IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY BEFORE USE.

- Always allow to cool for a minimum of 3 minutes before removing from the microwave.
- Keep sterilising bags out of the reach of children.
- Wash hands thoroughly before handling sterilised items.
- Using less than the recommended amount of water may lead to the distortion of items.
- Heating for more than the recommended time will damage the contents.
- Do not overfill.
- Take care when handling the steriliser bag after heating, the bag and contents will be very hot.
- Only sterilise items that are suitable for microwave sterilisation.
- Only use microwave safe plastics in the sterilising bag.
- Do not put metallic items in the sterilising bag.
- Not suitable for cooking purposes.
- Remove metallic grill from the microwave before placing the bag in the microwave.
- Only use in a domestic microwave. Do not place in a conventional oven or grill.
- Follow the correct time for your microwave, do not heat for longer than recommended.
- Inspect the sterilising bag before each use. Discard at first signs of damage.
- Record each use and dispose of sterilising bag after 30 uses.
