

Harmonizing space, body and water

SOMAVEDIC

somavedic.uk

Amor

Somavedic begins its journey with the manual production of its glass body in a traditional glassworks in the north of Bohemia and from here it travels to Lovosice. In Lovosice, a precise assembly of the heart follows, comprising a tesla coil, semi-precious stones, precious stones from all over the world, and precious metals. At the end, the heart assembled in this way is stored in the corpus.

Over the course of its 11 year existence, we have been sending Somavedic to more than 58 countries worldwide. At present, it is especially popular in Japan, the USA and Australia.

Our clients experience after turning on Somavedic

Everyone of us is an unmistakable original. We all have our specific knowledge, opinions, beliefs, genetic, physical and mental preconditions, ideas, requirements, desires... This means that many factors influence the process of our regeneration. However, if the correct drinking intake is followed in combination with Somavedic, our clients experience positive effects and changes. After many years of gathering feedback, we have compiled a general description of the experiences commonly encountered by our clients.

1 TO 12 HOURS

After Somavedic is turned on, the air in the surrounding area is „cleaned and harmonized“ in several hours. Depending on the specific model, it also harmonizes the water, which our clients describe as very delicious (Medic Green Ultra, Vedic, Amber, Gold).

12 TO 24 HOURS

The body begins to cleanse. Already during the first night, Somavedic will reduce the excess of free radicals inside your body, which are a common cause of health problems. This can be verified with a simple and quick free radical urine test.

1 TO 2 WEEKS

In one to two weeks, sleep will improve for the majority of the clients. The length of the deep (regenerative) sleep phase can double or even triple. You will be more energized, and this will reflect positively in many areas of your life.

3 WEEKS

The body can continue to detoxify in contrast to the original energy increase, you can notice a temporary decrease, as your body redirects energy to places where something needs to be regenerated. Drinking lemon water is a time-tested way to support the discharge of washed out pollutants from the body during detoxification. You will receive a simple manual with your Somavedic.

1 TO 2 MONTHS

After one to two months, you will feel noticeably better, you have steadily more energy, your breath is stabilized and you are calmer. You are starting to have more energy for solving problems and topics that you have been putting off for a long time, because you simply did not have the strength or time for them. The increase in life energy naturally brings along more exercise. All of the above will start further positive changes in your life.

2 TO 6 MONTHS

Even after two months, Somavedic tirelessly removes any obstacles preventing your body from self-regeneration. It harmonizes the space, body, and water. The body as such has strong regenerative abilities, but it needs a perfectly natural, harmonious environment (nature) to use them. And Somavedic continuously creates these.

6 TO 12 MONTHS

After approximately 6 to 12 months, the elimination of negative effects on many levels will be completed. Somavedic continues to cleanse the space as much as it can you are feeling better and take it for granted.

You can read about the positive and original experience of our clients on our website

Harmony

Harmony is the full-fledged successor of the Quantum, Harmonie, and Traveler models. It easily tackles any larger load in the countryside as well as when travelling by car.

Eliminating negative influences: EMF, GF*, free radicals

Environment: weekend homes and cottages, one-generation houses, countryside properties without much load (EMF)**, cars

Body: hand blown crystal glass with silver lining inside

Heart: tesla coil, semi-precious stones, precious stones and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

- * An abbreviation for geobiological fractures frequently occurring in the earth's crust and negatively influencing life conditions on the surface by emitting positive ions.
- ** An abbreviation for an electromagnetic field, which is practically ever-present today, due to modern el. technologies.

**Model
suitable for the
countryside and
for travel**

Sky

Sky has a universal use in all premises where more intensive harmonization is needed. It is suitable for apartments and family houses in larger cities.

Eliminating negative influences: EMF, GF, free radicals

Environment: family houses and city flats, rehabilitation centres, offices, shops, etc.

Body: hand blown crystal glass with silver lining

Certifications: IGEF (Germany)

Heart: tesla coil, semi-precious stones, precious stones and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

