. This foundation contains no caking agents to sit in lines and pores on skin. Available 3 shades: light, medium and dark.

RX: ▶ All skin types.

INGREDIENTS: ▶ Mica, Iron Oxides, **Titanium Dioxide, Zinc Oxide**

PACKAGING: ▶ 7 gr jar
PAO - 24 months

INSTRUCTIONS: ▶ Apply with brush using swirling strokes. Skin should be moist from natural oils or skin preparation such as sun protection or moisturizer for best adherence. To use as concealer, apply with sponge and blend with small brush. This loose foundation may also be applied over other products such as cream base or liquid to give seamless natural looking full coverage.

KEY INGREDIENT DESCRIPTIONS:

Titanium Dioxide: a naturally occurring mineral that acts as a sunscreen and particle barrier to deflect the light away from the area.

Zinc Oxide: approved broad spectrum particle barrier for sun protection.

PRODUCT: oxygen serum

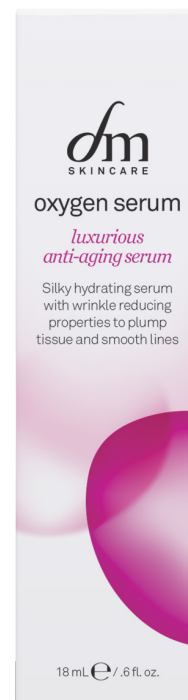

DESCRIPTION: ▷ This serum is an anti-aging powerhouse which focuses on hydration, plumping and improvement of skin texture utilizing state-of-the-art skincare ingredients. AE Advanced BTX addresses fine lines and wrinkles by relaxing the skin (think botox!) and plumping tissues with hydration, deep nutrient delivery and detoxification of cells. Chondrus Crispus extract and D2O trap moisture in the inner layers of the dermis providing lasting hydration, while silk amino acids provide a silky smooth finish. Skin will look and feel smooth and moist for days with regular use of these clinically proven ingredients. Perfect for anyone looking to slow skin aging and improve skin texture for a smooth and hydrated complexion.

RX: ▷ Dry, sensitive, mature skin.

INGREDIENTS: ▷ Deionized Water, **Chondrus Crispus Extract and Sodium Hyaluronate (MariMoist®)**, Witch Hazel Distillate, Glycerin, Caprylhydroxamic Acid and Caprylyl Glycol and Propanediol and Ethylhexylglycerin, **Squalane, Deuterium Oxide, Perfluorohexane and Perfluoroperhydrophenantrene and Perfluorodecalin (AE Advanced BTX), Silk Amino Acids**, Xanthan Gum, Polyacrylate-1 and Polyisobutene and Polysorbate-20

PACKAGING: ▷ 18 ml/0.6 fl. oz. airless pump bottle
PAO – 6 Months

INSTRUCTIONS: ▷ Apply dime size to face (including eye area). May apply additional product to the neck. Use as part of treatment protocol, applying as a layer whenever intense hydration is beneficial.

SC770

KEY INGREDIENT DESCRIPTIONS:

MariMoist®: species of red algae which grows abundantly. The molecule has a chemical structure of long molecular chains which coil around each other, moisture gets trapped in this space, making this ingredient ideal for hydrating and cooling the skin with resulting improvements in skin texture.

Squalane: Naturally occurring lipid that is not oily and is non-comedogenic. Acts as a barrier, protecting skin from moisture loss. Has anti-bacterial and antioxidant properties.

Deuterium Oxide: also known as "heavy water", this molecule has a heavy molecular weight which allows for delivery of moisture deep into the skin and superior cooling attributes.

AE Advanced BTX: blend of medical grade perfluoro carbons which allow for varied penetration times and intensive moisture delivery. Not oil or water soluble, it positions itself between intracellular lipids and moisture in the skin. Topical application allows the glabellar muscles to relax and find their natural position. Purges carbon dioxide from skin allowing cells to breathe and be refreshed.

Silk Amino Acids: a silk-derived protein resulting from the complete hydrolysis of silk. Protects the skin from dehydration and leaves it with a smooth feel.

PRODUCT: purifying mineral mask

DESCRIPTION: This super absorbent, richly formulated mask features Moroccan lava clay, purifying clay that extracts impurities and excess oils without over-drying the skin. Curcuma kwangsiensis and curcuma wenyujin rhizome extract contribute to the sebum modulating effects of this mask, while chondrus crispus extract and sodium hyaluronate ensure that the skin well-hydrated. Minerals are delivered deeply to the skin via breakthrough technology that utilizes encapsulation. This blend of soothing, moisturizing and nourishing mineral and botanical ingredients manages oil production and keeps the skin hydrated and clean.

SC900

RX: Oily or acne-prone skin types. May be used weekly or more frequently depending on individual oil production.

INGREDIENTS: Moroccan lava clay, DermalRx® CKW (Curcuma Kwangsiensis/ Curcuma Wenyujin Rhizome Extract), Marimoist™ (Water (and) Chondrus crispus Extract (and) Sodium hyaluronate), BMC Bio-Mineral Liquid Complex™ (Montmorillonite (and) kaolin (and) water), Avena sativa L (Colloidal Oatmeal)

PACKAGING: 50 ml Acrylic Jar
PAO – 24 Months

INSTRUCTIONS: Apply a liberal amount to clean skin and leave on for ten minutes. After ten minutes remove with a damp 4x4 or facial sponge and pat

KEY INGREDIENT DESCRIPTIONS:

Moroccan Lava Clay: a mineral-rich clay mined in the Atlas Mountains of Morocco, known for its strong ability to absorb impurities from the skin, it cleanses, deeply clearing pores. Moroccan lava clay contains naturally high levels of beneficial minerals such as magnesium, calcium, potassium and iron.

BMC Bio-Mineral Liquid Complex: has a structure that combines tetrahedral and octahedral sheets that create a predominantly negative charge on the clay platelets. This structure allows the cells to encapsulate and hold the positively charged minerals and trace minerals within its core, penetrating the inner layers of the skin to naturally deliver balanced minerals.

DermalRx®: A proprietary combination of two exotic species of Zingiberaceae, DermalRx® CKW has been developed to help modulate excessive production of skin sebum. Its inhibitory efficacy against 5α-reductase activities is highly remarkable and comparable to benchmark. Well documented minimization of sebum production in vivo among male and female populations and clinically proven visible decrease of facial sheen have been reported for DermalRx® CKW.

Marimoist™: species of red algae which grows abundantly. The molecule has a chemical structure of long molecular chains which coil around each other, moisture gets trapped in this space, making this ingredient ideal for hydrating and cooling the skin with resulting improvements in skin texture.

PRODUCT: repair bar

DESCRIPTION: This natural lecithin, glycerin and coconut oil bar deeply cleanses oily and blemish prone skin conditions, as well as rashes. Pumpkin seed oil donates vitamin A, while salicylic acid and resorcinol are anti-acne and anti-microbial ingredients that are keratolytic. Fumaric acid has been used topically to treat psoriasis and it potentiates anti-microbial activity of other ingredients.

RX: Any skin type, especially for oily or blemish prone skin. Can be used on body.

INGREDIENTS: Lecithin, Glycerin, Cocos Nucifera (Coconut) Oil, Elaeis Guineensis (Palm) Kernal Oil, Ricinus Communis (Castor) Seed Oil, Water (Aqua), Sorbitol, Sorbitan Oleate, Carthamus Tinctorius (Safflower) Seed Oil, Glycine Soja (Soybean) Protein, Sodium Hydroxide, Fumaric Acid, Evernia Furfuracea (Treemoss) Extract, **Salicylic Acid, Resorcinol, Foeniculum Vulgare (Fennel) Oil, Curcubita Pepo (Pumpkin) Seed Oil, Lavandula Angustifolia (Lavender) Oil**

PACKAGING: 60 g bar
PAO – 12 Months

INSTRUCTIONS: Use to cleanse, reduce oil and dead cell buildup. Make a lather with water, apply to skin and gently cleanse with fingertips. Rinse well. May also be left on skin as a mask or even over night to reduce rash or psoriatic plaque buildup.

SC660

KEY INGREDIENT DESCRIPTIONS:

Salicylic Acid: in small percentages in a cleanser or moisturizer can help keep acne-prone skin clear. It also has some anti-inflammatory properties, as well as antiseptic, antifungal, antioxidant and antibacterial properties.

Resorcinol: a keratolytic, removes the surface layer of the skin (the dry, dead cells), possesses anti-microbial properties.

Fennel Oil: described as a cleanser and detoxifier indicated for oily skin types.

Pumpkin Seed Oil: an oil that is quickly absorbed by the skin. Pumpkin seed oil is rich in vitamins A, C, E, Zinc, and Omega-3 and Omega-6 essential fatty acids.

