25+ YEARS MAKING PROJECTS COME TO LIFE

SINTERED STONE

Sintered Stone is a popular choice among both designers and homeowners due to its versatility, beauty, practicality, and affordability of the product.

Minerals and stone particles like the ones found in porcelain or granite are carefully selected for quality, color, and texture. These particles are then subject to extreme heat and pressure – just like they would be deep in the earth’s crust for thousands of years, but achieved much quicker. When the process is finished, the particles are bonded together permanently, without the need for resins or bonding agents, to create Sintered Stone.

CUSTOM MADE PRODUCTS

BENEFITS

Sintered Stone is almost impossible to distinguish from natural stone – unless it's been made in some unlikely color or pattern! Benefits of Sintered Stone include:

- Durable material.
- Weatherproof.
- Unaffected by heat or cold.
- Waterproof.
- Stainproof.
- Very hard to chip, scratch or damage.
- Easy to clean.
- Food safe and hygienic.
- Non-porous which means the stone doesn't need sealing.

CUSTOM MADE PRODUCTS

IT IS USED FOR

It can be used for almost anything natural stone can be.

- Kitchen worktops.
- Bathroom vanities.
- Wall cladding.
- Flooring.
- Stairs.
- Patios and outdoor flooring.
- Exterior wall cladding.
- Fireplace surrounds.
- Swimming pool tiling.
- Spas and wet rooms.
