> Super smooth

> Minimal sanding

> Excellent finish

Crystal Glaze

SELF-LEVELING FINISHING PUTTY

ADVANTAGES AND PERFORMANCE

Combines all the characteristics needed for a high quality finishing glaze:

- › Smooth finish with minimal sanding.
- › Excellent self-leveling properties.
- › Tack free.
- › Adhesion to multiple substrates.
- › Its thinner viscosity makes it ideally suited for intermixing with other Roberlo fillers to improve flowout.