Lavender Oil: considered an all-purpose oil credited with many therapeutic properties including antiallergenic, anti-inflammatory, antiseptic, antibacterial, antispasmodic, balancing, energizing, soothing, healing, tonic, and stimulating

PRODUCT: retinyl enzyme treatment – with green tea

DESCRIPTION: ▶ Enzyme exfoliator plus skin tightening and rejuvenating vitamin A proprietary complex. Proven superstar fruit enzymes bromelain and papain denature proteins of surface dead cells and enhance vitamin A delivery. Green tea and ubiquinone offer potent antioxidant support for skin structures in addition to supporting collagen production. Like a fine buffing cloth, this product exfoliates gently and in a controlled manner providing instant results for amazingly smooth, firm, soft and glowing skin.

RX: ▶ For use by all skin types.

INGREDIENTS: ▶ Deionized Water, Emulsifying Wax, **Lactic Acid**, Polyacrylamide/C13-14 Isoparaffin/ Laureth-7, Phenoxyethanol, Ethylhexylglycerin, **Resveratrol**, Polysorbate 20, Xanthan Gum, Citrus Reticulata (Tangerine) Essential Oil, **Bisabolol, Camellia Oleifera (Green Tea) Extract, Bromelain, Biosaccharide Gum-2, Retinol, Papain, Squalane, Ubiquinone, Chlorophyll/Copper**

PACKAGING: ▶ 30 ml/1 fl. oz. airless pump. PAO – 6 Months

INSTRUCTIONS: ▶ Apply evenly to clean skin. Leave on for 8-10 minutes. Remove with warm water and damp cloth. Rinse 3 times in total, or until skin is smooth and not tacky. Individual reactions to enzymatic exfoliation may vary, redness may occur and should resolve shortly. Follow with your favorite dmSkincare moisturizer. Use this treatment 1-2 times per week as tolerated, or as directed by skincare professional. Should be used in evening to prevent potential reaction to sunlight. If used during the day, must be followed with mineral sunscreen to avoid possible inflammatory response to sunlight.

SC560

KEY INGREDIENT DESCRIPTIONS:

Lactic Acid: an AHA with a larger molecule that may not be as irritating as other AHAs. It increases the water holding capacity of the corneum layer.

Resveratrol: a phytoalexin that is produced in plants in response to environmental stress, supports the capillaries and health of skin from free radicals, can also calm skin after microdermabrasion treatments and other exfoliation procedures.

Bisabolol: botanically derived ingredient clinically proven to have effective anti-inflammatory, anti-bacterial and anti-mycotic benefits. Assists with delivery of active ingredients trans-dermally by improving skin penetration.

Green Tea Extract: potent antioxidant that helps to support skin structures and repair skin cells.

Bromelain: mixture of pineapple protein digesting enzymes which act on keratin, breaking down dead skin cells.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Retinol: skin conditioning agent that acts as an anti-keratinizing agent, helping skin stay soft & plump improving water binding properties, useful against dryness, heat & pollution, increases collagen, skin thickness and elasticity.

Papain: Protease enzyme from papaya breaks down amino acids offering a mild exfoliation. Helps to open clogged pores. Ant-inflammatory and anti-bacterial properties may be beneficial for acne prone skin.

Ubiquinone: potent antioxidant produced by the body, penetrates skin easily. Assists cells in producing collagen and elastin. Reduces oxidative tissue damage.

PRODUCT: soothe and restore™ – moisturizing muscle relief

DESCRIPTION: ▶ Our soothe and restore™ blend provides soothing support for achy, sore and inflamed muscles. It is a beautiful mixture of lavender, eucalyptus, ginger, and silver fir; a combination specifically chosen to offer analgesic and anti-inflammatory properties. Your clients from athletes to fibromyalgia sufferers will realize the benefits of this blend.

RX: ▶ Perfect for all – especially those with sore muscles.

INGREDIENTS: ▶ Prunus Persica (Peach Kernel) Oil, Simmondsia Chinensis (Jojoba) Oil, Cocos Nucifera (Coconut Oil), Tocopherol (Vitamin E), **Lavandula Angustifolia (Lavender) Oil, Eucalyptus Smithii (Eucalyptus), Zingiber Officinalis (Ginger), Abies Alba (Silver Fir)**

PACKAGING: ▶ 120ml/4 fl. oz. pump bottle
PAO - 12 months

INSTRUCTIONS: ▶ Apply to the body up to 2 times per day. Application is ideal post shower or for use as a relaxing and moisturizing body oil.

SC860

KEY INGREDIENT DESCRIPTIONS:

Lavender Oil: 50% of the essential oil component of the blend. Empirical research has shown anti-inflammatory and analgesic effects. In addition, clinical data supports reduction in pain perception in those with arthritis and musculoskeletal conditions such as fibromyalgia. Calming and balancing effects can be derived from the fragrance of lavender.

Eucalyptus: 20% of the essential oil component of the blend. The smithii variety is used because it is less stimulating (irritating) than the more common eucalyptus globulus and it has better analgesic action. It also has clinically proven antioxidant, anti-inflammatory and immune supportive effects.

Ginger: 15% of the essential oil component of the blend. Well known for its digestive benefits, it also has strengthening and warming properties, making it ideal for muscle aches and pains. It has anti-inflammatory properties which add to its soothing value in the formula.

Silver Fir: 15% of the essential oil component of the blend. Popular for years in Europe to help with respiratory and muscular/rheumatic issues, silver fir is a stimulating and uplifting essential oil with the added benefit of acting as an analgesic to soothe tired, sore muscles.

PRODUCT: vitA-clear serumTM – antioxidant/oil control

DESCRIPTION: This serum helps to modulate oil secretions and also encourages healthy skin cell turnover, critical for anti-aging and acne management. A unique ester form of vitamin A found in the Granactive Retinoid Fluid® converts to tretinoic acid in the cells, without causing the extreme surface dryness and erythema that may accompany other retinol topicals. In addition to this esterified form of retinol, this formula contains standard retinol which contributes strong antioxidant attributes. Avena sativa beta glucan is present to reduce irritation and inflammation, as well as speed up healing of damaged tissues and stimulate collagen synthesis. These are two crucial factors for both anti-aging and acne support in the skin. Another star ingredient is lactobacillus ferment. This skin probiotic technology is added to help strengthen the skin's barrier and encourage beneficial skin bacteria to flourish and crowd out blemish causing bacteria. This product is a must in every daily skin routine.

RX: Oily, blemish prone, or aging skin.

INGREDIENTS: Deionized Water, Witch Hazel Distillate, Glycerin, **Beta Glucan/Avena Sativa Oat/Bran Extract**, Citrus Aurantium Dulcis (Orange) Peel Extract, **Lactobacillus Ferment**, **Dimethyl Isosorbide/Hydroxypinacolone Retinoate (Granactive Retinoid Fluid®)**, Soybean Oil, **Retinol**, Hydroxyethylcellulose, Caprylhydroxamic Acid/Caprylyl Glycol/Ethylhexylglycerin/ Propanediol, Lactic Acid

PACKAGING: 18 ml/0.6 fl. oz. airless pump bottle
PAO – 6 Months

INSTRUCTIONS: Apply a pea size amount to the face. Allow application to dry two (2) minutes before applying other products. Avoid eye area. Should be used in the evening to prevent potential inflammation from the sun.

SC510

KEY INGREDIENT DESCRIPTIONS:

Beta Glucan/Sativa Oat/Bran Extract: Oat and its derivatives are used to treat skin inflammation and irritation. The beta glucan is the soluble fiber in the cell walls of the oat kernel and can penetrate deeply into the tissues to deliver advanced topical skin benefits. It is known to reduce irritation, inflammation and speed the healing of damaged tissues. This is achieved through the stimulation of collagen synthesis. Studies have shown that it is able to penetrate and work into the inter-cellular matrix, and get to the lower levels where wrinkles are formed, showing marked improvement in wrinkles and new wrinkle formation.

Lactobacillus Ferment: The skin is alive with beneficial bacteria which can be depleted by harsh chemicals and over exfoliation. Lactobacillus ferment provides beneficial probiotic technology to help strengthen the skin's barrier and replenish bacteria that has been depleted. This aids in the skin's immune defense and helps to crowd out the P. acnes bacteria which cause acne breakouts.

Granactive Retinoid Fluid®: an ester form of retinol which is generally not as harsh or irritating as other retinols. Granactive Retinoid Fluid® converts to tretinoic acid in the cells and has superior bio-availability.

Retinol: protects skin cells by offering antioxidant support, encourages cell turnover and helps control acne by keeping the pores clean.

