GHOST
CONTROLS
"Improving *Lifestyles* through Innovation"

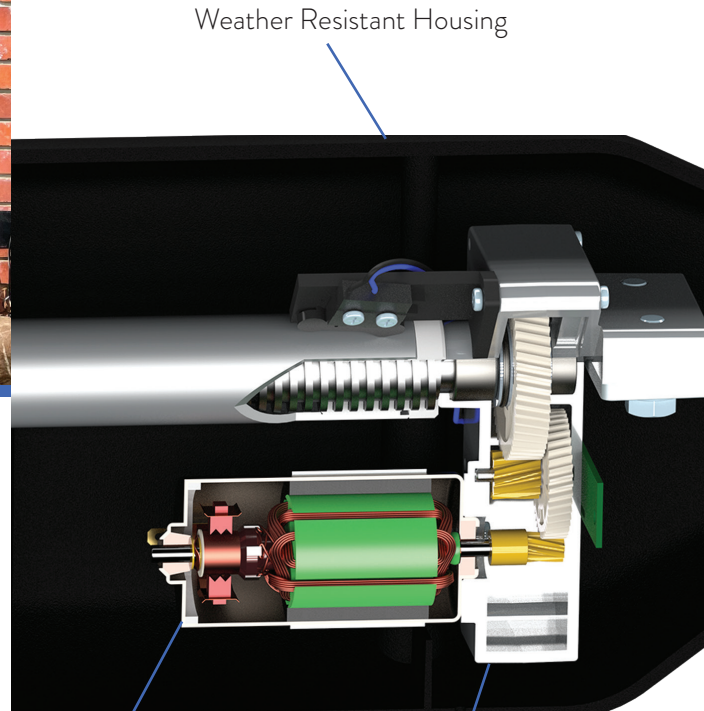

The **GHOST MANOR** Series
Automatic Gate Openers
and Accessories

Improving *Lifestyles*
Through Innovation®

GHOST CONTROLS® smart-ready* gate openers and accessories are designed to provide complete control and convenience for you and your family to access your property. Our openers can also be accessed with the Ghost Controls® App on your phone when you connect the Ghost MultiConnect® Kit* to your gate system. Our Ghost Manor Series gate openers and accessories are available from your local PRO dealer and backed by a reliable 18-month warranty and a lifetime warranty on the motor and gear assembly when you register your product online.

*Smart ready means an additional accessory, the AXMC-R Ghost MultiConnect® Kit, will be necessary to use this feature.

Ideal for COLUMN MOUNT or
OVERSIZED GATES 16' - 20' WIDE

SINGLE OR DUAL GHOST MANOR SERIES SMART READY* GATE OPENER KIT | HDP1 OR HDP2 (Requires 12v Battery, Not Included)

Single Gates: Include one opener arm with 6' cable, control box, controller, (2) warning placards, (1) estate bracket, (1) premium remote transmitter and hardware for a standard pull-to-open installation.

Dual Gates: Include all of the above plus a second opener arm with 50' cable, and a total of (2) estate brackets and premium remote transmitters. *With the addition of the Ghost MultiConnect® Kit. **1**

LARGE BATTERY BOX KIT | ABL

The large deep cycle battery box holds batteries up to Group 27 and includes hardware to attach to a post. Battery not included. **2**

BATTERY BOX KIT WITH 2 BATTERIES | ABBT2

The battery box kit includes two 12V, 7 Amp hour batteries. **3**

PREMIUM 10 OR 30 WATT MONOCRYSTALLINE SOLAR PANEL KIT | AXDP OR AX30

The monocrystalline 10W or 30W solar panels are a great solution for anyone who is installing a gate operator system in a remote location that does not have easy access to 120V AC power. **4**

STANDARD, PREMIUM AND WATER-RESISTANT REMOTE TRANSMITTERS | AXS1, AXP1 OR AXR1

All remote transmitters will control up to two separate Ghost Controls® gate systems (single or dual) and can be learned as a new remote to an existing system. **The Premium Remote** adds the ability to enable or disable PartyMode® (PARTY), along with determining gate opener system battery status (TEST). **The Water-Resistant Remote** includes mounting bracket for golf carts, ATVs, tractors, motorcycles, etc., and has large glow-in-the-dark buttons for use with gloves. **5**

PREMIUM WIRELESS KEYPAD | AXWK

The Wireless Keypad not only opens and closes your Ghost Controls® gate, but you can create up to 40 unique codes for guests to access your property. The keypad also provides the ability to activate or deactivate PartyMode® (PARTY), 1KEY® (PartyMode Secure®) (1C) and VacationMode® (V). The Wireless Keypad can also be used as a wireless exit if placed inside your property. **6**

