

*Barwon Timber is one of the few mills capable of making custom cutters to produce bespoke and restoration architraves and timber profiles. We do this at our Geelong Mill.*

**Barwon Timber** is capable of machining a number of timber profiles in a range of species at our Geelong mill.

Barwon Timber has a number of standard architrave and skirting profiles. If you require something not in our folio, we are capable of machining bespoke architraves, skirtings and timber profiles.

For more information, please contact our timber or showroom sales teams. Profiles shown in this folio are not to scale and sizing may vary.