- vitA-clear serum™ – antioxidant/oil control

PRODUCT: antiox-C serumTM

DESCRIPTION: ▷ Free radical protection in a silky serum taking anti-aging to the cellular level. This stable, oil soluble, lipid source of Vitamin C delivers strong antioxidant and rebuilding ingredients. Once applied to the skin it hydrolyzes into ascorbic acid and provides skin lightening, promotes collagen synthesis and acts as a strong free-radical scavenger. It has excellent skin affinity, therefore, has superb cutaneous absorption. It goes on like silk and dries to a beautiful and light finish. This fat soluble form of vitamin C has a higher conversion of vitamin C within the dermis, offering long lasting vitamin delivery and penetration.

RX: ▷ Anti-aging, hyperpigmentation & dehydrated skin types

INGREDIENTS: ▷ Dimethicone/Dimethiconol, Cyclomethicone, **Tetrahexyl Decyl Ascorbate (Vitamin C)**, Phenoxyethanol, Capryl Glycol, Ethylhexylglycerin, Hexylene Glycol, **Simmondsia Chinensis (Jojoba) Seed Oil**, C12-15 Alkyl Benzoate, Tocopheryl Acetate (Vitamin E), **Camellia Sinensis (Green Tea) Extract, Squalane, Ubiquinone**, L-Carnitine

PACKAGING: ▷ 120 ml/4 fl. oz pump bottle
PAO - 6 months

INSTRUCTIONS: ▷ Apply in the morning and/or evening after cleansing. May be used as a layer under your favorite dmSkincareTM moisturizer.

SC835

KEY INGREDIENT DESCRIPTIONS:

Tetrahexyl Decyl Ascorbate: is a stable, oil-soluble form of Vitamin C, used in cosmetics, personal care products and anti-aging products because of its ability to increase collagen levels, reduce melanin production, brighten skin, and repair the effects of UV exposure and other environmental damage. It is also considered to be more potent than L-ascorbic acid and other Vitamin C compounds, and has a higher rate of penetration (because it is lipid soluble, like human skin) than other derivatives; it also has a higher rate of conversion to vitamin C within the dermis.

Jojoba Oil: a wax ester derived from a desert shrub type plant. It is similar in chemical structure to components of human sebum. It penetrates rapidly, while leaving an emolliency on skin.

Green Tea Extract: a very potent antioxidant that helps to support skin structures and repair skin cells

Squalane: a naturally occurring lipid in both plants and animals, this source being from olives. Non-oily, non-comedogenic ingredient that acts as a barrier protecting skin from moisture loss with anti-bacterial and antioxidant properties.

Ubiquinone: another name for CoQ10, a potent antioxidant naturally produced by the body. Thought to penetrate skin easily and reduce free radical damage. Found to assist cells in building collagen and elastin, therefore reduces the appearance of fine lines and wrinkles.

PRODUCT: argan boost serum™

DESCRIPTION: This serum is a light, non-greasy lipid barrier replacement in a water miscible form. It incorporates natural and organic ingredients specially chosen for ultra-sensitive skin. Argan oil, squalane and jojoba mimic the skins own oils to protect the barrier and hold natural moisture in. Argan oil has been shown to have regenerative and anti-microbial properties. Vitamin D, a signaling hormone, may promote cell immunity. Use this serum to create a lustrous, glowing appearance to the skin.

RX: Sensitive and dry skin types. This product should be used post-treatment (IPL/chemical peel/deep microderm) to aid in the healing process.

INGREDIENTS: Squalane, Simmondsia Chinensis (Jojoba) Seed Oil, Argania Spinosa (Argan) Oil, Cholecalciferol (Vitamin D-3)

PACKAGING: 60 ml/2 fl. oz. pump bottle
PAO – 12 Months

INSTRUCTIONS: Apply small amount to skin. Add water and smooth over face. Keep out of tear ducts. May be used under eyes, on lips and throat. This product can be used as a layer under other moisture products or alone as a liquid moisturizer for sensitive skin.

SC635

KEY INGREDIENT DESCRIPTIONS:

Squalane: a naturally occurring lipid in both plants and animals, this source being from olives. Non-oily, non-comedogenic ingredient that acts as a barrier protecting skin from moisture loss with anti-bacterial and antioxidant properties.

Jojoba: a wax ester derived from a desert shrub type plant. It is similar in chemical structure to components of human sebum. It penetrates rapidly, while leaving an emolliency on skin.

Argan Oil: extracted from a long-living tree, largest source from Morocco. Contains anti-inflammatory and anti-microbial and nutritive properties along with strong emolliency, promoting tissue and hair structure health

Cholecalciferol: vitamin D3 is similar in structure to steroids, such as cortisol. It has been shown to be beneficial topically against psoriasis and other skin conditions.

PRODUCT: botana-cream cleanser

DESCRIPTION: ▷ A gentle cream cleanser formulated with botanical ingredients to cleanse the skin and remove makeup without drying or irritation. Soothing and hydrating, this creamy cleanser features calming botanicals, calendula and sativa oat, along with powerful antioxidants from cranberry and pomegranate which also contribute to the refreshing scent. Sodium PCA and Safflower Seed Oil contribute moisture and support skin cell integrity without being comedogenic, making this cleanser ideal for sensitive skin types as well as anyone who enjoys the luscious texture of a creamy cleanser.

RX: ▷ Dry, sensitive skin.

INGREDIENTS: ▷ Water, Glycerin, Cetearyl Alcohol, Cetyl Alcohol, Glyceryl Stearate, Carthamus Tinctorius (Safflower) Seed Oil, **Avena Sativa (Oat) Kernel Flour**, Sodium Lauroyl Oat Amino Acids, Cetearth-20, Sodium PCA, **Avena Sativa (Oat) Meal Extract**, **Vaccinium Macrocarpon (Cranberry) Fruit Extract**, **Chamomilla Recutita (Matricaria) Flower Extract**, **Punica Granatum (Pomegranate) Seed Oil**, **Avena Sativa (Oat) Kernel Extract**, Citrus Grandis (Grapefruit) Seed Extract, Ascorbyl Palmitate, Phospholipids, Phenoxyethanol, Hydroxypropyl Guar, Xanthan Gum, Ethylhexylglycerin, Sodium Phytate, Retinyl Palmitate, Tocopheryl Acetate

PACKAGING: ▷ 120 ml/4 fl. oz. glass bottle
PAO – 12 Months

INSTRUCTIONS: ▷ Wet hands and apply a nickel-sized amount to palm using warm water. Gently wash skin. Rinse and pat dry. Follow with your favorite dmSkincareTM moisturizer.

SC755

KEY INGREDIENT DESCRIPTIONS:

Avena Sativa(Oat): Oat Kernel contains an abundance of beneficial, natural compounds including polyphenols, beta-glucan and amino acids. One of the specific beneficial polyphenol compounds in oat is called avenanthramide. This ingredient is very helpful for soothing and moisturizing the skin.

Vaccinium Macrocarpon (Cranberry) Fruit Extract: Cranberry extract is taken from the seeds, skin, and pulp of the fruit. It contains high levels of polyphenols, flavonoids, vitamin C, and fatty acids. This creates an extract that provides potent anti-inflammatory, and antioxidant benefits. Since the pH is quite low, it acts as an effective astringent and also delivers antibacterial benefits due to its high phenolic content.

Chamomilla Recutita (Matricaria) Flower Extract: also known as German Chamomile, has anti-inflammatory properties, commonly used to relieve and calm sensitive, itchy skin. It also has antiseptic and healing properties, relieving of skin congestion,

Punica Granatum (Pomegranate) Seed Oil: An oil from the cold pressed organic seeds of pomegranate fruit which is naturally high in flavonoids and punicalic acid. Deeply nourishing to the outer epidermal layer, pomegranate seed oil provides powerful anti-oxidant benefits. Studies show that pomegranate seed oil stimulates an increase in glutathione, the body's own built-in antioxidant, which increases the topical SPF of sunscreens.

PRODUCT: botana-gel cleanser™ – with white tea

DESCRIPTION: Mild, gel-based, foamy cleanser containing light alpha and beta hydroxy acids for gentle exfoliation. Calming botanicals and aloe balance moisturize, while removing oil, makeup, and cellular debris. Anti-microbial ingredients inhibit bacteria formation. Powerful vitamins and nutrients act as antioxidant. Includes a strong combination of vitamins C and E plus green tea.

RX: Most skin types.

INGREDIENTS: Water (Aqua), Sodium C14-16 Olefin Sulfonate, Cocamidopropyl Betaine, Glycerin, Benzyl Alcohol, Sodium Chloride, Peg 150 Distearate, Polyquaternium-10, Polysorbate 80, **Cucumis Sativis (Cucumber) Fruit Extract**, Sodium Dehydroacetate, Citric Acid, **Vaccinium Myrtillus (Bilberry) Fruit Extract**, Saccharum Officinarum (Sugarcane) Extract, Citrus Aurantium Dulcis (Orange) Fruit Extract, Citrus Limon (Lemon) Fruit Extract, **Aloe Barbadensis Leaf Juice**, **Camellia Sinensis (White Tea) Leaf Extract**, Melaleuca Alternifolia (Tea Tree) Leaf Oil, Tocopheryl Acetate, **Acer Saccharum (Sugar Maple) Extract**, **Salicylic Acid**, Sodium Ascorbate, **Lactic Acid**

PACKAGING: 480 ml/16 fl.oz. bottle
PAO – 24 Months

INSTRUCTIONS: Wet hands and apply nickel-size amount to palm using warm water. Work into lather and gently wash skin. Rinse and pat dry. May be used to remove makeup.

