

X8

Technical overview

Specific advantages

Number of specialties	21
One-Touch function	▪
Intelligent Water System (I.W.S.®)	▪
Automatic switchover from milk to milk foam	▪
Compatible with J.O.E.®	▪
Wireless ready	▪
Smart Connect included	▪
Hot water	8 oz per minute
Active bean monitoring	▪
Monitored drip tray	▪
Swiss made	▪

JURA standards

Pulse Extraction Process (P.E.P.®)	▪
Variable VC brewing unit, from 5 g to 16 g	▪
Intelligent Pre-Brew Aroma System (I.P.B.A.S.®)	▪

Grinder	Multi-level Aroma G3 grinder
High-performance pump, 15 bar	1
Thermoblock heating system	2
Fluid system	1
JURA fine foam technology	▪
Milk system	HP3
Maintenance status display	▪
Integrated rinsing, cleaning and descaling program	▪
Integrated milk system rinsing and cleaning program	▪
JURA hygiene: TÜV-certified	▪
CLEARYL filter cartridge	CLEARYL Pro Smart
Energy Save Mode (E.S.M.®)	▪
Zero-Energy Switch or power switch	▪

Settings and programming options

Programmable and individually adjustable amount of water	▪
Programmable and individually adjustable coffee strength	10 steps
Programmable milk/milk foam temperature	10 steps
Programmable brewing temperature	2 steps
Programmable amount of milk/milk foam	▪
Programmable temperature of hot water	2 steps
Day counter reset	▪
Programmable switch-off time	▪
Shows the number of preparations for each individual product	▪

Design and materials

Display	TFT color display
Amber/white cup illumination	▪
Sound design	▪

In figures

Height-adjustable dual spout (milk/coffee)	2.5 – 6 in
Water tank capacity	169 oz
Bean container capacity	17.7 oz
Bean container can be optionally extended to	35 oz
Coffee grounds container (servings)	max. 40
Cable length	approx. 47 in
Voltage / power	120 V~, 60 Hz / 1450 W
Stand-by power	< 0.5 W
Weight	31 lbs
Dimensions (W×H×D)	14.7×18.5×18 in
Dimensions (W×H×D) with bean container	14.7×20.6×18 in
Article number / color	15177 / Platinum

Areas of use

- Self-service area
- Large offices
- Catering

X8
The robust, versatile and professional
coffee solution

The robust, versatile and professional coffee solution

Benefits at a glance

- **21 specialties to choose from**
The coffee of your choice at the touch of a button thanks to modern One-Touch function
- **Bean container and water tank can be locked**
To prevent manipulation
- **Disable function for products and programming**
Prevents accidental operation
- **6 large front-mounted direct selector buttons and 2 navigation buttons**
Delicious coffee at the touch of a button

Recommended accessories

- Cool Control
- Fresh Water Kit
- Bean container extension
- Coffee grounds disposal/drip drain set

The X8 is incredibly versatile: it can prepare the full range of coffee specialties finished with milk and milk foam, as well as black coffees and the classic jug of coffee. For tea lovers, it also prepares hot water at different temperature levels. With its solid, height-adjustable dual spout, it can create a coffee specialty – or even two beverages simultaneously – and dispense them into the cups or glasses, at the touch of a button. The handy cup positioning aid makes it ideal for self-service. The same goes for the large, clearly arranged preparation buttons. Different specialty coffees can be positioned wherever you like on the display, according to your needs. Whether equipped with the standard large water tank or a sturdy fresh water kit, the X8 offers excellent performance for mobile use or in a fixed location.

State-of-the-art technologies for perfect enjoyment

The innovative Aroma^{G3} grinder always freshly grinds the beans for every beverage, to just the right fineness. It is designed for speed and precision while preserving the full aroma of the beans. The Pulse Extraction Process (P.E.P.[®]) ensures the optimum extraction time for short specialties delivering an unmatched flavor for ristretto or espresso. The X8 has a height-adjustable dual spout, enabling it to create the perfect trend specialties with automatic switchover from milk to milk foam thanks to fine foam technology. All control elements on the X8 are on the front, clearly visible and easily accessible. The water tank and bean container can also be refilled from the front. To protect them from manipulation, the water tank and bean container come with a locking mechanism. The drip tray and coffee grounds container are ergonomically designed and can be removed with one hand, allowing them to be emptied quickly and cleanly. The control elements show the clarity of the operating concept. The vertical format TFT display combined with the large, easily recognizable preparation buttons make operation straightforward, even for first-time users. The preparation and maintenance buttons can be disabled to prevent unwanted reprogramming or accidental operation while the machine is being cleaned.

TÜV-certified hygiene guarantee

The maintenance of the X8 is just as intuitive as its operation. Integrated rinsing and cleaning programs, used together with original JURA maintenance products, ensure TÜV-certified hygiene and cleanliness. Even the X8's milk system cleaning is automated and runs at the touch of a button. The solid dual spout can be easily dismantled. There is good access to the milk spouts positioned at the front of the dual spout and they can be replaced very easily if required.

As individual as your requirements

The X8 can be combined with additional coffee machines and elegant accessories such as the Cool Control or Fresh Water Kit, making it the ideal basis for complete, tailor-made coffee solutions in a wide range of areas.
