TECH® Stain Remover

TECH® Stain Remover is an all-purpose stain remover which can be used on any water washable fabric: clothing, carpet, upholstery, vinyl, including draperies. TECH® contains no harsh chemicals, bleach, or anything which could dull the colors on fabrics. TECH® has earned the Seal of Approval from the Carpet and Rug Institute, meaning TECH® is recognized by carpet manufacturers as a superior product that works without damaging carpets and may not void your carpet manufacturer's warranty!

Sizes: 2 oz, 8 oz, 24 oz, 128 oz

- Non-flammable
- Non-enzymatic formula
- Safe to use around kids and pets
- Eliminates stains quickly and permanently
- Instant results – no waiting for enzymes to activate

TECH®

TECH® Gel Odor Eliminators remove odors without overpowering your senses with heavy perfumes or chemical scents (especially immediately after the product is opened). TECH® Gel Odor Eliminators provide a more balanced scent release for the entire life of the product. Our exclusive “thick gel” formula provides more surface area than traditional solids, allowing more odors to get trapped. As unpleasant smells and odors disappear, enjoy the light rejuvenating scents of TECH® Gel Odor Eliminating Gels. Allow your mind to relax, redirect and focus on things that truly matter. With TECH’s continuous release odor neutralizing formulas, you can live odor free. Ideal for spaces less than 500 sq ft such as closets, bathrooms, bedrooms, kitchens or anywhere odors may occur. TECH® Gel Odor Eliminators exclusive non-toxic pH neutral formula is safe to use around people and pets. Directions for use: Unscrew cap. Remove seal from top of the cap. Replace cap by re-screwing it on the jar. Place TECH® Gel Odor Eliminators on any level surface where odors are the strongest. Sniff. Relax. Enjoy. Try all 6 great scents! Scent and odor elimination lasts up to 60 days.

**Lasts Up To
60
Days**

TECH® Odor Neutralizer

Natural Sassafras Scent

TECH® Odor Neutralizer is nature's solution for odor problems. It is not an odor mask. TECH® Odor Neutralizer is a true odor eliminator. We have formulated TECH® Odor Neutralizer with a natural sassafras extract and selectively-adapted organic salts to effectively neutralize and eliminate the most offensive odors, without the need or hassle of waiting for enzymes to work. The natural sassafras fragrance provides immediate relief, while odor-causing bacteria are encapsulated and destroyed, quickly and permanently.

TECH® Odor Neutralizer is safe for all fabrics so it can be sprayed directly on the problem area or spray in the air to freshen any room.

- Auto/Garage/RV/Marine
- Bathrooms/Closets/Kitchens
- Safe to use around children and pets
- Gym Bags, athletic bags, shoes and sports clothing
- Instantly eliminates odors – spray it on and the smell is gone

Jeweler's Secret®

Jeweler's Secret® Jewelry Cleaner uses an advanced "foaming action" formula that cleans jewelry without using damaging substances or abrasives like ammonia, bleach, or the old standard: toothpaste. Unlike traditional jewelry cleaners and dips, Jeweler's Secret's® foaming action quickly breaks down oils (skin oil, hand lotion, everyday build-up and grime) without using any harsh chemicals which can cause scratches or even "pit" fine or costume jewelry. Jeweler's Secret® cleans and restores that "like new" look and sparkle to diamonds, precious, and semi-precious stones. It cleans gold, silver, platinum, and costume jewelry. Most ordinary "dip" jewelry cleaners require you to soak your jewelry overnight and after just a couple of cleanings you are soaking your jewelry with all the dirt, build-up, and grime from previous cleanings. In addition these "standard" formulas use ammonia-based cleaning agents that over time are harmful for your jewelry.

With Jeweler's Secret® your jewelry looks like new again in just a few seconds. It's that easy! Jeweler's Secret® is not recommended for use on opals, pearls or pantina jewelry, as they require specially designed cleaners. Jeweler's Secret® is designed for use as a daily cleaner. We recommend taking your jewelry into a professional jeweler on a regular basis for buffing and proper maintenance.

This product is not recommended for use on opals or pearls.
