Tip: Please wear the device a little tighter for accurate functioning of the heart rate monitor.

How to download & connect to 'BoulTrack' App

"BoulTrack" App download method

1. For Apple mobile phones, the App can be downloaded from the App store.
 2. For Android mobile phones, App can be downloaded from Google play store.
 3. Scan the QR code in the watch to download the APP.
- To install the App, please register and log in according to the interface prompts. You need to turn the Bluetooth ON.
 - In the device interface, select the Bluetooth name 'BoulT Rover' for connecting, and the watch can be used normally.

Tips

1. For the first-time connection with Android, "Permissions" reminder will pop-up. Please follow the guidance and allow permissions to ensure all functions work properly.
2. Mobile phone system of Android 5.0 or IOS 9.0 or above is recommended.
3. Please upgrade the app to the latest version to get a better experience.
4. For the first time connection with iPhone, "Pair" reminder will pop-up. Click on Pair, for incoming calls and instant messages to be pushed.
5. To connect successfully, please turn on mobile phone's Bluetooth, GPS and mobile network.
6. If the device cannot be searched or connected during use, please reset or turn off the watch and try again.

Operating Instructions

(A). Quick Settings: On the dial interface, swipe from top to bottom.

(B). Notification: On the dial interface, swipe from bottom to top.

(C). Shortcut menu: On the dial interface, swipe from left to right.

(D). Steps, heart rate, sleep, and other interfaces – On the dial interface, swipe from right to left.

Function introduction

Exercise data: Swipe the touch screen from right to left to enter the exercise data interface and view the day's data: steps, distance, and calories

Weather: After the watch is connected to the mobile App, the weather will be automatically synchronized to the watch.

Heart rate monitoring: The green light at the bottom lights up to start the measurement, and the monitoring is completed in about 30 to 60 seconds. The measured value is based on PPG technology measurement.

Voice assistant: After the watch is connected to the mobile App, the voice assistant function can be used directly.

Frequent contacts: After the watch is connected to the mobile App, find the frequently used contacts in the settings, and add contacts as required.

Stopwatch: Click on the triangle to start. Click again to pause. After pausing, click on the left button to restore.

Alarm clock: Find the alarm function in the list, and add an alarm according to the corresponding settings.

Blood oxygen monitor: The red light at the bottom lights up to start the measurement, and the monitoring is completed in about 30 to 60 seconds. The measurement value is based on PPG technology measurement.

Sleep: Shows the sleep monitoring status of the day. The data is updated every day, and the specific data can be synchronized to the App to view.

Breath training: Select the corresponding time, inhale and exhale according to the interface, in order to achieve the purpose of exercise.

Women's health: After linking to the App, you need to set the gender as female in the App. According to the physical health prompt settings, the watch will prompt the corresponding status.

AOD clock: Set the digital clock or analog clock in the settings, and the corresponding clock interface will be displayed after the watch normally turns off the screen.

Music: After connecting to the App, open the music player to control the music playback.

Dial Switch: The dial can be selected, and switched by long pressing on it. It supports push dial (multiple dials options are inbuilt in the watch)

Remind to Drink: The device will remind you to drink water at scheduled time intervals. More details can be viewed in app.

Remind to Move: The device will remind you to move after one hour of resting. More details can be viewed in app.

Sport mode: Enter the interface to perform various sports modes: outdoor running, walking, treadmill, mountain climbing, cycling, basketball, yoga, elliptical machine and other sports modes.

Notifications: After the watch is connected to the mobile App, new pop-up information on the mobile phone will be pushed to the watch side synchronously. The watch will store multiple pieces of information.

Phone Calling: Connect and use phone calling feature. You can check contacts and calls record.

Timer: After selecting the corresponding time, start the timer, and the timer will end with a vibration.

Brightness adjustment: Brightness or darkness can be adjusted.

Power on/off: Press and hold the side button for 5 seconds on the dial page.

Power saving mode: When turned on, the brightness drops to the lowest level, and the incoming message does not vibrate to remind.

Do not disturb: After turn it on, the watch will no longer receive messages.

Menu view: The style of the main menu can be switched, and it can be switched to grid view or list view.

Restart: Restart the watch in settings, or hold power button for 3 seconds.

Version: Displays the Bluetooth name and version number.

Reset: Restores factory settings.

APP download: Scan the QR code to download the APP.

Scan & Download 'BoultTrack' App

Using in Wet Conditions: Your gadget is water-resistant, which means it can withstand even the sweatiest workout while remaining splash- and rain-proof.

NOTE:

Do not wear your Smart Bracelet when swimming. Additionally, even while bathing with your wristband won't harm it, wearing it constantly prevents your skin from getting enough oxygen. When your bracelet gets wet, properly dry it before re-putting it on.

Using Quick View: With Quick View, you can view the time or a message from your phone on your smart bracelet without taping. Simply turn your wrist in your direction, and the time screen will appear for a brief period of time.

Warranty

1. One-year warranty for default hardware defectives, charging cable.

2. Below reasons for defects are not included in free warranty service:

(1) Personal assembling or disassembling.

(2) Damage due to dropping the product during use.

(3) All man-made damages or due to the third party's fault, improper use (such as: water in the smartwatch, external force shattering, scratches during use, etc.)

3. Please provide the warranty card and contact with direct dealers for warranty service.

4. Please note that all the functions of the product are based on physical objects.

Notes:

1.To ensure water resistance works right, please DO NOT:

(1) Wear the watch during swimming, hot shower, or drop hot tea and other corrosive liquids.

(2) Remove any screws or buttons.