OUTDOOR MOUNTING PEDESTAL | AXGN

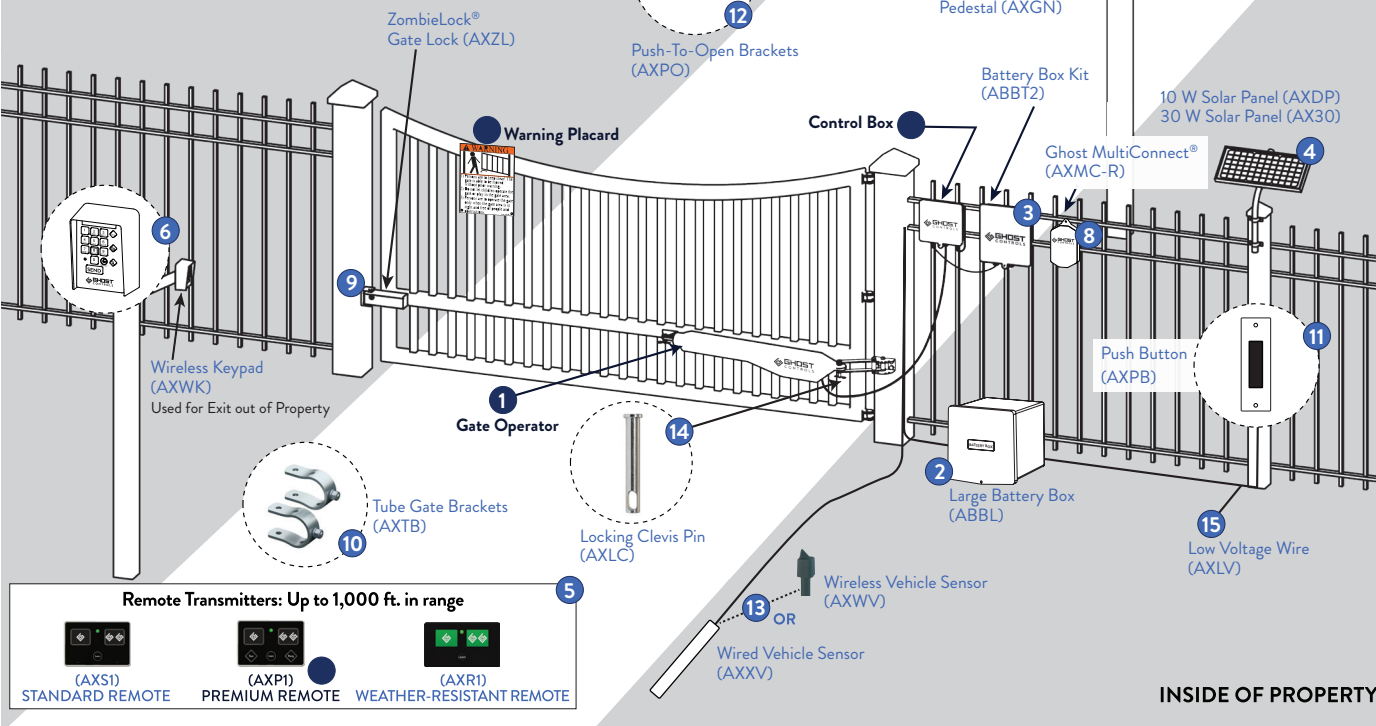

A simple and convenient solution for adding a Wireless Keypad to any post or column. This bracket is powder-coated aluminum and allows added convenience for access to a keypad from any vehicle. **7**

GHOST MULTICONNECT® KIT | AXMC-R **8**

Connects into the control panel and works with the Ghost Controls App to control your gate from your phone while using bluetooth, wifi or internet.

OUTSIDE OF PROPERTY

INSIDE OF PROPERTY

ZOMBIELOCK® | AXZL

The ZombieLock® will provide your home with the latest in automatic gate lock technology with advanced feedback to your Ghost Controls® gate controller. For single gates up to 16' max. or 12' max. for dual. **9**

UNIVERSAL TUBE BRACKET KIT | AXTB

These mounting brackets attach to 1-1/2"-2" round tube gates. They can be used to install gate openers, the ZombieLock®, or any other device that needs to be attached to round tube gates. **10**

WIRED PUSH BUTTON | AXPB

The standard push button will control a single or dual gate system up to 1,000' away with low voltage wire (not included). **11**

PUSH-TO-OPEN BRACKETS* | AXPO

These brackets are used for installations when gates open away from the property and replace the rear mount pivot brackets. *Single gates require one and dual gates require two sets. **12**

WIRED AND WIRELESS VEHICLE SENSOR | AXXV OR AXWV

The Ghost Controls® Vehicle Sensor is the easiest way to trigger your gate to open when a vehicle is trying to exit your property. The sensor is installed next to your driveway and connects to your gate's control board or wirelessly. **13**

LOCKING CLEVIS PIN | AXLC

This pin secures the rear of the opener arm to the gate with a padlock (sold separately). **14**

LOW VOLTAGE WIRE | AXLV

16 gauge stranded two conductor outdoor wire is recommended for use with installing our ac transformer. Can be used for the pushbutton and extending the solar panel wire too. **15**