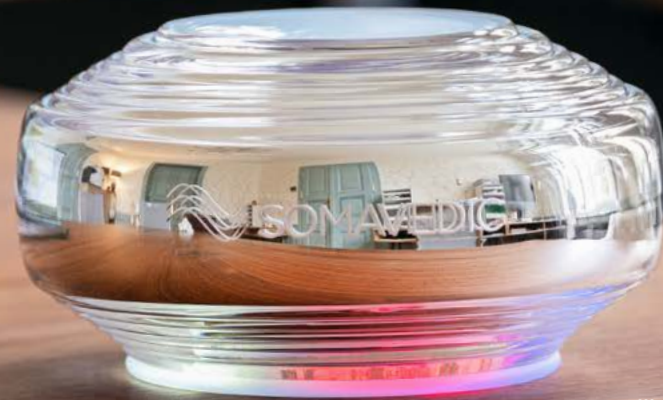

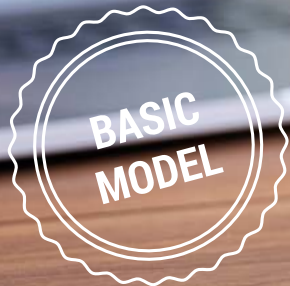

illustration photo

Medic Green Ultra

Somavedic Medic Green Ultra is an ideal choice for virtually any place that needs to harmonize its space. This model can also harmonize (structure) water.

Eliminating negative influences: EMF, GF, free radicals

Environment: hospitals, clinics, doctor's offices, bioresonance centres, schools, shopping malls, family and multifamily houses, city flats

Body: hand blown uranium* crystal glass (sanded)

Certifications: IGEF (Germany), Bion (Slovenia)

Heart: tesla coil, semi-precious stones, precious stones and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

illustration photo

* The uranium compounds (oxides) added to the glass are subject to strict records and controls by the Czech State Office for Nuclear Safety (SUJB) as well as by the International Atomic Energy Agency (IAEA).

Vedic

Meet the new successor of our previous bestseller Medic Green Ultra. Redesigned inside out for the ultimate harmonization of your home and working space.

Eliminating negative influences: EMF, GF, free radicals

Environment: hospitals, clinics, doctor's offices, bioresonance centres, schools, shopping malls, family and multifamily houses, city flats

Body: hand blown uranium* crystal glass with silver lining

Certifications: IGEF (Germany), Bion (Slovenia)

Heart: tesla coil, semi-precious stones, precious stones and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

**BEST
SELLER**

Structured water is living and full of natural energy needed by the body

Japanese scientist Dr. Masaru Emoto has proven that water receives information from its surroundings, stores it and changes its structure and quality accordingly. The changed quality of water then has „astounding“ effects on the human body, although its composition has not changed.

From the pictures taken of frozen water (crystallography) we get information about its quality. Energized „living“ water, e.g. from springs, forms beautiful hexagonal crystals, while chemically treated tap water is „dead“ with deformed crystals.

Water molecules **before treatment (broken) and after treatment (structured)** with Somavedic Medic Green Ultra, Vedic, Amber, Amber Sun, and Gold. Somavedic restores the original quality of water, which it had before it was unnaturally retained, pumped and distributed under pressure (pressure pipes, etc.).

Somavedic works in a **30m radius around** the device in all directions, while taking only minimum electrical power - approx. 1 kWh/month

The heart of all Somavedics is made of the tesla coil, semi-precious stones, precious stones and precious metals

Somavedic is designed on the principle of controlled release of energy from minerals. These include namely semi-precious or precious stones in a specific configuration. The resulting effect is amplified precious metals.

All models are certified for safety:

How does Somavedic work?

Somavedic is the only device available which can work as a passive resonator in an active field, and in this way create negative ions (air vitamins) naturally occurring in caves (use in speleotherapy) or in pure nature. Other regular ionizers generate negative ions within a 2 meter radius, but these are then absorbed by commonly used plastic materials.

Somavedic is unique because it generates negative ions all over the house or flat, with no fans humming, no need to clean filters, and without being absorbed by positively charged surfaces (plastic - furniture, kitchen cabinets, floors, electronics, etc.). In absolute silence, it establishes a harmonious environment as in the nature, while consuming minimum electricity. This ionization is initiated in the ground and in the air, as well as in water and the human body.

We are not the first to deal with these characteristics of materials and air. In the Czech Republic, the scientist Ing. Zdeněk Buřival, CSc. studied in depth the physical properties of ion fields. The influence of crystals on physical processes was demonstrated by experiments designed by the US scientist and researcher Marcel Vogel. He devoted practically his entire creative life to the research of quartz crystals. After all, using precious stones and metals in healing is nothing new. For example, Indian medicine (Ayurveda) has been using it for these purposes from time immemorial.

Can the effects of Somavedic be measured?

The negative ions produced by Somavedic have many positive effects. The amount of negative ions in the air can be easily measured with special, but commonly available, instruments. If you live for a long time in a poor quality environment (lacking negative ions), the level of free radicals in your body usually increases. Anyone can check the effects of Somavedic at home. The easiest way is to buy test strips for measuring free radicals in the urine. The effect occurs during sleep and clients have normal free radical values in the morning. Simply compare the values from the day before plugging in Somavedic with the morning after its nocturnal action.