SC535

KEY INGREDIENT DESCRIPTIONS:

Cucumber Extract: soothing, tightening, and anti-itching. Contains amino acids and organic acids that are claimed to strengthen the acid mantle.

Vaccinium Myrtillus (Bilberry) Fruit Extract: one of the richest natural sources of anthocyanins, a potent antioxidant. Bilberry has vasoprotective, anti-inflammatory, antioxidant and healing activity.

Aloe Barbadensis Leaf Juice: moisturizes, soothes inflammation.

Camellia Sinesis (white tea) leaf extract: Extract from the minimally processed buds and leaves of green tea. Both white and green teas have the highest concentration of antioxidant properties (via their polyphenol and flavonoid content) of all teas, and several in vitro and animal studies have shown that green tea and white tea have anticancer and anti-mutagenic properties.

Acer Saccharum (Sugar Maple) Extract: exfoliating/conditioning agent; natural AHA for refining wrinkles.

Lactic Acid: increases water holding capacity of the corneum layer and acts as a delivery enhancement.

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

PRODUCT: botana-scrub cleanser

DESCRIPTION: Deeply cleanse and gently exfoliate skin utilizing natural bamboo crystals and glycolic/salicylic acids. This clarifying cleanser removes dead skin, absorbs oil, and brightens. Phytomoist™ and aloe help restore natural water balance and contribute antioxidant protection, which is critical, in the most oily skin types. This unique blend of ingredients will help improve texture and tone, leaving the skin looking revitalized and glowing.

RX: Oily, blemish-prone, photo-damaged.

INGREDIENTS: **Phytomoist™ (Water (and) Tremella fuciformis sporocarp extract (and) Betaine (and) Glycerin (and) Potassium Sorbate (and) Phenoxyethanol, Bambusa Arundinacea (Bamboo) Stem Extract, Aloe Barbadensis (Aloe Vera) Leaf Extract, Salicylic Acid, Glycolic Acid**

PACKAGING: 177 ml/6 fl oz. pump bottle
PAO – 24 Months

INSTRUCTIONS: Wet hands and apply a nickel-sized amount to palm using warm water. Gently wash skin in circular motions spending more time in problem areas. Rinse several times ensuring all crystals are removed. Rinse and pat dry. Follow with your favorite dmSkincare™ moisturizer.

SC895

KEY INGREDIENT DESCRIPTIONS:

Phytomoist™: an all natural, plant-derived ingredient that improves skin softness and moisturization. Phytomoist is 400 times more moisturizing than sodium hyaluronate and contains a natural hyaluronic acid derived from an edible mushroom widely consumed in Asia. In combination with betaine, naturally derived from beets and plant derived glycerin, the combination offers improved skin softness and moisture, as well as diminishing signs of fine lines usually associated with dry skin. It also increases the production of SOD in skin while decreasing the feel of tautness.

Bambusa Arundinacea (Bamboo) Stem Extract: a solidified organic silica extracted from the nodes of the bamboo stems. Bamboo stem extract removes corneous cells accumulating on the skin surface to refine skin texture and brighten skin tone.

Glycolic: dissolves intercellular cement responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

PRODUCT: calm and balanceTM - therapeutic massage oil

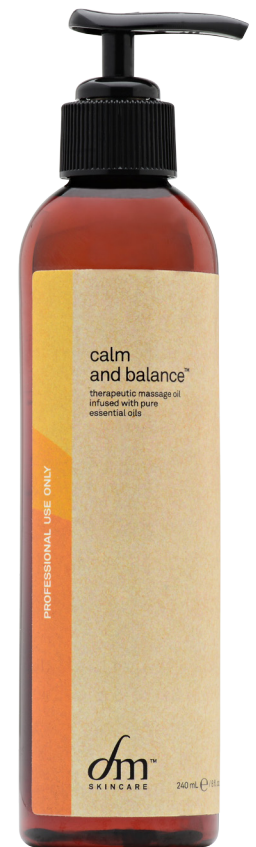

DESCRIPTION: ▶ Our calm and balanceTM blend provides aromatherapeutic relief for stressed, anxious clients. Frankincense is the star of this blend and the major essential oil ingredient, comprising 62.5% of the total essential oil components. It provides a base for calming without sedating, improves mood, and imparts a relaxed yet gentle re-energized feeling. Lavender, mandarin orange, neroli and ylang ylang round out this zen blend.

RX: ▶ Perfect for all – especially stressed, anxious, or depressed clients.

INGREDIENTS: ▶ Prunus Persica (Peach Kernel) Oil, Simmondsia Chinensis (Jojoba) Oil, Cocus Nucifera (Coconut Oil), Tocopherol (Vitamin E), **Boswellia Carterii (Frankincense), Lavandula Angustifolia (Lavender) Oil, Citrus Reticulata (Mandarin) Oil, Citrus Aurantium (Neroli) Oil,** Cananga Odorata (Ylang Ylang) Oil

PACKAGING: ▶ 240ml/8 fl. oz. pump bottle
PAO - 12 months

INSTRUCTIONS: ▶ Apply to the body for massage service.

SC875

KEY INGREDIENT DESCRIPTIONS:

Frankincense: 62.5% of the essential oil component of the blend. Provides calming, mood support in a relaxing yet re-energizing formula.

Lavender Oil: 12.5% of the essential oil component of the blend. Has its own benefits in addition to supporting the benefits of the frankincense. Studies show anxiety relieving effects similar to those of benzodiazepine drugs. Acts upon the stress response by balancing the nervous system's automatic response system. Lavender also decreases inflammation and pain, which benefits the immune system through this nervous system relaxation effect.

Mandarin Oil: 12.5% of the essential oil component of the blend. Mandarin is known to support the digestive system. The oil contributes fragrance and offers calming, antidepressant effects as well as skin tone enhancement when applied topically.

Neroli Oil: 6.25% of the essential oil component of the blend. Contributes fragrance and offers calming, antidepressant effects. Additional benefits of topical application include skin tone enhancement.

PRODUCT: daily eclipse[®] – oil-free
sunscreen SPF 30

DESCRIPTION: ▶ Oil-free, physical barrier protection cream that uses no chemical sunscreen ingredients in the formula. Instead, it is formulated with micronized titanium dioxide, zinc and zirconium dioxide for broad spectrum filtering (UVA and UVB). Mild barrier protection can be used after any strong skin treatment with no worry of burning or irritation, especially around the eyes. No-oil formula leaves skin smooth without greasy residue.

SC555

RX: ▶ All skin types, especially sensitive and post microdermabrasion, surgery, peel, and/or laser, for irritant barrier and sun protection. May be used on children and adults.

INGREDIENTS: ▶ Active Ingredients: Titanium Dioxide 13%, Zinc Oxide 2%
Inactive Ingredients: 1,2 Hexanediol, Allantoin, Aloe Barbadensis Leaf Juice, Alumina, Caprylyl Glycol, Cetyl Alcohol, Glycerin, Glyceryl Stearate, Phenoxyethanol, Potassium Sorbate, Simethicone, Stearic Acid, **Titanium Dioxide**, Tropolone, Water, Watermelon Extract, Xanthan Gum, **Zinc Oxide, Zirconium Dioxide**

PACKAGING: ▶ 120 ml/4 fl.oz. jar
PAO – 12 Months

INSTRUCTIONS: ▶ Use dime-size amount on fingertips and apply to face, neck and ears. Re-apply frequently depending on activities.

KEY INGREDIENT DESCRIPTIONS:

Titanium Dioxide: a naturally occurring mineral that acts as a sun screen and particle barrier to deflect the light away from the area.

Zinc Oxide: approved broad spectrum particle barrier for sun protection.

Zirconium Dioxide: diamond like particle for sun deflection and even particle distribution.

PRODUCT: derma renewal gel™

DESCRIPTION: ▷ Cooling and refreshing moisture in an oil-free gel which combines the time-tested homeopathic ingredients of arnica, calendula, aloe vera gel, and honey to renew the skin following cosmetic skin treatments, skin irritations, burns, pain, and inflamed areas. This cooling and refreshing gel increases the hydration level and promotes healthy cellular renewal.

RX: ▷ All skin types and is especially useful for post treatment skin.

