

3M™ Versaflo™ Spray Painters' Kit

Technical Data Sheet

Description

The Versaflo™ Spray Painters' Kit features a lightweight compact and well-balanced M-Series Faceshield and belt worn V-Series Air Regulator that offers integrated respiratory, eye and face protection.

The faceshield and air regulator are easy to use and maintain while helping to provide the wearer with protection from a range of workplace hazards.

Features

- Lightweight Faceshield, with excellent balance and field of view
- Fully-adjustable head suspension for optimal fit and weight distribution
- A deflector allows airflow to be directed for increased comfort and control
- Integrated low pressure warning whistle and silencer that reduces noise level to less than 65 dBA
- Replaceable active carbon filter removes odours
- Can be used with 3M™ compressed air hoses up to a maximum length of 30 m
- Air Regulator delivering controlled, constant flow of air with locking control knob
- Auxiliary port allows air tools such as paint spray guns to be connected
- Air Regulator can be adjusted on the belt for right and left-handed users
- Accessories include earmuffs, peel-off visor overlay, helmet cover and chin strap
- Easy to maintain
- Spare parts and accessories are quick and easy to replace

Standards

- High impact visor meets the performance standard of AS/NZS 1337.
- Meets AS/NZS 1716 performance standard for respiratory protection.
- The compressed air supply must comply with the quality requirements of AS/NZS 1715.

ALVM-206E

Operation/Cleaning

Users need to be trained in the safe operation of this equipment. Routine checks must be carried out in accordance with the user instructions. Cleaning should also only be carried out as specified in the user instructions.

Specifications