If the body is exposed to high concentrations of free radicals or if it lacks antioxidants, it results in oxidative stress. Long-term oxidative stress damages cells and leads to accelerated aging. More than 100 different diseases are known to be associated with oxidative stress: heart attack, stroke, atherosclerosis, diabetes, Alzheimer's, Parkinson's, liver conditions, skin conditions, inflammatory joint diseases, tumours, and many others. Alarming body signals such as burnout, chronic fatigue, and lack of energy, headaches and migraines, proneness to infections and inflammation, depression - all these can be the symptoms of oxidative stress.

Another way to measure them today is with common smart watches, which can measure the phases of sleep and some even the heart rate variability (HRV). According to the feedback from our clients and our measurements, periods of deep sleep are doubled, even tripled with Somavedic. With Somavedic, your heart rate variability negatively affected by, among other things, the almost omnipresent electromagnetic field (EMF) can return to normal within a few days. This fact was measured in an independent IGEF laboratory (the certification and protocols can be found on the website).

More complex measurements regarding how Somavedic affects the human body can be performed on the Bicom bioresonance device. There is a wide network of Bicom therapeutic centers in the Czech Republic.

WHERE ARE FREE RADICALS FORMED AND WHAT IS THEIR EFFECT?

Excess free radicals block the overnight regenerative processes in the body. They originate as a result of a person staying long in the electromagnetic field, but also of smoking, stress, and low water intake, etc. They cause a chemical reaction in the body, the so-called oxidation, considered to be the cause of fatigue or chronic inflammation. Also with conditions such as Alzheimer's or Parkinson's disease, as well as with autoimmune diseases such as multiple sclerosis, there is a suspected association with oxidative stress and the destructive effect of excessive amounts of free radicals in our cells. Somavedic can eliminate excess free radicals in one night.

WHAT IS ELECTROSMOG (EMF) AND WHAT IS ITS EFFECT?

EMF is an electromagnetic field emitted by high-voltage lines, mobile signal transmitters, smartphones, Wi-Fi routers, computers, bluetooth devices, televisions, baby monitors, microwaves, induction boards, and other devices. It is a scientifically proven fact that electrosmog initiates harmful oxidative processes in human body cells; these are caused by free radicals with a negative effect on human health and are, among other things, considered to be the cause of aging. Somavedic reliably eliminates the negative impact of these energy networks affecting us practically 24 hours a day.

NON-CONTACT WATER TREATMENT WITH SOMAVEDIC

Living water can be prepared with the Atlantic, Uranus, Amber, Amber Sun, and Gold models. These models restore the natural crystalline structure of water in a contactless way by simply placing it next to Somavedic. This treatment enables our cells to absorb water and hydrate themselves, i.e. to protect themselves from excess free radicals and better leach out pollutants. Simply place the water (regardless of the amount) within 30cm distance from Somavedic. The water is treated (100% structured) in 10 to 15 minutes. Clients often describe the water treated in this manner as light, smooth, delicate, etc.

Somavedic has also completed a successful preclinical study and other clinical studies in the Czech Republic as well as abroad. See our website for more information.

WHAT ARE GEOBIOLOGICAL FRACTURES?

Geobiological fractures (GF) are terrestrial radiation showing a measurable deviation from the natural magnetic field. They are formed, for example, due to underground water paths and artificial interference with the earth's structure. Their effects can often manifest as poor sleep, headaches and back pain, and frequent fatigue. If geobiological fractures cross some technical field (associated with, e.g. mobile network masts and electrical installations), our immune system becomes weaker. Moreover, these zones are constantly travelling below the surface, and therefore cannot be solved once and for all by simply moving the bed. Somavedic can easily deal with these zones and eliminates 100% of their negative impact.

HAS SOMAVEDIC BEEN TESTED IN A LAB?

Somavedic is certified and its effects have been proven in laboratories. These tests took place in Germany (IGEF, Dartsch - Dr. Sche), Slovenia (BION), and the Czech Republic (Balneological Research Institute). Currently, 4 preclinical studies are running in Czech hospitals. It is likely that you will see Somavedic in pharmacies soon. Somavedic can be connected to a socket or a USB. All models are certified for safe use globally, according to each country's standards.

WHAT DOES STRUCTURED WATER MEAN?

