OUR STORY

The ancestry of this region of southern Chile, **is tracked back to the Mapuche People**, known to live in harmony with the beauty, purity and abundance of nature.

THEY NAMED COLICO LAKE IN THEIR NATIVE LANGUAGE
AGUA CLARA OR “CLEAR WATER”

In 1912, Mrs. Amalia de Silva started using the spring to distribute water to the few households around the lake. Providing water of extreme purity and balance of minerals, this spring has been keeping the small local population in excellent health for over a 100 years.

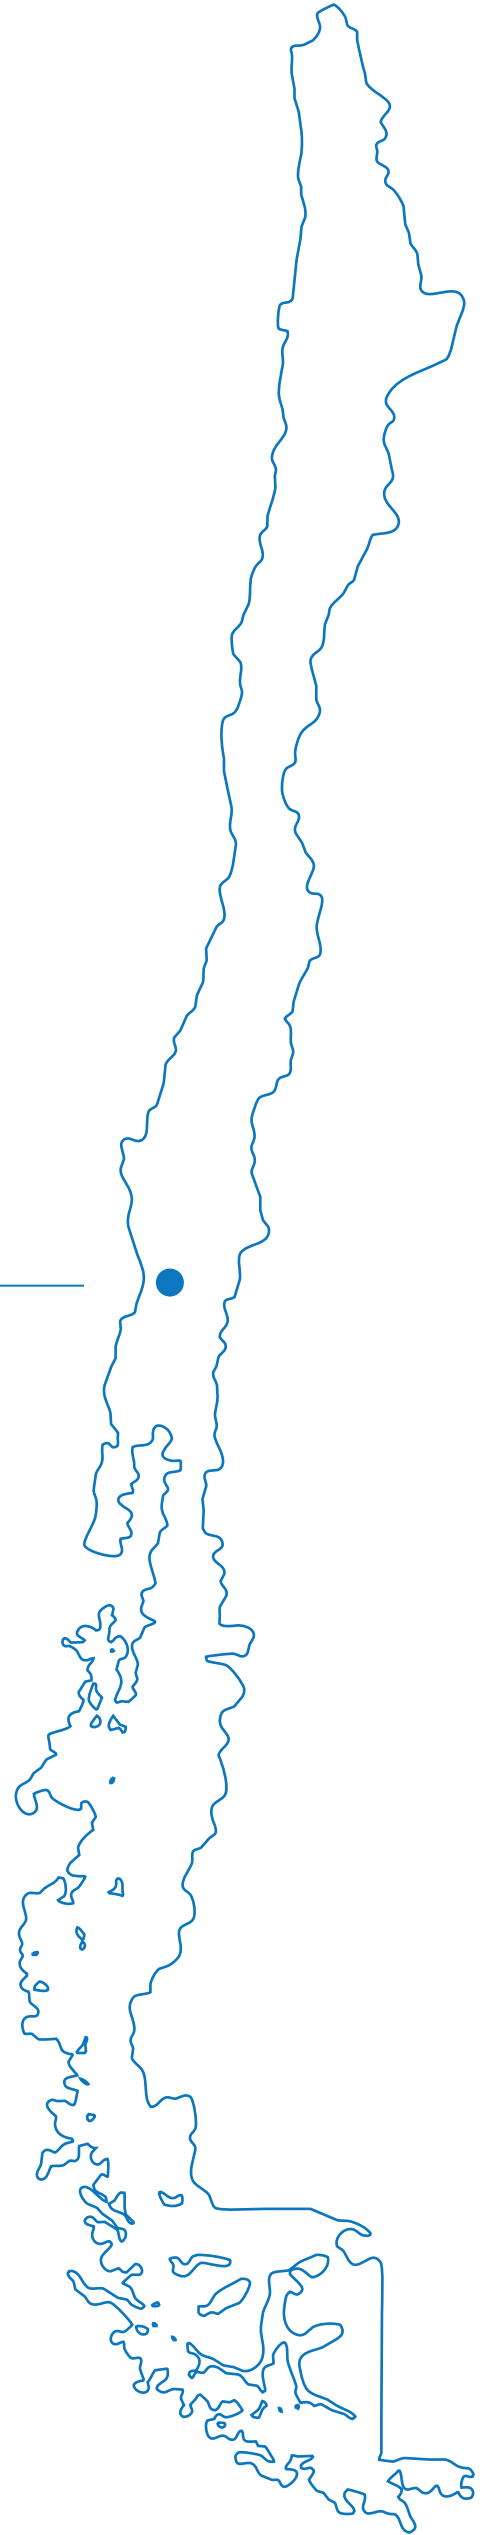

In 2012, a group of entrepreneurs started sharing this beautiful experience with the rest of the world.