INGREDIENTS: ▷ Water, **Honey**, Glycerin, **Aloe Barbadensis Leaf Juice**, **Sodium Hyaluronate**, Sodium PCA, **Arnica**, **Calendula**, **Chamomile**, Phytanadione (Vitamin K), Hydroxyethyl Cellulose, Phenoxyethanol, Ethylhexylglycerin

PACKAGING: ▷ 480 ml/16 fl. oz. pump bottle
PAO - 12 months

INSTRUCTIONS: ▷ Apply generously to face post treatment as a cooling, soothing mask. May be layered with gauze facial mask so that massage may be performed with ice globes.

SC855

KEY INGREDIENT DESCRIPTIONS:

Honey: Honey is a natural humectant; it attracts and retains moisture and features a moisture content of 14% to 18%. In addition, it offers a stimulating and toning effect on the skin. It has antimicrobial properties and is safe to use on even the most sensitive skin.

Aloe Barbadensis Leaf Juice: a high mannin (carbohydrate) content ingredient naturally derived and carefully extracted to maintain potency, used for its ability to attract moisture which is critical for a healing environment. **Arnica:** botanical with antiseptic, astringent, antimicrobial, anti-inflammatory properties. Promotes the removal of wastes from the skin and aids in new tissue growth.

Sodium Hyaluronate: occurs naturally in the dermis and can hold up to 1000 times its weight in water. The small molecular size allows for deep penetration and delivery of water. These hydrating properties result in efficient nutrient absorption as well as smoother, softer skin with decreased wrinkles and an all-around fuller appearance.

Arnica: botanical with antiseptic, astringent, antimicrobial, anti-inflammatory properties. Promotes the removal of wastes from the skin and aids in new tissue growth.

Calendula: emollient offering healing, soothing, antiseptic, anti-itching and anti-inflammatory properties. It can be used to improve mild acne, reduce irritation and calm inflammation, and can even improve the condition of chapped and sunburned skin. Calendula is a calming and soothing ingredient that is believed to be safe and gentle for even the most sensitive skin. It may improve the condition of patients diagnosed with eczema when used in conjunction with other treatment options.

Chamomile: Conditioning agent and cell rejuvenator with anti-inflammatory and skin soothing properties. Shown to enhance the appearance of dehydrated or damaged skin by reducing dry flaking and restoring suppleness.

PRODUCT: D2O solution
Professional Use Only

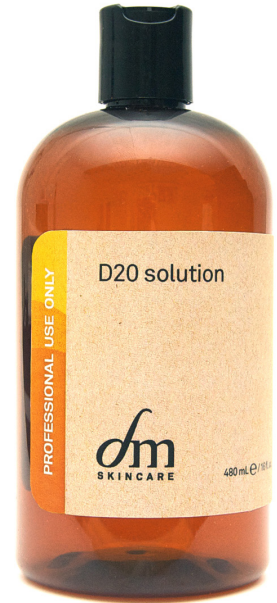

DESCRIPTION: ▶ A liquid infusion of botanical extracts blended with deuterium oxide (“heavy water”), which is naturally occurring at the bottom of lakes and has a “wetter than water” hydration activity. Additional ingredients intensify moisture and oxygen, giving the skin an environment to heal and repair.

RX: ▶ All skin types especially during the Hydra Bright Facial.

INGREDIENTS: ▶ Witch Hazel Distillate, Deionized Water, Glycerin, **Sodium PCA**, Benzyl Alcohol, **Deuterium Oxide (Water)**, **Cucumis Sativus (Cucumber) Fruit Extract**, **Perfluorodecalin**, **Commiphora Myrrha (Myrrh) Oil**

PACKAGING: ▶ 480ml/16 fl.oz. bottle
PAO – 12 Months

INSTRUCTIONS: ▶ May be used as a toner after mask removal, in a diffuser or spray. May also be applied as a compress after intensive or thermal treatments, such as IPL, to reduce heat and inflammation.

SC745

KEY INGREDIENT DESCRIPTIONS:

Sodium PCA: a high performance humectant due to its moisture binding abilities. It exists naturally in the skin as a component of the natural moisturizing factors. It is derived from amino acids and is considered non-comedogenic and non-allergenic and therefore is recommended for dry, delicate, and sensitive skin.

Deuterium Oxide: heavy molecular weight delivers moisture deep into skin.

Cucumber extract: soothing, tightening, and anti-itching. Contains amino acids and organic acids that are claimed to strengthen the acid mantle.

Perfluorodecalin: skin-conditioning agent.

Myrrha Extract: skin-conditioning agent.

PRODUCT: glycolic treatment 30% – pH 2.7
Professional Use Only

DESCRIPTION: ▷ Medium strength 30% glycolic acid beneficial for uneven, dry or environmentally damaged skin.

RX: ▷ Fitzpatrick skin types I-III.

INGREDIENTS: ▷ **Glycolic Acid**, Glycerin, Sodium Lactate, Witch Hazel Distillate, Methylcellulose, Sea Salt, Fructose, Glucosamine HCl

PACKAGING: ▷ 120 ml/4 fl. oz., 4 oz bottle
PAO – 12 Months

INSTRUCTIONS: ▷ Apply glycolic treatment 30% to a closed-weave gauze pad and carefully apply to the skin avoiding the eye area. Leave on for two to three (2-3) minutes, then neutralize with treatment neutralizer. Follow application of neutralizer with cool rinse of water.

SC705

KEY INGREDIENT DESCRIPTIONS:

Glycolic Acid (AHA): dissolves intercellular cement which is responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

PRODUCT: green tea vita-E moisturizer™ – with cucumber

DESCRIPTION: ▷ Moisturizer with a soft whipped gel/cream consistency that hydrates, soothes and calms skin. Light enough to wear day or night as a moisturizer. Contains soothing cucumber, calendula extracts and vitamin E to calm irritations. Green tea extract is a powerful antioxidant appropriate for providing protection against environmental stress.

SC545

RX: ▷ For all skin types.

INGREDIENTS: ▷ Deionized Water, Glycerin, Cetearyl Alcohol, Cetearyl Glucoside Caprylic/Capric Triglyceride, Polyacrylamide C13-14 Isoparaffin/Laureth-7, Glyceryl Stearate, Phenoxyethanol, Ethylhexylglycerin, **Butyrospermum Parkii (Shea) Butter**, Carthamus Tinctorius (Safflower) Seed Oil, Helianthus Annus (Sunflower Seed Oil), **Camellia Sinensis (Green Tea) Leaf Extract**, **Cucumis Sativus (Cucumber) Fruit Extract**, Chitosan Succinate, **Aloe Barbadensis Leaf Juice**, Chlorophyll, **Allantoin**, **Calendula Officinalis (Marigold) Extract**, Fructose, Glyco Delta Lactone, **Tocopherol**, Natural Aromatic Extract

PACKAGING: ▷ 120ml/4 fl.oz. jar
PAO – 12 Months

INSTRUCTIONS: ▷ Apply dime-size amount to moist skin in the morning and/or evening.

KEY INGREDIENT DESCRIPTIONS:

Shea Butter: non-comedogenic emollient derived from a natural fat of the karite tree, protects skin from dehydration, prevents erythema, neutralizes free radicals and prevents lipid-peroxidation.

Cucumber Fruit Extract: soothing, tightening, and anti-itching. Contains amino acids and organic acids that are claimed to strengthen the acid mantle.

Aloe: an emollient and film-forming gum resin with hydrating, healing, antimicrobial and anti-inflammatory properties.

Allantoin: botanical extract that is healing and soothing, aids in the healing of damaged skin by stimulating new tissue growth.

Calendula: emollient said to have healing, soothing, antiseptic, anti-itching and anti-inflammatory properties.

Green Tea Extract: a very potent antioxidant that helps to support skin structures and repair skin cells.

Tocopherol: commonly used to replace vitamin E, it is a more stable form and is converted to vitamin E in the body, non-comedogenic antioxidant that is fat soluble, which means, it will stick around longer than water-soluble, a very powerful tool in protection for skin. It will help the body repair itself and help prevent appearance of wrinkles.

PRODUCT: hydra-repair maskTM – with red wine extract

DESCRIPTION: ▷ This creamy, hydrating mask works to visibly reduce pores and immediately improve minor irritations and refine texture. Helps to calm irritable skin and may be used after an aggressive treatment. It also works well to reduce stress from acne, sunburn and other irritable skin conditions. Red wine extract has an anti-inflammatory quality, while squalane and jojoba are added to soothe and replace the lipid barrier to help hold in the skin's own natural moisture factor.

SC615

RX: ▷ Irritated, dry, and post-treatment skin.

INGREDIENTS: ▷ Aqua (Water), **Kaolin**, Titanium Dioxide, Polyacrylamide (and) C13-14 Isoparaffin (and) Laureth 7, **Aloe Barbadosis Leaf Juice, Jojoba, Squalane (Olive)**, Glycerin, **Resveratrol**, Sodium Hyaluronate, Sodium Polyacrylate, PEG-6 Caprylic/Capric Glycerides (and) Polyglycerol-6 Dioleate (and) Glyceryl Caprylate/Caprates, Sodium Carbomer, Phenoxyethanol, Ethylhexylglycerin.