All living things are based on water (about 70% of the human body). Natural water, for example from a forest spring, is full of living energy with a considerable amount of antioxidants; thus it also tastes better. Water like this naturally creates eddies and currents, which is why it is charged with energy, which is then stored and passed on to our bodies. As a result of modern treatment and pipeline transport, water loses its natural energy; it even has 0% energy in some cases, therefore our body does not allow it into the circulation and such water is immediately discharged. On the contrary, the body loves the water structured by Somavedic.

Warning: SOMAVEDIC is not a replacement for medical care!

We recommend its use in combination with BICOM bioresonance machines and medical checks.

Ruby

The intention was to create a model, which would, apart from the standard functions, also support spiritual growth, encourage kindness and open hearts.

Eliminating negative influences: EMF*, GF**, free radicals

Environment: anywhere relationships need harmonization, family homes and apartment buildings, rehabilitation centres, meditation rooms, yoga, etc.

Body: hand blown crystal glass with added gold (sanded)

Certifications: IGEF (Germany)

Heart: tesla coil, semi-precious stones, precious stones, and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

* An abbreviation for electromagnetic field.

** An abbreviation for geobiological fractures frequently occurring in the earth's crust and negatively influencing life conditions on the surface by emitting positive ions.

Cobalt

Cobalt is designed to support your psyche, intuition, and concentration, and helps with grounding oneself. It helps in finding a way out of various depressive states and mental disorders. We recommend Cobalt as an add-on to the Sky, Medic Green Ultra, Vedic, Amber, Amber Sun and Ruby models.

Eliminating negative influences: EMF, GF, free radicals

Environment: anywhere the psyche needs to be balanced - family homes and apartment buildings, home offices, office spaces, shops, etc.

Body: hand blown crystal glass with added cobalt (sanded)

Certifications: IGEF (Germany)

Heart: tesla coil, semi-precious stones, precious stones, and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

illustration photo

supporting
PSYCHE

Amber Sun

Amber is the most powerful and all-purpose regularly produced Somavedic. Its performance is approximately 4 times higher compared to the Medic Green Ultra model. It can manage any load at your space, especially strong EMF. Naturally, it also harmonizes water. This Amber Sun immediately earns the loyalty of it's clients.

Premium
MODEL

Eliminating negative influences: EMF, GF, free radicals

Environment: family homes and apartment buildings, home offices, offices, shops, hotels, conference rooms, electromobiles, etc.

Body: hand blown amber glass with silver lining inside (two colour options)

Heart: tesla coil, semi-precious stones, precious stones, and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

Gold

Gold is our company's top model. It can do everything the other models can and in addition, it has other features tailored to the specific client, for whom this step very often means starting a new phase in life. If you wish to experience a truly multi-level transformational detoxification of yourself, then Gold is definitely the right trigger and helper on this liberating journey. Packed in a luxury wooden box.

Eliminating negative influences: EMF, GF, free radicals

Environment: suitable for family homes as well as the working environment

Body: hand blown crystal glass coated with 24 carat gold

Heart: bespoke configuration. A set of tesla coils, semi-precious stones, precious stones, and precious metals (Au, Ag, Pd, Pt, Cu, Zn)

The first Somavedic was assembled by Ivan Rybjanský in his workshop on April 1, 2011. A vision raced through his head then: „If this helped even a single person, it would be worth the effort.“ So he went and made over five hundred pieces that year. After years of innovation, research, testing and collecting feedback, Somavedic has come a long way. Today, tens of thousands of Somavedics are giving light and harmonizing spaces all around the world.

From the very beginning, Somavedic has had the potential to help change the world for the better. And this vision is being fulfilled and becomes reality with each new Somavedic lit up. We thank all our clients for being part of this fundamental and positive change. We believe in a bright future with all our hearts.

Pendant

Pendant is designed to be charged on your larger Somavedic to bring some of the properties and energy with you outside of the home.

Material: crystal glass + Somavedic logo hologram

Diameter: 1"

illustration photo

Portable

The principle behind Somavedic Portable is brilliantly simple. It's basically a rechargeable shape emitter.

Material: crystal glass + 3D hologram Somavedic

Size: 1,2" x 0,8" x 0,6"

illustration photo

Tiny

Somavedic Tiny is able to support our energy field even in crowded spaces and city centers.

Variants: pure, green, anthracite

Material: hand pressed glass with golden logo of Somavedic

Size: 1,4" x 0,7"

illustration photo

Pyramid

This Crystal Pyramid helps to amplify the field of Somavedic.

Material: crystal glass + 3D hologram Somavedic

Size: 4" x 4" x 2,8"
