IMPORTANT, RETAIN FOR FUTURE REFERENCE: READ CAREFULLY BEFORE USE.

For your baby's safety and health WARNING!

- Keep all components not in use out of the reach of children.
- Always use this product with adult supervision. Accidents have occurred when babies have been left alone with drinking equipment due to the baby falling or if the product has disassembled.
- Never use feeding teats or cup spouts as a soother or teether.
- Inspect before each use. Throw away at the first sign of damage or weakness.
- Continuous and prolonged sucking of fluids will cause tooth decay. Tooth decay in young children can occur even when non sweetened fluids are used. This can occur if baby is allowed to use the cup for long periods through the day and particularly through the night, when saliva flow is reduced or if it is used as a soother.
- Take extra care when microwave heating. Always stir heated food to ensure even heat distribution and test the temperature before serving.
- Keep all components not in use out of the reach of children.
- Do not store or leave in direct sunlight or near a source of heat, or leave in sterilising solution for longer than recommended, as this could weaken the spout.
- Ensure that your cup is assembled correctly in-line with the assembly instructions.

Fully disassemble and wash all components thoroughly in hot soapy water or in the top rack of your dishwasher before first and after each use. Top rack dishwasher safe (max. 65°C). Suitable for all methods of sterilisation. Do not use abrasive or solvent based cleaning agents as this may cause damage. Do not store or leave in direct sunlight or near a source of heat, or leave in sterilising solution for longer than recommended, as this could weaken the spout.

This product conforms to BS EN 14350 standards.