OUR SOURCE

It starts on top of the **world's largest mountain range**
Where the **untouched snow** melts in the Spring
And percolates peacefully down the mountain for **25 years**
Ending its journey at the source in a biosphere protected by **UNESCO**
To offer **the world's purest water in its original natural state**

“UNTOUCHED FOR 25 YEARS”

WE REGARD OURSELVES AS

“ARTISANS OF WATER”

OUR APPROACH

Handled with attentive care by our local artisans we ensure that Andes Mountain Water is the closest experience to **drinking directly from the source.**

We treat our environment with **respect** by bottling water at a limited and exclusive volume that represents **less than 0.6% of the total spring flow.**

Andes Mountain Water is bottled at the source

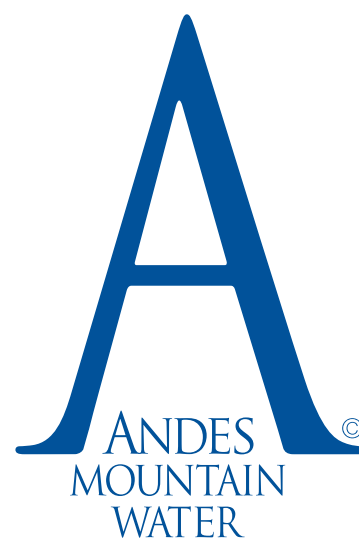

OUR SINGULARITY

Located at the foothills of the Andes Mountains
Our source springs in the **Araucarias Biosphere** protected by **UNESCO** for its richness in flora and fauna.
Hundreds of **miles away from any industry**,
With a balance of **pH 7**.

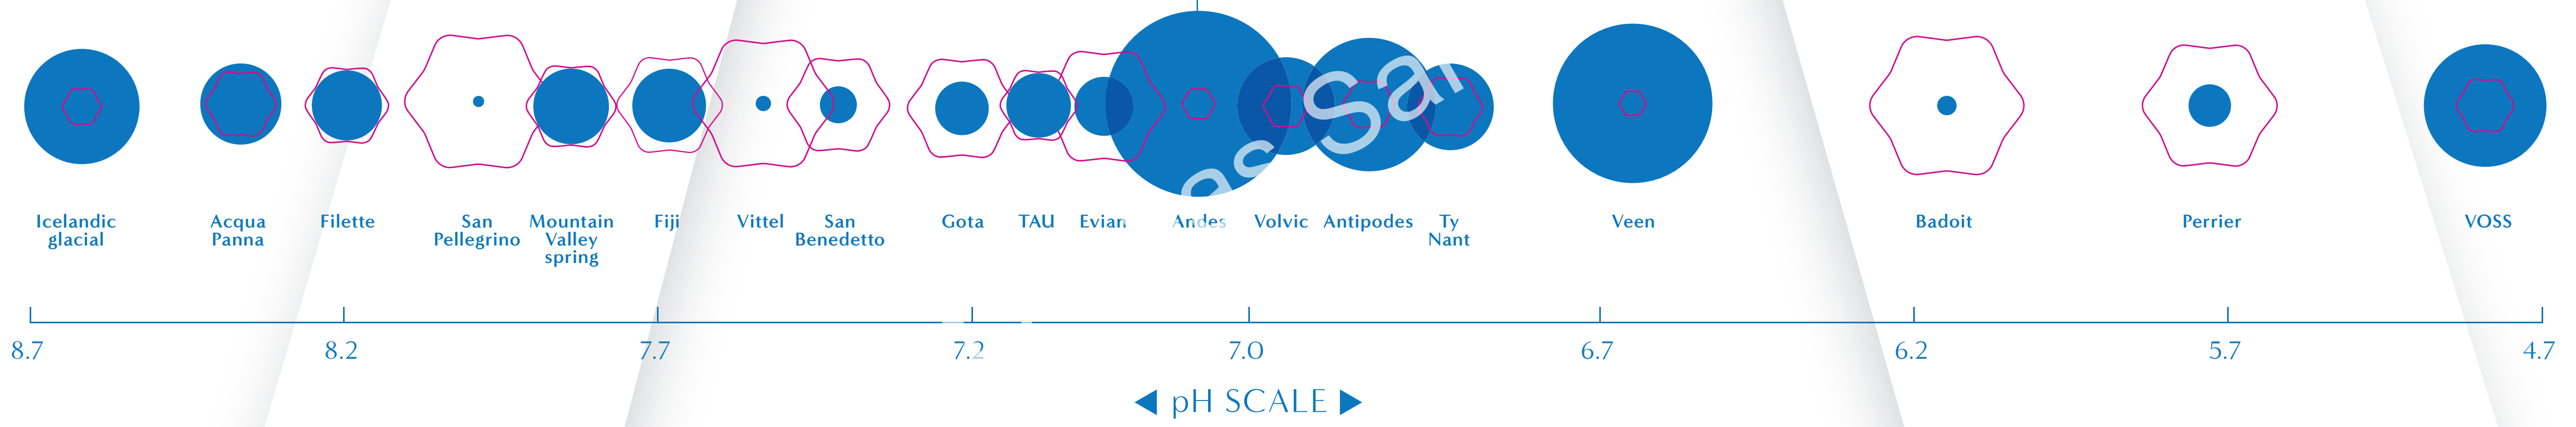

ANDES MOUNTAIN WATER
IS ONE OF PUREST WATERS
IN ITS NATURAL STATE.

Exceptionally **low in Total Dissolved Solids**.

A very **soft & mild taste**, **Low minerality**, and **almost sodium free**