PACKAGING: ▷ 120ml/4 fl.oz. jar
PAO – 9 Months

INSTRUCTIONS: ▷ Apply a liberal amount to clean skin and leave on for ten (10) minutes. After ten (10) minutes, add water to fingertips and massage into a lather. Rinse and remove excess with damp cloth. Rinse again and pat dry.

KEY INGREDIENT DESCRIPTIONS:

Kaolin: has great absorption abilities making it an appropriate absorber of the oil and sweat secreted by the skin.

Aloe: an emollient and film-forming gum resin with hydrating, healing, antimicrobial and anti-inflammatory properties. Its moisturizing ability is its most widely recognized characteristic.

Squalane: excellent moisturizer and lubricant, is an oxygenator and cancer fighter, it holds moisture to the epidermal lipid layer, helps keep skin supple and smooth and guards against UV radiation.

Jojoba: naturally occurring oil that resembles the skin's sebum, reputed to have healing qualities and studies have shown that it penetrates the stratum corneum rapidly to reduce transepidermal water loss.

Resveratrol: derived from red wine extract, a phytoalexin that is produced in plants in response to environmental stress (grape skins are good sources), supports the capillaries and health of the skin from free radical damage, can also calm skin after microdermabrasion treatments and other exfoliation procedures.

PRODUCT: IPL photo sensitizing prep
Professional Use Only

DESCRIPTION: ▷ Solution for creating more photo-available pigment and capillaries. Used for pre-treatment of IPL and other PDT (photo dynamic therapy).

RX: ▷ Any skin type as pre-treatment for IPL.

INGREDIENTS: ▷ Glycerin, Aqua (Water), Hamamelis Virginiana (Witch Hazel) Water (and) Alcohol, Lactic Acid, **Niacinamide**, **Resorcinol**, **Ascorbic Acid**, Polysorbate 20, Annatto OS, Dipotassium Glycerrhizenate (Licorice), Benzyl Alcohol, Phenoxyethanol

PACKAGING: ▷ 120 ml/4 fl.oz. bottle
PAO – 6 Months

INSTRUCTIONS: ▷ Saturate gauze and apply to face. Allow to activate for about ten (10) minutes before starting light therapy treatment.

SC780

KEY INGREDIENT DESCRIPTIONS:

Niacinamide: used as a skin stimulant and skin smoother, it is a derivative of niacin, and part of the vitamin B family.

Ascorbic Acid: skin lightening and antioxidant properties, protect against free radical formation.

Resorcinol: removes the surface layer of the skin (the dry, dead cells), is a beta hydroxy that penetrates deeper into the skin, allowing a deeper more even penetration of glycolic or lactic acid, possesses anti-microbial properties.

PRODUCT: lactic treatment 30% pH 2.7
Professional Use Only

DESCRIPTION: ▷ Medium strength 30% lactic acid

RX: ▷ Fitzpatrick skin types I-III beneficial for sensitive skin with fine lines, uneven skin tones, rough, dry or photo-damaged skin.

INGREDIENTS: ▷ **Lactic Acid**, Glycerin, Sodium Lactate, Witch Hazel Distillate, Methylcellulose, Sea Salt, Fructose, Glucosamine HCl

PACKAGING: ▷ 120ml/4 fl.oz. bottle
PAO – 12 Months

INSTRUCTIONS: ▷ Apply lactic treatment 30% to a closed-weave gauze pad and carefully apply to the skin avoiding the eye area. Leave on for two to three (2-3) minutes then neutralize with treatment neutralizer. Follow application of neutralizer with cool rinse of water.

SC715

KEY INGREDIENT DESCRIPTIONS:

Lactic Acid (AHA): increases water holding capacity of the corneum layer. Concentrations of 5% and above provide improvement of fine lines for softer, smoother skin.

PRODUCT:

mandelic combo peel 30%
Professional Use Only

DESCRIPTION:

▶ Medium strength 30% acid combination for use in peel protocols for the treatment of acne and hyper-pigmentation. This amazing acid blend features three proven acne and pigmentation fighters. Salicylic acid, a beta hydroxyl acid, is a standard in the treatment of acne because of its keratolytic and anti-inflammatory qualities. Lactic acid is a mild alpha hydroxyl acid used on more sensitive skins to remove impurities and gently exfoliate. Mandelic acid, another AHA which is derived from bitter almonds, has a larger molecule size which is more slowly absorbed for more even application making it a good choice for darker skin types. Its key features are its strong anti-microbial and de-pigmentation abilities which make it ideal for acneic skin.

RX:

▶ For all Fitzpatrick types to address blemishes or oily skin, fine lines, uneven skin tones, acne scarring and environmentally damaged skin.

INGREDIENTS:

▶ **Salicylic Acid, Lactic Acid, Mandelic Acid, PEG 8**

PACKAGING:

▶ 120 ml/4 fl.oz. jar
PAO – 12 Months

INSTRUCTIONS:

▶ Apply mandelic combo peel using a fan brush and carefully apply to the skin avoiding eye area. Leave on the skin for 5-7 minutes then neutralize. Rinse to remove and pat dry.

SC805

KEY INGREDIENT DESCRIPTIONS:

Salicylic Acid: skin exfoliant that promotes sloughing away of dead skin cells and prevents pores from clogging.

Lactic Acid: increases water holding capacity of the corneum layer and acts as a delivery enhancement.

Mandelic Acid: also known as amygdalic acid, an alpha hydroxyl acid made from bitter almonds which has exfoliating, anti-inflammatory and anti-microbial qualities. It has a larger molecule than other AHAs (alpha hydroxy acid) making it slower to penetrate the skin and thereby reducing the potential for irritation.

PRODUCT: mandelic serum

DESCRIPTION: ▶ This serum attacks blemishes at their root causes -- excess oil production, bacterial overgrowth, and clogged pores. Mandelic acid is an AHA that exfoliates but does not irritate due to its oil solubility and large molecule size which allows for slower, more gentle skin penetration. In addition, pigment lightening has been reported with regular use of mandelic acid. Willow bark and salicylic derivatives give the serum astringent and keratolytic benefits, while botanical superstar, Alpiflor™ reduces sebum production. Mandelic serum offers cleaner pores and a brighter, smoother complexion, without irritation.

RX: ▶ Mild to severe blemishes, fine lines and wrinkles, and pigmentation. Gentle and safe for most skin types.

INGREDIENTS: ▶ Aqua (Water), Glycerin, **Mandelic Acid**, Xanthan Gum, **Epilobium Fleischeri Extract, Methylpropanediol and 4-Terpineol and Salicylic Acid and Salix Alba (Willow) Bark Extract**, Sodium Benzoate

PACKAGING: ▶ 60 ml Bottle
PAO – 12 Months

INSTRUCTIONS: ▶ Use on clean skin in the evening. Apply a few drops over entire face with clean fingertips. Since this is a slow penetration product, we recommend you wait 10 minutes before applying other products. Follow with mineral sunscreen if used during the day.

SC815

KEY INGREDIENT DESCRIPTIONS:

Mandelic acid: also known as amygdalic acid, an alpha hydroxyl acid made from bitter almonds which has exfoliating, anti-inflammatory and anti-microbial qualities. It has a larger molecule than other AHAs (alpha hydroxy acid) making it slower to penetrate the skin and thereby reducing the potential for irritation.

Alphafor® Epilobium fleischeri extract: produced from Epilobium fleischeri, a rare Alpine species of Willowherb, whose key compounds show sebum-regulating and anti-inflammatory activities due to their ability to significantly inhibit the activity of 5α-reductase and thereby reduce sebum production, leading to visibly clearer skin.

Trikenol™: a synergistic blend that improves the health of oily, acne-prone skin and prevents the factors that trigger this multi-factorial process, 4-Terpineol (tea tree) offers anti-microbial and anti-inflammatory benefits and willow bark extract is used in skincare for its astringent, antiseptic, anti-inflammatory, and soothing properties. Willow Bark Extract also contains salicylic acid, a BHA which is a natural exfoliant and is used in acne treatments because of its ability to help skin shed dead cells and clear pores.

PRODUCT:

oxygen cream
Professional Use Only

DESCRIPTION:

▶ A skin brightening cream with multiple activities and applications. A combination of vitamin A, glycolic acid and peroxide which improves hydration, oxygenation and plumps skin. This treatment cream may be used to improve blemish prone skin. It creates an immediate skin lifting and visible glow.

RX:

▶ Use during the Hydra Bright Facial or as a mask for blemish prone skin.

