

Concrete domestic landscape

Collezione 2020

Come nell'architettura classica Fusto, ideato da Studio Irvine è la colonna che sorregge tavolini, consolle, librerie e piedistalli. I volumi e le proporzioni sono integrate in una geometria senza tempo, arricchita da sfaccettature che fanno vibrare il colore in un gioco di luci e ombre. Fusto è l'eterna architettura.

As in classical architecture Fusto, designed by Studio Irvine is the column that holds tables, consoles, bookcases and pedestals. Volumes and proportions are integrated in a timeless geometry, enriched with facets that make the colours vibrate in a game of lights and shadows. Fusto is eternal architecture.
