A - Basin

D - Legs

B - Heat sensitive drain plug

E - Hook hole

C - Shower head holder

EN 17072:2018 PN-EN 17072:2019

DANGER! Your child can drown if left alone.

INSTRUCTIONS FOR USE

1. Make sure the basin's drain plug is securely fitted into the drain hole before filling the infant tub.
2. Place the infant tub into an **EMPTY** full-size adult bathtub with an **OPEN** drain. **ENSURE** that tub is level and stable.
3. Fill the infant tub with the minimum amount of lukewarm water to a level that is well below baby's neck. **ALWAYS** test the water temperature and water level **BEFORE** placing your baby into the tub. **WE RECOMMEND THAT YOU NEVER PLACE MORE THAN 2 CM OF WATER IN THE TUB.**

ATTENTION!: The drain plug is heat sensitive and will provide an approximate indication of the water's temperature. The colour of the plug starts fading when the water temperature is approximately 36°C and becomes transparent when the water temperature is approximately 41°C.

HOW TO ASSEMBLE

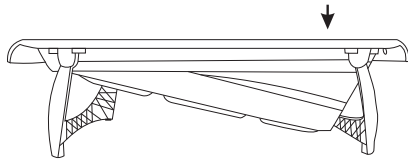

Remove and discard all packaging.
! KEEP ALL PACKAGING AWAY FROM CHILDREN.
Place tub on a flat surface .

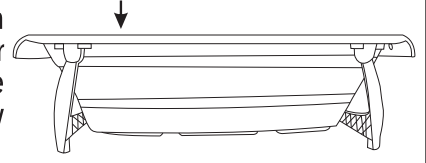

Pull each support leg out one at a time. **ENSURE** that both support legs are firmly locked into place.

Stand tub upright and press down on one side of the basin. **ENSURE** that both support legs are firmly locked into place.

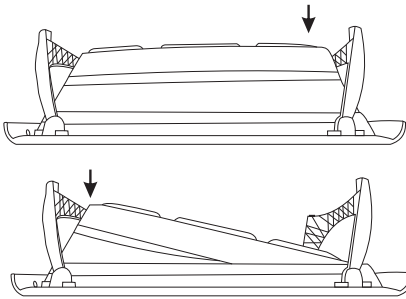

Press down on the other side of the basin to fully unfold tub.

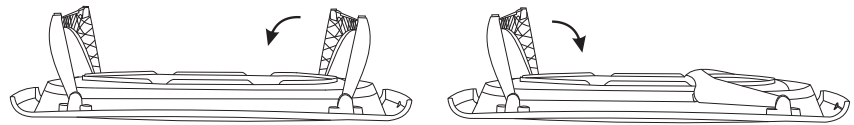

HOW TO DISASSEMBLE

Once the tub is fully drained, flip the bathtub upside down on a flat surface and press down on each side of the basin one at a time.