INGREDIENTS:

▶ Water, Isopropyl Palmitate, Cetyl Alcohol, Stearic Acid, Glyceryl Stearate, Hydrogen Peroxide, Butylene Glycol, Glycine Soja (Soybean) Oil, **Glycolic Acid, Retinyl Palmitate**, Zea Mays (Corn) Oil, Potassium Sorbate

PACKAGING:

▶ 120 ml/4 fl.oz. jar
PAO – 9 Months

INSTRUCTIONS:

▶ Apply as directed in protocols. May be used with Hydra Bright, clarifying and hydrating facials in addition to anti-aging protocols as a mask.

SC765

KEY INGREDIENT DESCRIPTIONS:

Glycolic Acid: dissolves intercellular cement which is responsible for abnormal keratinization, improves skin hydration, sloughs dead skin cells, cleans pores and smoothes fine lines.

Retinyl Palmitate: skin conditioning agent. First converts to retinol, and then to the active component of retinoic acid when absorbed by the skin. Stimulates the production of epidermal protein and helps increase elasticity. Used to reduce the number and depth of fine lines and wrinkles also useful against dryness, heat and pollution.

PRODUCT: oxygen serum

DESCRIPTION: This serum is an anti-aging powerhouse which focuses on hydration, plumping and improvement of skin texture utilizing state-of-the-art skincare ingredients. AE Advanced BTX addresses fine lines and wrinkles by relaxing the skin (think botox!) and plumping tissues with hydration, deep nutrient delivery and detoxification of cells. Chondrus Crispus extract and D2O trap moisture in the inner layers of the dermis providing lasting hydration, while silk amino acids provide a silky smooth finish. Skin will look and feel smooth and moist for days with regular use of these clinically proven ingredients. Perfect for anyone looking to slow skin aging and improve skin texture for a smooth and hydrated complexion.

RX: Dry, sensitive and mature skin.

INGREDIENTS: Deionized Water, **Chondrus Crispus Extract and Sodium Hyaluronate (MariMoist®)**, Witch Hazel Distillate, Glycerin, Caprylhydroxamic Acid and Caprylyl Glycol and Propanediol and Ethylhexylglycerin, **Squalane, Deuterium Oxide, Perfluorohexane and Perfluoroperhydrophenantrene and Perfluorodecalin (AE Advanced BTX), Silk Amino Acids**, Xanthan Gum, Polyacrylate-1 and Polyisobutene and Polysorbate-20

PACKAGING: 60 ml/2 fl. oz. pump bottle
PAO – 6 Months

INSTRUCTIONS: Apply dime size to face (including eye area). May apply additional product to the neck. Use as part of treatment protocol, applying as a layer whenever intense hydration is beneficial.

SC775

KEY INGREDIENT DESCRIPTIONS:

MariMoist®: species of red algae which grows abundantly. The molecule has a chemical structure of long molecular chains which coil around each other, moisture gets trapped in this space, making this ingredient ideal for hydrating and cooling the skin with resulting improvements in skin texture.

Squalane: Naturally occurring lipid that is not oily and is non-comedogenic. Acts as a barrier, protecting skin from moisture loss. Has anti-bacterial and antioxidant properties.

Deuterium Oxide: also known as “heavy water”, this molecule has a heavy molecular weight which allows for delivery of moisture deep into the skin and superior cooling attributes.

AE Advanced BTX: blend of medical grade perfluoro carbons which allow for varied penetration times and intensive moisture delivery. Not oil or water soluble it positions itself between intracellular lipids and moisture in the skin. Topical application allows the glabellar muscles to relax and find their natural position. Purges carbon dioxide from skin allowing cells to breathe and be refreshed.

Silk Amino Acids: a silk-derived protein resulting from the complete hydrolysis of silk. Protects the skin from dehydration and leaves it with a smooth feel.

PRODUCT: peel prep
Professional Use Only

DESCRIPTION: ▷ Prepares skin for treatment by softening and disencrusting the skin.

RX: ▷ Any skin type as a pre-treatment for acids.

INGREDIENTS: ▷ Glycerin, Deionized Water, Witch Hazel Distillate, Polysorbate-20, **Resorcinol**, Niacinamide, Lactic Acid, Malva Sylvestris, Symphytum Officinale Leaf Extract, Calendula Officinalis Flower Extract, Chamomilla Recutita Flower Extract, Panax Ginseng Root Extract, Aloe Barbadensis Leaf Extract, Benzyl Alcohol, Ascorbic Acid, **Dipotassium Glycyrrhizenate (Licorice)**, Marine Algae Extract

PACKAGING: ▷ 120 ml/4 fl.oz. bottle
PAO – 6 Months

INSTRUCTIONS: ▷ Apply peel prep solution to a closed-weave gauze pad and apply to the skin in a buffing motion, avoiding the eye area. Leave on for two to three (2-3) minutes. Remove with a dry, open-weave gauze pad in a vigorous buffing motion until skin is no longer tacky to the touch. Also may be applied under steam prior to extractions. Reapply as necessary during extraction procedure.

SC725

KEY INGREDIENT DESCRIPTIONS:

Resorcinol: removes the surface layer of the skin (the dry, dead cells), is a beta hydroxy that penetrates deeper into the skin, allowing a deeper more even penetration of glycolic or lactic acid, possesses anti-microbial properties.

Dipotassium Glycyrrhizinate: anti-inflammatory agent that may inhibit tyrosinase activity in skin, derived from licorice.

PRODUCT: purifying mineral mask

DESCRIPTION: ▷ Purifying Clays, Moroccan lava clay and BMC Bio-Mineral Liquid ComplexTM extract impurities and excess oils without over-drying in addition to delivering minerals deep into the skin. DermalRx[®] helps control oiliness while MarimoistTM ensures that the skin is well-hydrated.

RX: ▷ Oily or blemish-prone skin types.

INGREDIENTS: ▷ Moroccan lava clay, DermalRx[®] CKW (Curcuma Kwangsiensis/ Curcuma Wenyujin Rhizome Extract), MarimoistTM (Water (and) Chondrus crispus Extract (and) Sodium hyaluronate), BMC Bio-Mineral Liquid ComplexTM (Montmorillonite (and) kaolin (and) water), Avena sativa L (Colloidal Oatmeal)

PACKAGING: ▷ 120 ml/4 fl oz. jar
PAO – 24 Months

INSTRUCTIONS: ▷ Apply a liberal amount to clean skin and leave on for ten minutes. After ten minutes remove with a damp 4x4 or facial sponge and pat dry.

SC905

KEY INGREDIENT DESCRIPTIONS:

Moroccan Lava Clay: a mineral-rich clay mined in the Atlas Mountains of Morocco, known for its strong ability to absorb impurities from the skin, it cleanses, deeply clearing pores. Moroccan lava clay contains naturally high levels of beneficial minerals such as magnesium, calcium, potassium and iron.

BMC Bio-Mineral Liquid Complex: has a structure that combines tetrahedral and octahedral sheets that create a predominantly negative charge on the clay platelets. This structure allows the cells to encapsulate and hold the positively charged minerals and trace minerals within its core, penetrating the inner layers of the skin to naturally deliver balanced minerals.

DermalRx[®]: A proprietary combination of two exotic species of Zingiberaceae, DermalRx[®] CKW has been developed to help modulate excessive production of skin sebum. Its inhibitory efficacy against 5α-reductase activities is highly remarkable and comparable to benchmark. Well documented minimization of sebum production in vivo among male and female populations and clinically proven visible decrease of facial sheen have been reported for DermalRx[®] CKW.

MarimoistTM: species of red algae which grows abundantly. The molecule has a chemical structure of long molecular chains which coil around each other, moisture gets trapped in this space, making this ingredient ideal for hydrating and cooling the skin with resulting improvements in skin texture.

PRODUCT: retinyl enzyme treatment – with green tea

DESCRIPTION: ▶ Enzyme exfoliator plus skin tightening and rejuvenating vitamin A proprietary complex. Proven superstar fruit enzymes bromelain and papain denature proteins of surface dead cells and enhance vitamin A delivery. Green tea and ubiquinone offer potent antioxidant support for skin structures in addition to supporting collagen production. Like a fine buffing cloth, this product exfoliates gently and in a controlled manner providing instant results for amazingly smooth, firm, soft and glowing skin.

RX: ▶ For use by all skin types.

INGREDIENTS: ▶ Deionized Water, Emulsifying Wax, **Lactic Acid**, Polyacrylamide/C13-14 Isoparaffin/Laureth-7, Phenoxyethanol, Ethylhexylglycerin, **Resveratrol**, Polysorbate 20, Xanthan Gum, Citrus Reticulata (Tangerine) Essential Oil, **Bisabolol**, **Camellia Oleifera (Green Tea) Extract**, **Bromelain**, **Biosaccharide Gum-2**, **Retinol**, **Papain**, Squalane, **Ubiquinone**, Chlorophyll/Copper

PACKAGING: ▶ 30 ml/1 fl. oz. pump bottle
PAO – 6 Months

INSTRUCTIONS: ▶ Apply evenly to clean skin. Leave on for 8-10 minutes. If being used as a step in the Precision Peel Protocol leave on for no longer than 5 minutes. Remove with warm water and a damp cotton 4x4 or facial sponge. Rinse 3 times in total, or until skin is smooth and not tacky. Individual reactions to enzymatic exfoliation may vary, redness may occur and should resolve shortly.

