

Gourd Morning Safety Data Sheet

l Identification

GHS Product Identifier

Gourd Morning

Other means of identification

Fragrance oil

Recommended use of the chemical and restriction on use

For manufacturing use only.

Supplier's details

Little Bee Scents

PO Box 684, Leavenworth, KS 66048

marsha@littlebeescents.com

Emergency phone number

Poison control: (800) 222-1222 In case of emergency, call 911.

2 Hazard(s) identification

Classification of the substance or mixture

Not classified

GHS label elements

*

Signal word: warning

Physical hazards: Flammable liquids, Category 4

Environmental hazards: Hazardous to the aquatic environment, acute Category 1

Hazardous to the aquatic environment, along term Category 1

Hazard statement

H227 Combustible liquid

H400 Very toxic to aquatic life

H410 Very toxic to aquatic life with long lasting effects

Prevention

P210 Keep away from flames and hot surfaces. No smoking.

P273 Avoid release to the environment.

P280 Wear protective gloves/eye protection/face protection.

Response

P370 + P378 In case of fire, use appropriate media to extinguish

P391 Collect spillage.

Storage

P403 + P238 Store in a well ventilated place. Keep cool.

Disposa

P501 Dispose of contents/container in accordance with local/regional/national/

international regulations.

Date of Preparation: 08/1/2023 7:45:17 PM Revision: 1

Other hazards which do not result in classification

Not applicable

3 Composition/information on ingredients

Description

CAS Number

EINECS
%
Number

The individual chemical identities of the ingredients of this mixture are considered to be proprietary information and trade secrets. As such they are withheld in accordance with the provisions of the law. Certain hazardous substances are listed in the Exposure Controls/Personal Protection section.

4 First-aid measures

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.

Skin contact: Wash skin with soap and water. Get medical attention if irritation develops and persists.

Eye contact: Rinse with water. Get medical attention if irritation develops and persists.

Ingestion: Rinse mouth. Get medical attention if symptoms occur.

Most important symptoms/effects, acute and delayed: Direct contact with eyes may cause temporary irritation. Indication of immediate medical attention and special treatment needed: Provide general supportive measures and treat symptomatically.

General information: Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves.

5 Fire-fighting measures

Suitable extinguishing media

Date of Preparation: 08/1/23 7:45:17 PM Revision: 1

Page 3 of 7

Water fog. Alcohol resistant foam. Dry chemical powder. Dry chemicals. Carbon dioxide (CO2). Do not use water

Specific hazards arising from the chemical This product is combustible, and heating may generate vapors which may form explosive/vapor air mixtures. During fire, gases hazardous to health may be formed.

Special protective actions for fire-fighters

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Move containers from fire area if you can do so without risk.

In case of fire, do not breathe fumes.

Accidental release measures

Personal precautions, protective equipment and emergency procedures
Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Wear appropriate protective
equipment and clothing during clean-up. Ensure adequate ventilation. Avoid breathing mist/vapor. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

Environmental precautions

Avoid release to the environment.

Methods and materials for containment and cleaning up

Eliminate all ignition sources. This material is classified as a water pollutant under the Clean Water Act and should be prevented from contaminating soil or from entering sewage and drainage systems which lead to waterways.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

Small Spills: Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Clean surface thoroughly to remove residual contamination.

Handling and storage

Precautions for safe handling

Keep away from open flames, hot surfaces, and sources of ignition. When using do not smoke. Avoid prolonged exposure. Provide adequate ventilation. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices.

Date of Preparation: 08/1/2023 7:45:17 PM Revision: 1

Conditions for safe storage, including any incompatibilities

Keep away from heat, sparks, and open flame. Store in a cool, dry place away from direct sunlight. Store in tightly closed container. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8 Exposure controls/personal protection

Control parameters

This information is not available. CAS No Identifier TWA[ppm] TWA[mg/m³] Source

Exposure controls

Individual protection measures, such as personal protective equipment

Always provide effective general and, when necessary, local exhaust ventilation to maintain the ambient workplace atmosphere below the exposure limits.

Respiratory protection: none generally required

Specific protection for the hands: protective gloves against minor risks Eye and face protection: safety glasses against slash/projections Bodily protection: work clothing and anti-slip work shoes

Environmental exposure controls:

In accordance with the community legislation for the protection of the environment it is recommended to avoid environmental spillage of both the products and its container.

9 Physical and chemical properties

Physical and chemical properties

Appearance: Very pale yellow liquid

Odor: characteristic aroma

pH: N/A

Melting Point: N/A
Boiling Point/range: N/A
Evaporation Rate: N/A
Partition Coefficient: N/A

Decomposition Temperature: N/A Upper/Lower Flammability Limits: N/A

Vapor Pressure: Not Determined

Vapor Density: N/A

Relative Density +/- 0.020: N/A Solubility: Not soluble in water Flash Point: 196.0F / 91.1C

Flammability: N/A

Auto-Ignition Temperature: N/A

Viscosity: N/A

Date of Preparation: 08/1/23 7:45:17 PM Revision: 1

10 Stability and reactivity

Reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport.

Chemical stability

Material is stable under normal conditions

Possibility of hazardous reactions

No dangerous reaction known under conditions of normal use.

Conditions to avoid

Direct sunlight. Heat. No smoking. Open flame. Overheating. Sparks.

Incompatible materials

Strong oxidizing agents

Hazardous decomposition products

No hazardous decomposition products are known.

11 Toxicological information

Toxicological (health) effects - Test data are not available for the complete mixture.

This mixture has not been subjected to toxicological testing as an entity.

Date of Preparation: 08/01/2023 7:45:17 PM Revision: 1

12 Ecological information

This mixture has not been subjected to ecotoxicological testing as an entity.

13 Disposal considerations

Disposal instructions:

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Dispose of contents/container in accordance with local/regional/national/international regulations.

Local disposal instructions:

Dispose in accordance with all applicable regulations.

Hazardous waste code:

The waste code should be assigned in discussion between the user, the producer and the waste disposal company.

Waste from residues / unused products:

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see: Disposal instructions).

Contaminated packaging:

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

14 Transport information

DOT

UN number NA1993

UN proper shipping name: Combustible liquid, n.o.s., MARINE POLLUTANT

Transport hazard class(es) -

Subsidiary risk -

Label(s) None

Packing group III

Marine pollutant: yes

Special precautions for user Read safety instructions, SDS and emergency procedures before handling.

Special provisions IB3, T1, T4, TP1

Packaging exceptions 150

Packaging non bulk 203

Packaging bulk 241

Date of Preparation: 08/01/2023 7:45:17 PM Revision: 1

15 Regulatory information

Safety, health and environmental regulations specific for the product in question

The following components are listed on the OEHHA California Proposition 65 List as "chemicals known to the state to cause cancer" or "to cause reproductive toxicity":

None

It it recommended to use the information included in this safety data sheet as data used in a risk evaluation of the local circumstances in order to establish the necessary risk prevention measures for the manipulation, use storage and disposal of this product. Take into consideration other applicable federal, state and local laws and local regulations.

16 Other information

Other information

The data contained in this Safety Data Sheet is accurate to the best knowledge of Little Bee Scents, applies to the product as supplied by Little Bee Scents and does not relate to use in combination with any other material or in any process. Data and information is furnished without warranty expressed or implied, nor does Little Bee Scents assume responsibility for use or reliance upon this data. This SDS is current to the date listed above. However, the GHS classifications may change due to hazard communication updates by the overseeing governing body. For the most current SDS information please contact marsha@littlebeescents.com.