SC565

KEY INGREDIENT DESCRIPTIONS:

Lactic Acid: an AHA with a larger molecule that may not be as irritating as other AHA's. It increases the water holding capacity of the corneum layer.

Resveratrol: a phytoalexin that is produced in plants in response to environmental stress, supports the capillaries and health of skin from free radicals, can also calm skin after microdermabrasion treatments and other exfoliation procedures.

Bisabolol: botanically derived ingredient clinically proven to have effective anti-inflammatory, anti-bacterial and anti-mycotic benefits. Assists with delivery of active ingredients trans-dermally by improving skin penetration.

Green Tea Extract: potent antioxidant that helps to support skin structures and repair skin cells.

Bromelain: mixture of pineapple protein digesting enzymes which act on keratin, breaking down dead skin cells.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Retinol: skin conditioning agent that acts as an anti-keratinizing agent, helping skin stay soft & plump improving water binding properties, useful against dryness, heat & pollution, increases collagen, skin thickness and elasticity.

Papain: Protease enzyme from papaya breaks down amino acids offering a mild exfoliation. Helps to open clogged pores. Ant-inflammatory and anti-bacterial properties may be beneficial for acne prone skin.

Ubiquinone: potent antioxidant produced by the body, penetrates skin easily. Assists cells in producing collagen and elastin. Reduces oxidative tissue damage.

PRODUCT: soothe and restoreTM – therapeutic massage oil

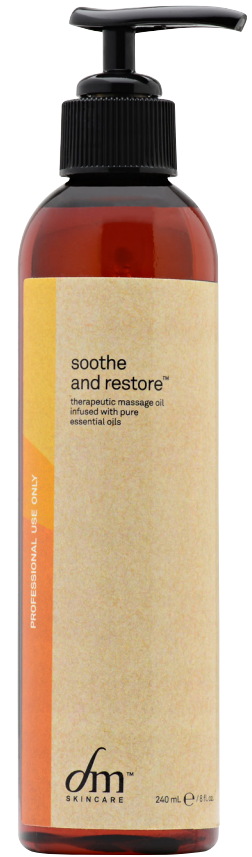

DESCRIPTION: ▶ Our soothe and restoreTM blend provides soothing support for achy, sore and inflamed muscles. It is a beautiful mixture of lavender, eucalyptus, ginger, and silver fir; a combination specifically chosen to offer analgesic and anti-inflammatory properties. Your clients from athletes to fibromyalgia sufferers will realize the benefits of this blend.

RX: ▶ Perfect for all – especially those with sore muscles.

INGREDIENTS: ▶ Prunus Persica (Peach Kernel) Oil, Simmondsia Chinensis (Jojoba) Oil, Cocus Nucifera (Coconut Oil), Tocopherol (Vitamin E), **Lavandula Angustifolia (Lavender) Oil, Eucalyptus Smithii (Eucalyptus), Zingiber Officinale (Ginger), Abies Alba (Silver Fir)**

PACKAGING: ▶ 120ml/4 fl. oz. pump bottle
PAO - 12 months

INSTRUCTIONS: ▶ Apply to the body for massage service.

SC865

KEY INGREDIENT DESCRIPTIONS:

Lavender Oil: 50% of the essential oil component of the blend. Empirical research has shown anti-inflammatory and analgesic effects. In addition, clinical data supports reduction in pain perception in those with arthritis and musculoskeletal conditions such as fibromyalgia. Calming and balancing effects can be derived from the fragrance of lavender.

Eucalyptus: 20% of the essential oil component of the blend. The smithii variety is used because it is less stimulating (irritating) than the more common eucalyptus globulus and it has better analgesic action. It also has clinically proven antioxidant, anti-inflammatory and immune supportive effects.

Ginger: 15% of the essential oil component of the blend. Well known for its digestive benefits, it also has strengthening and warming properties, making it ideal for muscle aches and pains. It has anti-inflammatory properties which add to its soothing value in the formula.

Silver Fir: 15% of the essential oil component of the blend. Popular for years in Europe to help with respiratory and muscular/rheumatic issues, silver fir is a stimulating and uplifting essential oil with the added benefit of acting as an analgesic to soothe tired, sore muscles.

PRODUCT: treatment neutralizer
Professional Use Only

DESCRIPTION: ▶ A product to neutralize acids after a treatment.

RX: ▶ For skin treated with acids.

INGREDIENTS: ▶ Deionized Water, **Sodium Bicarbonate**, Phenoxyethanol, Ethylhexylglycerin, **Biosaccharide Gum-2**, **Glycerin**, Malva Sylvestris, Symphytum Officinale Leaf Extract, Calendula Officinalis Flower Extract, Chamomilla Recutita Flower Extract, Panax Ginseng Root Extract, Aloe Barbadensis Leaf Extract, Polysorbate-20

PACKAGING: ▶ 480 ml/16 fl. oz. bottle
PAO – 6 Months

INSTRUCTIONS: ▶ Saturate a closed-weave gauze pad with Neutralizer and generously apply to face after acid application is timed out. Avoid the eye area. Rinse with water and pat dry.

SC735

KEY INGREDIENT DESCRIPTIONS:

Sodium Bicarbonate: used to buffer pH of acids.

Biosaccharide Gum-2: limits the propagation of inflammatory reactions in skin cells following an aggression.

Glycerin: a corn derived emulsifier and humectant.

PRODUCT: vitA-clear serum™ – antioxidant/oil control

DESCRIPTION: This serum helps to modulate oil secretions and also encourages healthy skin cell turnover, critical for anti-aging and acne management. A unique ester form of vitamin A found in the Granactive Retinoid Fluid® converts to tretinoic acid in the cells, without causing the extreme surface dryness and erythema that may accompany other retinol topicals. In addition to this esterified form of retinol, this formula contains standard retinol which contributes strong antioxidant attributes. Avena sativa beta glucan is present to reduce irritation and inflammation, as well as speed up healing of damaged tissues and stimulate collagen synthesis. These are two crucial factors for both anti-aging and acne support in the skin. Another star ingredient is lactobacillus ferment. This skin probiotic technology is added to help strengthen the skin's barrier and encourage beneficial skin bacteria to flourish and crowd out blemish causing bacteria. This product is a must in every daily skin routine.

SC515

RX: Oily, blemish prone skin especially during Precision Peel Protocol.

INGREDIENTS: Deionized Water, Witch Hazel Distillate, Glycerin, **Beta Glucan/Avena Sativa Oat/Bran Extract**, Citrus Aurantium Dulcis (Orange) Peel Extract, **Lactobacillus Ferment**, **Dimethyl Isosorbide/Hydroxypinacolone Retinoate**, Soybean Oil, Retinol, Hydroxyethylcellulose, Caprylhydroxamic Acid/Caprylyl Glycol/Ethylhexylglycerin/Propanediol, Lactic Acid

PACKAGING: 60 ml/2 fl. oz. pump bottle
PAO – 6 Months

INSTRUCTIONS: Apply a dime-size amount for distribution to the entire face. Allow application to dry two (2) minutes before following with an additional topical product. Avoid eye area.

KEY INGREDIENT DESCRIPTIONS:

Beta Glucan/Sativa Oat/Bran Extract: Oat and its derivatives are used to treat skin inflammation and irritation. The beta glucan is the soluble fiber in the cell walls of the oat kernel and can penetrate deeply into the tissues to deliver advanced topical skin benefits. It is known to reduce irritation, inflammation and speed the healing of damaged tissues. This is achieved through the stimulation of collagen synthesis. Studies have shown that it is able to penetrate and work into the inter-cellular matrix, and get to the lower levels where wrinkles are formed, showing marked improvement in wrinkles and new wrinkle formation.

Lactobacillus Ferment: The skin is alive with beneficial bacteria which can be depleted by harsh chemicals and over exfoliation. Lactobacillus ferment provides beneficial probiotic technology to help strengthen the skin's barrier and replenish bacteria that has been depleted. This aids in the skin's immune defense and helps to crowd out the P. acnes bacteria which cause acne breakouts.

Granactive Retinoid Fluid:® an ester form of retinol which is generally not as harsh or irritating as other retinols. Granactive Retinoid Fluid® converts to tretinoic acid in the cells and has superior bio-availability.

Retinol: protects skin cells by offering antioxidant support, encourages cell turnover and helps control acne by keeping the pores clean.
